Oversize Common Carrier Delivery

All orders with any quantity of shades or blinds or any continuous valance 90" or more in width are considered oversize. Therefore, a net shipping charge per oversized unit will be assessed.

Oversized orders that require expedited shipping will be quoted and charged accordingly.

Please see General Information for additional freight and shipping charge information.

INHERENT CHARACTERISTICS

Due to the weave and nature of the material, the following are the inherent characteristics and are not considered as defects:

- A moiré effect may occur when the sheer fabric bands are aligned.
- The fabric color appearance may vary based on changing light conditions in the room or light reflection from interior decor.
- The front fabric may appear wavy or bow due to the weave and construction of the fabric.

Static electricity build up on fabrics is a common occurrence in dry environments, especially during colder seasons, and is attributed to many factors such as temperature, humidity levels, home insulation, etc.. To help reduce static on your shades, lightly spray an anti-static product on the fabric or gently wipe the fabric with dryer sheets. Keeping floors clean and dust free will also help reduce static electricity.

SIDE-BY-SIDE VANE ALIGNMENT

When Dual Shades are installed side by side, vane alignment can be guaranteed within 3/8" only if:

- Shades are ordered at the same time and are identical style, color and height.
- Shades that need to be aligned are specified on the order form (a note must be included in Special Instructions).

ORDERING NOTE

- Finished blind height will always be in the full privacy position – with bands offset
- When you align bands to the view through position, the bottom rail will raise slightly off the window sill – the gap between the sill and bottomrail is approximately 1/2 the band width.

PRODUCT INFORMATION

Cassette Measurement

- 3-5/8" wide x 3" high

Mounting Requirements

Inside Mount

- Minimum shallow mounting surface: 1-1/2"
- Minimum flush inside mounting including brackets for cassette: 3-3/4"

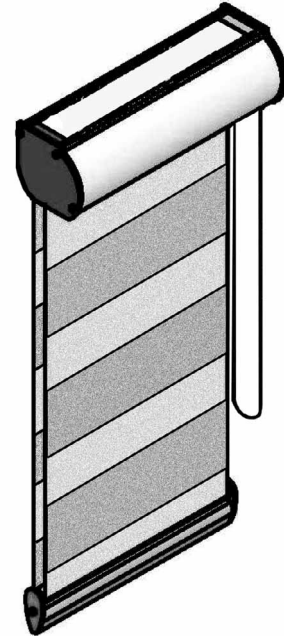

Outside Mount

- Minimum outside mount surface: 1-1/2"

Hardware Colors

Cassette available in white, vanilla, black, dark brown and anodized silver.

- A matching fabric insert in headrail is a standard feature
 - Please Note:** on certain fabrics with narrower bands, the fabric insert will feature both the solid fabric and the sheer.
- Fabric-wrapped bottomrail is a standard feature (non-wrapped bottomrail optional)
- Universal metal bracket will be supplied
- Cord loops and tensioners are color-coordinated

Metal Bead Chain Option

- Metal Chain optional in the following colors: Black Nickel, Oil Rubbed Bronze, Antique Brass, Stainless Steel.
 - (Please note: when metal bead chain option is selected, the tensioner color will coordinate with the Cassette)

Cord Loop, Metal Beaded Chain Lengths

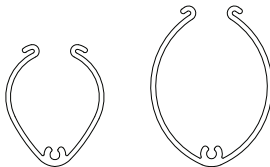

SHADE HEIGHT	LOOP DROP
24" - 39 ⁷ / ₈ "	24" loop
40" - 59 ⁷ / ₈ "	36" loop
60" - 83 ⁷ / ₈ "	48" loop
84" - 107 ⁷ / ₈ "	60" loop
108" - 120"	72" loop

12" Cord Loop (white only) and 12" Metal Bead Chain override option is available. Metal Bead Chain will be in color selected.

Please Note: Environmental conditions, such as heat, humidity, etc., may result in light bowing, puckering and dimpling of the fabric which is considered normal. Some fabrics may lightly fray which is considered normal and within specifications.

Bottom Rails

- Small - 1-1/4" tall
- Large - 1-5/8" tall
- Available in 5 colors: White, Ivory, Bronze, Black and Gray

Retractable Cord

- Cord length is 40% of the shade height

Fabric Note

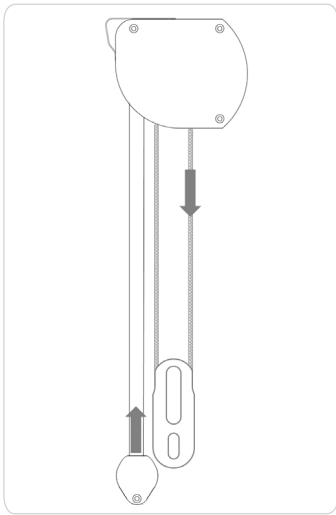

- As with all textiles, Dual Shade fabrics are subject to some variations. Slight wrinkles or waviness are inherent to textile products and should be considered normal, acceptable quality. Waviness can be more prevalent on wide width shades.

Band Alignment

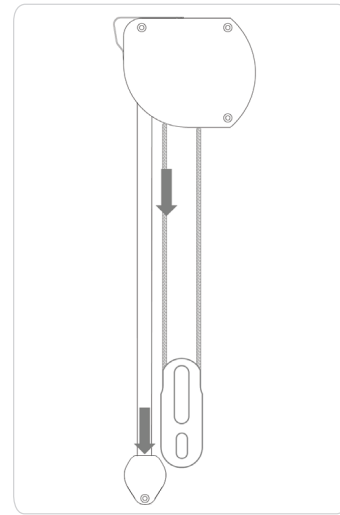

- Band alignment from the front to the back panel can appear different depending on the angle you are looking at the shade. Fabric and sheer bands are set in fabrication to align front-to-back in the closed position. Due to possible slight variances in band sizes, that are within industry standards, when in the open position bands could appear to not align perfectly from the front to the back panel.

STANDARD OPERATION

CAUTION: Make sure there aren't any obstacles or anything resting on the Dual Shade fabric during the operation. Contact of the screen with objects may cause lateral shifting.

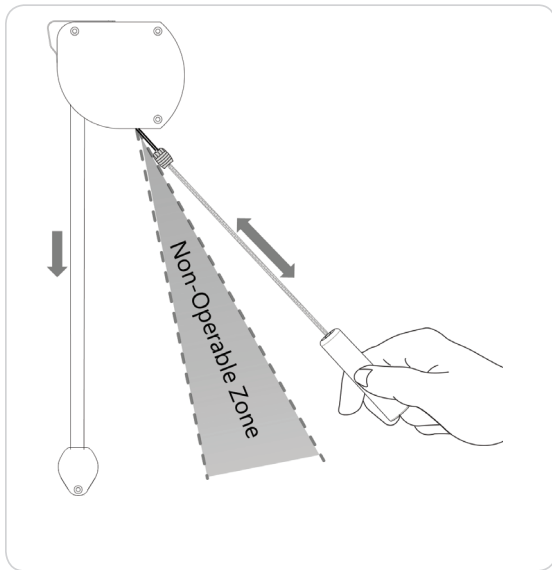

Pull the front of the cord loop to raise the shade.

Pull the back of the cord loop to lower the shade.

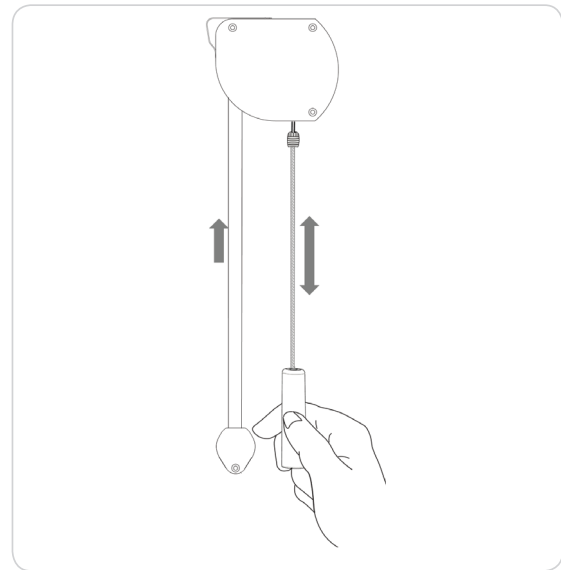

RETRACTABLE CORD OPERATION

CAUTION: To avoid damage to the shade or personal injury, do not use excessive force or long strokes when pulling the cord. Do not release the cord until it is fully retracted.

To Lower the Shade and Transition the Band Position

- Hold the cord toward you and away from the shade.
- Pull the cord using short, even strokes.
- Allow the cord to retract after each stroke. Continue until the shade is at the desired height or the bands are aligned at the desired position.

To Raise the Shade and Transition the Band Position

- Hold the cord close to the shade.
- Pull straight down using short, even strokes.
- Allow the cord to retract after each stroke. Continue until shade is at the desired height or the bands are aligned at the desired position.

IMPORTANT: Avoid pulling the cord in the non-operable zone shown in the illustration.

AGILELIFT OPERATION

- Effortless positioning of the shade. Simply raise and lower the shade to the desired position.
- Two handles are sent with every AgileLift shade and should be installed once the shade has been installed.
- Two hands should always be used with the handles enclosed to operate the AgileLift system, regardless of shade size, to ensure the system stays counterbalanced.
- Handles are also enclosed to help keep fabric clean.
- AgileLift systems are available with the large bottomrail only.

POWERWAND

- Simple, minimal programming for worry free operation.
- Touch and walk away push control options, including favorite positions
- Rechargeable lithium-ion battery powered wand eliminates the need for batteries
- Keep pets and children safe with cord free
- Available in 5 colors: white, vanilla, gray, bronze, black
