## CHILD SAFETY

It's your first priority, but child and pet safety is often the last thing you think about when choosing window coverings. Did you know that the most common window products in homes are not child safe? Those horizontal blinds that were there when you moved in are a potential strangulation hazard for your little ones. As our infographic shows, accidents still happen with those long cords.

### BEST FOR KIDS™ CERTIFICATION PROGRAM

The Best for Kids™ certification label makes it easy for parents and caregivers to identify products that are best suited for their home.

To become certified, Lafayette Interior Fashions must meet the specified program criteria and submit their window covering products to a designated third party testing laboratory. To pass the tests, the products may not have:

- operating cords
- inner cords that are accessible
- cords that create a hazardous loop or potential wrap-around hazard

### ADDITIONAL SAFETY MEASURES

The window covering industry uses warning tags, labels, and other methods to communicate potential hazards. The warning shown here communicates the important message that cords are a potential strangulation hazard and suggests choosing cordless or inaccessible-cord alternatives. Together with the Window Covering Safety Council, we encourage you to install only cordless window coverings in rooms where children play and sleep.

For kids' sake, we offer a wide array of lifting system options, from cordless and motorized operating systems to retractable lift cords, cord tensioners, and wand controls for enhanced child safety.

All Lafayette products that utilize a clutch system are sent with a Cord Tension Lock. The Cord Tension Lock must be secured to the wall to provide the necessary tension for the shade to operate.

All **motorized** window treatment products offer child safe operation since the motor unit provides the mechanism for raising and lowering the shade.

For additional window treatment child safety information, please visit the Window Covering Safety Council ([www.windowcoverings.org](http://www.windowcoverings.org)).

**Important note:** 2-On-1 headrail only applies to the Allure Transitional Shade and with clutch lifting system only (not available with Accu-Rise). It will have a **single** privacy fabric shade at the back; therefore **standard maximum width will still apply.**

# Product Information - Small and Large Cassette

## Product Features

- Fits rectangular window openings
  - Clutch operated with beaded loop chain
  - Includes a fabric insert, color coordinated cassette
  - Color coordinated beaded loop chain, bottom rail and end caps
- [View Color Coordination](#)

## Size Standards

- [Cassettes](#)

## Important Child Safety Note

The revised American National Standard Institute for Safety of Corded Window Covering products requires that shades with cord loops must be mounted with functioning cord tensioners that have not been modified from original specifications.

## Continuous Bead Chain Drops

Shade Length	Drop	Shade Length	Drop
Up to 22"	12"	66 1/16" - 78"	60"
22 1/16" - 30"	18"	78 1/16" - 90"	72"
30 1/16" - 42"	24"	90 1/16" - 102"	84"
42 1/16" - 54"	36"	Over 102"	96"
54 1/16" - 66"	48"		

• For inside mount - Chain length must be at least 4" shorter than ordered length to ensure proper tensioner installation.

## Hardware Included

- [Installation Brackets](#)
- [Cord Tension Lock](#)

## Finished Dimensions & Mounting Requirements

### Options

- [No Charge Options and Availability](#)
- [Surcharge Options and Availability](#)
- [Design Option Details](#)
- [Exclusions](#)

### Ordering Notes

- **Vane Alignment** - Must be requested at time of order. We can not guarantee vane alignment for more than 4 shades together.
- For 2-On-1 headrail, controls must be on left and right side.
- Allure transitional shades will come set to stop in the closed position at ordered length.
- Max width for 2-on-1 headrail is 156"

### Caution

- Fabric Covered Large Cassette - With certain fabrics, ([Fabric Information](#)) Large Cassette will have sheer and solid fabric layered to create a unique appearance (See photo). Therefore a Small Cassette and Large Cassette will not have the same appearance within a room.
- Vane positioning from front of shade to rear may vary up to 1/8" from one end of the shade to the other. For wider shades, this variance could increase slightly.

## Pricing

## Shade Operation

The transition of light is created with dual layers of fabric alternating between sheer and semi-opaque or opaque horizontal fabric vanes. As the fabric moves the layers bypass on the window creating different levels of light-filtering options. You can raise and lower your shades while still controlling the amount of light and your view.

Small Cassette

Large Cassette

Double Layered Large Cassette

Available in: White, Vanilla, Brushed Nickel, Bronze and Black

# Product Information - Modern Cassette

## Modern Cassette System Features

- Fits rectangular window openings.
- Available in Black, Bronze, Brushed Nickel, Vanilla and White. [View Color Coordination](#)
- Fabric inserted into front of cassette.
- The metal hem and end caps help prevent the shade material from rolling completely into the cassette.

## Size Standards

- [Cassettes](#)

## Important Child Safety Note

The revised American National Standard Institute for Safety of Corded Window Covering products requires that shades with cord loops must be mounted with functioning cord tensioners that have not been modified from original specifications.

## Continuous Bead Chain Drops

Shade Length	Drop	Shade Length	Drop
Up to 22"	12"	66 1/16" - 78"	60"
22 1/16" - 30"	18"	78 1/16" - 90"	72"

## Ordering Notes

- **Vane Alignment** - Must be requested at time of order. We can not guarantee vane alignment for more than 4 shades together.

## Caution

- Accu-Rise is meant to be raised or lowed by applying controlled, level, pushing or pulling force to the center of the bottom rail. Acute application of force can cause fabric to roll over itself and/or cause the material to tear. Operating the shade off center will cause skewing damage to the ends of the fabric. Care should be taken when using the handle on Accu-Rise shade with fabric wrapped bottom rail. Do not allow the handle to move along the bottom rail or fabric could be damaged.

## Shade Operation

- The transition of light is created with dual layers of fabric alternating between sheer and semi-opaque or opaque horizontal fabric vanes. As the fabric moves the layers bypass on the window creating different levels of light-filtering options. You can raise and lower your shades while still controlling the amount of light and your view.

- [Design Option Details](#)
- [Exclusions](#)

### Ordering Notes

- **Vane Alignment** - Must be requested at time of order. We can not guarantee vane alignment for more than 4 shades together.
- To price, add the Allure fabric base price to the Couplitaire privacy fabric surcharge.
- Allure transitional shades will come set to stop in the closed position at ordered length.

### Caution

- Fabric Covered Valance - Will have sheer and solid fabric layered to create a unique appearance - [Fabric Information](#)
- Maximum Width of Allure shade will be dependent on maximum width of Privacy fabric selected. Maximum width will be the smaller width of the two selected.
- 2-On-1 Headrail applies to Allure Transitional shade only. Will have a single privacy shade so max width will still apply.
- For 2-On-1 headrail, controls must be on left and right side.
- **Vane positioning from front of shade to rear may vary up to 1/8" from one end of the shade to the other. For wider shades, this variance could increase slightly.**

### Pricing

- To price, add [Couplitaire Surcharge](#) to base price charts.
- If both Allure Transitional Shade and Privacy Shade are to be motorized, motorization surcharge is to be doubled.

## Shade Operation

The transition of light is created with dual layers of fabric alternating between sheer and semi-opaque or opaque horizontal fabric vanes. As the fabric moves the layers bypass on the window creating different levels of light-filtering options. You can raise and lower your shades while still controlling the amount of light and your view. The Cordless system is lowered by pulling shade or giving a slight tug to lift.

- [Surcharge Options and Availability](#)
- [Design Option Details](#)
- [Exclusions](#)

## Caution

Place the fabric preserving tab on the edge of a solid fabric vane at the optimal operation level of the shade. Always avoid direct contact with the fabric. Natural oils found in our skin can cause even clean hands to leave permanent stains on some fabrics.

## Shade Operation

Transitional Shade sidelights are operated by gently pulling up or down on the fabric preserving tab placed on a solid fabric vane. Moving this tab up or down will cause the fabric to begin rotating around stationary rails mounted directly to the top and bottom of the sidelight. (See image below) Operation of the Sidelight Transitional Shade allows changes to the vane openness but will not change the overall width or height of the shade.

# Design Options - Valances and Metal Accents

## Fabric Wrapped Valances

- Available on board mounted Allure shades.
- A board wrapped in shade material, attached with velcro to a painted or stained color coordinated dust cover.
- 4 5/8" or 7" valance, fabric has velcro attachment to the board.
- Maximum width of valance is fabric width. Valances over 95" will have a splice. A fabric keystone is included to cover 2" splice.
- On certain fabrics, ([Fabric Information](#)) Fabric Wrapped Valance will have sheer and solid fabric layered to create a unique appearance.

Valance with Splice

## Mixed Metal Designer Accents

- The face of the cassette can be covered with one of five Designer Accent materials.
- The front and back of the bottom rail is also wrapped in the same selection.
- Available for Small and Large Cassette, Accu-Rise and motorized systems.
- Maximum width 120".
- For 2-on-1 Headrail use overall width to price.
- Hardware is color-coordinated to Allure material unless specified.
- Colors available: Brushed Sterling, Brushed Titanium, Brushed Graphite, Bronze Shimmer, and Bronze Pearl. Samples are available using [MySwatch](#)

Cassette with Mixed Metal Accents

## Fabric Wrapped Valance Returns

- For inside mounts, no returns will be sent unless specified (see undersize return).
- **Standard Return** - The standard return is 3 1/4" (measured from the back of valance) with a 3" mounting board.
- **Oversize Return** - required for an outside mount on trim or when using extension brackets. The size you specify is equal to the depth of the trim (wall to the high point of the trim) or the depth of the extension brackets. We will add that measure to the standard return.
- **Undersize Return** - required for an inside mount protruding into the room. The size you specify is equal to the recessed mounting depth.
- **Exact Size Return** - The size you specify is equal to the measurement from the back of the return to the back of the valance face (inside miter).
- **Minimum Return:** 1"
- **Maximum Return:** 7"
- Valances wider than 95" will be spliced with a fabric keystone

# Product Information - Design Options Information

## Bead Chain Options

- Available on Cassettes, Board Mounted and Couplitaire
- Plastic bead chain colors are White, Vanilla, Black, Brown, Sierra Tan, and Gray.  
Bead chain is color coordinated to the shade color.
- Bead chain lengths are 12", 18", 24", 36", 48", 60", 72", 84" and 96".
- Bead chain lengths must be at least 6" shorter than window length for inside mounts to properly install tensioner.

## Metal Bead Chains

- Available with a clutch lifting system as a surcharge option
- Finishes available: Stainless Steel, Antique Bronze, Gun Metal, Burnished Copper.

Stainless Steel      Antique Bronze      Gun Metal      Burnished Copper

## 2-on-1 Headrail

- Two shades share a common headrail
- Overall max width is maximum single shade width with a [fabric wrapped valance](#), with wood valances: 96"

## Vane Alignment

- Alignment of the semi-opaque or opaque fabric vanes can be guaranteed within 1/4" if shades are ordered at the **same time**, in the **identical style, color and height, and room number specified**. We can not guarantee vane alignment for more than 4 shades together. Only applies when shades are in the fully lowered open or closed position. Must be same headrail type.  
[View Fabric Information](#)

## Exposed Roller

- Allure transitional shades will come set to stop in the closed position at ordered length. The exposed roller option has the stop set to come past order length and allow for minor adjustments.

## Fabric Wrapped Bottom Rail

- Bottom Rail is wrapped in shade material
- Fabric does not cover the entire back side of the bottom rail in order to comply with the CPSC child safety label requirements
- Not available with fabric Covert

Fabric Wrapped Front

Fabric Wrapped Back

Standard Bottom Rail

## Light Gap Stop

- Blocks light gap for shades inside mounted in rectangular openings.
- Comes with self adhesive tape attached for installation.
- Projection is 1 5/8".
- Ordered by lineal foot.
- Made of PVC and available in 5 colors: Black, Bronze, Gray, Vanilla and White

Large Cassette - Item # 100-37000-82

Small Cassette

Large Cassette

## Magnetic Hold Downs

- Magnets are applied to bottom rail and hold down magnets are attached to the window frame to hold the bottom rail in place when the shade is lowered.

Item # 15-9108

## Modernaire Bracket

Item # 80-20053-11

## Couplitaire Bracket

Item # PT-SV32

## Optional Hold Downs

- Metal is inserted at the ends of the bottom rail and hold down brackets are attached to the window frame to hold the bottom rail in place when the shade is lowered.

Item # 80-37053-xx

03-Black, 09-Vanilla, 11-White, 38-Bronze

## Sidelight Bracket

Item # 15-2009

## Bottom Rail

- The shape is designed to keep the two fabric layers closer together as they move through the bottom rail.

## Optional Extension Bracket

Item # PT-SV32

Item # PT-SV30

2 3/4" PROJECTION BRACKET  
OR  
3 5/8" PROJECTION BRACKET

## Cord Tension Lock

- Standard on all Allure shades with Clutch system.
- Must be secured to the wall to provide the necessary tension for the shade to operate.
- Available in white, vanilla, black, brown, clear, or gray. Will coordinate with the fabric color.

## Optional Spacer Block

Item # SP-31

1" W x 1 3/4" L x 3/8" Depth

## Button Catch for Arch

Receiver - Item # B0-07000-034

Catch - Item #702664

Screw - Item TFP-04051-034

## P Clip Safety Tensioner

- An option in place of a cord tension lock. The clear P-Clip has a torsion spring that will open the tensioner and prevents the chain from sliding through it. The tensioner will then render the shade partially inoperable if it is loose from the wall.

Shipping Position

Attached to Wall

# Measuring & Installation Information

## Best Practices for Measuring

- Always use a steel tape or a metal ruler for measuring.
- Always measure every window even though they look the same.
- Check for obstructions that could affect operation of the shade.
- For Inside Mount (jamb to jamb in a window or door, wall to wall in a room), give exact inside to inside width measurements, and top to bottom length measurements of the area to be covered.
- Measure the width in at least three places and specify the narrowest width.
- Measure the length in at least three places and specify the shortest length.
- Take two diagonal measurements. If there is a greater than 3/8" difference in diagonal measurements, outside mount is strongly recommended to avoid irregular light gaps.
- For Outside Mount, measure the exact width and height of the area to be covered.

## Measuring for Allure Shades

- All shade pricing is based on the width and the window opening height. Orders are accepted for inside or outside dimensions, to the nearest 1/16".
- It is critical that the shade brackets be mounted so that the shade is level when installed.
- For an Inside Mount, measure the exact width between the jambs (inside) where the shade is to be mounted. If the end caps are not tightly secured it is possible the shade will not fit in the opening.
- For an Outside Mount, we recommend that the brackets be placed to allow a minimum of 1 1/2" to 2" overlap on each side of the casement. Measure between the point where the brackets are to be placed and specify that as an outside width.
- For Length, measure the full length of the window opening from the top frame to the lower sill to determine your window length.

## General Advisories

Please examine all merchandise and packages for accuracy and make sure all parts, brackets, etc. are included **before** sending them to be installed. While we constantly strive to make sure each order is exact and complete, we do occasionally make mistakes, and **we cannot be responsible for trip charges or reinstallation charges. Repairs or remakes must be requested within 30 days of invoice date.**

## Allure Care & Cleaning

The operating system of the Allure Transitional Shade dusts the fabric when the panel is rotated thereby reducing the care necessary for the shade. The shade can be feather dusted or vacuumed at a low setting. Allure fabrics are primarily Polyester. Spots can be cleaned with a damp sponge and mild soap. To avoid discoloration, do not use chemical cleaners. Ultrasonic cleaning is not recommended.

## Palladian Window Shelf

- Double beaded hardwood shelf designed to mount horizontally in arched or angled openings to serve as divider and mounting surface for any window fashions product
- Allows area above shelf to be covered differently or uncovered
- Finishes available from Heartland Woods
- Palladian shelf has a 1/32" per foot tolerance for warpage

## Oeko-Tex™ Rating for Mirage Fabric

The Oeko-Tex Standard 100 provides the textile and clothing industry with a globally uniform standard for the objective assessment of harmful substances. Raw materials, intermediate and end products at all stages of processing throughout the manufacturing chain, including accessories, are tested and certified. Certification is obtained by application in writing from the manufacturer to one of the authorized test institutes or official offices around the globe. The samples submitted are tested exclusively in the member institutes in Europe and Japan in order to ensure a consistently high level of testing. The mark "Confidence in Textiles - Test for harmful substances according to Oeko-Tex Standard 100" states that the marked product fulfills the conditions specified in this standard, are under the supervision of an institute belonging to the International Association for Research and Testing in the field of Textile Ecology (Oeko-Tex). The mark is not a quality label. The mark relates only to the as-produced state of the textile and says nothing about other properties of the product such as e.g. fitness for use, reaction to cleaning processes, physiological behaviour in respect to clothing, properties relating to use in buildings, burning behaviour etc.

## Flame Retardant (FR) Coating or Antimicrobial

- A flame retardant or antimicrobial coating is available for Allure fabrics without these inherent properties. The shade is fabricated then sent to an external facility for the flame coating or antimicrobial process. Allow four to six weeks extra delivery time for this service. Standard shipping is included. Call for quote on flame retardant or antimicrobial coating.

## LIFETIME LIMITED WARRANTY

Since 1950, LAFAYETTE INTERIOR FASHIONS has consistently held a high standard of quality for both products and service, ensuring you find the perfect, custom crafted window treatments. The Lafayette Limited Lifetime Warranty represents a dedication to your complete satisfaction.

### COVERED BY THE WARRANTY

- Lafayette Interior Fashions products are covered for defects in materials or workmanship for as long as the original purchaser owns the product (exceptions are noted below).
- All internal mechanisms, components, and brackets.
- Motorization systems (excluding batteries) are covered for 5 years.
- Interior Masterpieces and Sheer Visions fabrics are covered for 3 years.
- Allure Fabrics are covered for 5 years.
- Heartland wood blinds finish is covered for 3 years.
- Operational cords are covered for 7 years from the date of purchase.
- Parasol shades are covered against fabric delamination for 7 years from the date of purchase.

### NOT COVERED BY THE WARRANTY

- Any conditions caused by normal wear and tear.
- Abuse, accidents, alterations, misuse.
- Damage including but not limited to discoloration, fading, cracking, warping, shrinking, or stretching caused by exposure to the elements (sun, condensation, excessive humidity, wind)
- Failure to follow our instructions for measurement, proper installation, use, cleaning, or maintenance.
- Slight color variation; natural variations in color, grain, or weave of natural materials
- Any customer supplied fabric
- Shipping, removal, re-measuring, or reinstallation costs

### TO OBTAIN WARRANTY SERVICE

Contact your original dealer (place of purchase) for warranty assistance. Lafayette Interior Fashions will promptly repair or replace the product or components found to be defective. Warranty claims must be accompanied by proof of purchase.

It is at the sole discretion of Lafayette Interior Fashions to determine whether product will be repaired or replaced. Repairs and or replacements will be made with like or similar parts or products.

**Note:** In no event shall Lafayette Interior Fashions be liable or responsible for incidental or consequential damages or for any other indirect damage, loss, cost, or expense. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WRITTEN OR ORAL WARRANTIES OR OBLIGATIONS AND LIABILITIES. THE DURATION OF ANY IMPLIED WARRANTIES FOR ANY PRODUCT IS LIMITED IN DURATION TO THE WARRANTY TERM APPLICABLE TO SUCH PRODUCT AS SET FORTH ABOVE.
