Color Lux® Cellular Shades

COLOR LUX
Designer Cellular & Roller Shades

Scotchgard™ Protection

Optional Scotchgard™ Protector is available with Color Lux Linen Shades. Scotchgard™ keeps your shades looking newer, fresher and cleaner longer.

A combination of the latest advances in stain release and repellency provides exceptional stain protection. Spills wipe away easily and most dirt and stains lift out when cleaned.

PRODUCT INFORMATION		
	See Page 25 for detailed information.	
DESIGN UPGRADES		
	Scotchgard Stain Protector	Add \$35 per shade
	Center Stack	Add \$84 Left or Right Stack Standard
	Split Stack*	Price by dividing the full width measurement in half. Price as two separate units and add together.
	Dual Panel**	Price as two separate units and add together.

* Split stack sliders are available in widths up to 240". If the width exceeds 120", it will be fabricated as two separate sliders. The supplied valance will create the appearance of a single slider.

** A Dual Panel Stack Slider has a center opening design with a different fabric on each side, each of which can span the full width of the window. Both panels will be of equal width unless otherwise specified.

Color Lux® Cellular Shades STANDARD CORD LOCK SHADES

Applications

- Standard Rectangular
- Day-Night
- Trapezoids and Octagons
- Top Down - Bottom Up
- Two-On-One Head Rail

Highlights Cornice Valance

Add a designer finishing touch to a cellular shade with a Highlights Cornice Valance. See page 53 for details.

Two-On-One Head Rail with Splicer

- Two-On-One Head Rail shades can also be made using two standard rectangular shades joined by a 6" splicer. (See Figure A below). A retail surcharge does not apply to Two-On-One shades with a splicer.

Two-On-One Headrail with Splicer

Figure A

Things to Consider

- If child safety is a concern, consider cordless options: Cordless Ultra, Cordless Lift & Lock or Motorization.
- Larger shades can be difficult to operate. Consider Cord Loop, Cordless Ultra or Motorization hardware.
- If privacy is an issue, consider Top Down-Bottom Up options.

Recommended Mounting Method for Side Mount Shades

Figure B

EZ Level on Cellular Shades

EZ Level makes quick work of leveling without cords to cut or tuck into a rail. See page 53 for details.

Day-Night Shades

See pages 51-52 for more information.

Specialties (Trapezoids and Octagons)

See pages 44-45 for more information.

Color Lux® Cellular Shades

CORD LOOP SHADES

Applications

- Standard Rectangular
- Two-On-One Head Rail
- Top Down - Bottom Up

Cord Loop Hardware System Features

Cord loops are available 2' to 15' lengths in 1' intervals. Please specify length when ordering. Standard loop sizes are as follows:

Shade Length	Standard Loop
Up to and including 26 ⁷ / ₈ "	1' (12")
27" to 39 ⁷ / ₈ "	2' (24")
40" to 59 ⁷ / ₈ "	3' (36")
60" to 83 ⁷ / ₈ "	4' (48")
84" to 107 ⁷ / ₈ "	5' (60")
108" and greater	6' (72")

Recommended Mounting Method for Side Mounting Shades

Width limit for side mount brackets is 48".

Cord Loop Hardware
Cordless Ultra Hardware
Cordless Ultra Top Down -
Bottom Up Hardware

Figure A

Refer to the installation instructions on Comfortexdealers.com or the OnDemand Mobile Library for further details on side mounting shades.

Ordering Information for Cord Loop Hardware Shades

Standard Rectangular

- Specify IB or OB mount, rail color and left or right lift cord.
- Specify cord loop length when ordering.

Top Down - Bottom Up

- Specify IB or OB mount and rail color. Middle rail will match the top and bottom rails.
- Specify cord loop length when ordering.
- Controls are the right cord loop operates the middle rail and left cord loop operates the bottom. Reverse controls are not available.

Two-On-One Head Rail

- Two-On-One Head Rail Shades operate as two separate shades on one head rail.
- Specify IB or OB mount and rail color.
- Specify panel sizes.
- Specify cord loop length when ordering.
- ³/₈" Space between panels.
- Fabric wrapped Two-On-One Shades will have a seam in the center of the rail due to the wide width.

Highlights Cornice Valance

Add a designer finishing touch to a cellular shade with a Highlights Cornice Valance. See page 53 for details.

EZ Level on Comfortex Cellular Shades

EZ Level makes quick work of leveling without cords to cut or tuck into a rail. No special tools needed – just use a nickel, quarter or penny to adjust plug on the bottom rail.

EZ Level is standard on all Cellular and Pleated Shades with the following hardware systems:

Standard Cord Lock, Cordless Ultra, Cord Loop Simplicity Motorized Systems

EZ Level is not available with Cordless Lift & Lock.

How does EZ Level work?

- Slightly raise the bottom rail you want to level.
- Insert a coin or flat head screwdriver into the adjustment screw and turn it.
- Turn the adjustment screw clockwise or counter clockwise to make slight adjustments up or down. One quarter turn of the adjustment screw will move the bottom rail up or down ¹/₄".
- Lower the rail to check the level and make further adjustments if necessary.

Color Lux® Cellular Shade Head Rail Options

CORDLESS ULTRA HARDWARE SYSTEM

Cord Loop Rail Dimensions

- Depth of rail: 2"
- Depth of rail and bracket: 2 1/4"
- Height of rail: 1 1/2"
- Height of bracket: 1 13/16"

Hardware Features	
Fabric Wrapped	Fabric used is same fabric as the shade. Back of rail is white to outside. Frosted clear with fabric insert end caps with white cord and tassel.
Designer Metallic	<ul style="list-style-type: none"> • Oil Rubbed Bronze head and bottom rails with bronze colored tassel, end caps and white cord. • Brushed Nickel head and bottom rails and end caps with coordinating tassel and white cord.
Mounting Dimensions	Cord Loop Hardware System

Color Lux® Cellular Shades CORDLESS ULTRA SHADES

Applications

- Standard Rectangular
- Top Down - Bottom Up

Things to Consider

- Is the top of your window out of reach? You can order an extension pole to reach but it can still be tricky. You may want to consider Cord Loop or Motorized hardware.
- For shades mounted on doors, you may want to order hold down brackets.
- If privacy is an issue, consider Top Down-Bottom Up options.

Ordering Information for Cordless Ultra Hardware Shades

Standard Rectangular

- Specify IB or OB mount and rail color.

Top Down - Bottom Up

- Specify IB or OB mount and rail color. Middle rail will match the head and bottom rails.

Accessories

- 6' Expandable Pole: \$37.00
- 12' Expandable Pole: \$46.00

Specially designed pole end fits into the handle on the bottom rail and allows for easy operation.

Cordless Ultra and Cordless Ultra Top Down - Bottom Up Hardware Features

- Children and pets have safer surroundings in homes that have window shades without operating cords, reducing the risk of strangulation.
- Cordless Ultra and Cordless Ultra Top Down - Bottom Up Shades can be raised or lowered with a gentle push or pull on the rail handle.
- Cordless Ultra Top Down - Bottom Up Shades feature two moving rails.
- Order an operating pole for out of reach applications.

Fabric Wrapped Head Rail and Designer Metallic Head Rails.

Cordless Ultra Shade Operation

Cordless shades should be operated from the handle located in the center of the bottom rail. Using the handle will aid in smooth and easy shade operation. Two handles are supplied on wider width shades.

To lower the shade, pull down on the handle which is secured to the bottom rail and guide the rail to desired position (Figure A). For out of reach applications, an optional extension pole should be used.

To raise the shade, push the bottom rail up using the handle on the bottom rail and guide the rail to the desired position. The shade will hold any position when the bottom rail is released. Raise the shade slowly and steadily to allow the shade to stack evenly (Figure B).

Color Lux® Cellular Shades

CORDLESS LIFT & LOCK SHADES

Cordless Lift & Lock Shades Hardware System

Bottom Rail Dimensions

- Depth of rail: 1 7/8"
- Height of rail: 1 1/8"

Applications

- Standard Rectangular
- Top Down-Bottom Up

Important Operating Note on Cordless Lift & Lock Shades

- To operate a Cordless Lift & Lock Shade, the middle or bottom rails must be accessible. An extension pole is not available for Cordless Lift & Lock Shades.
- If the bottom or middle rail is not accessible, you may want to consider Cord Loop, Cordless Ultra or Motorized hardware. An extension pole is not available for Cordless Lift & Lock Shades.
- For shades mounted on doors, you may want to order hold down brackets.

Cordless Lift & Lock Hardware Features

- Children and pets have safer surroundings in homes that have window shades without operating cords, reducing the risk of strangulation.
- Cordless Lift & Lock Shades can be raised or lowered by pressing the button located on the bottom rail and guiding the rail into the desired location.

Leveling the Bottom Rails

Each Cordless Lift & Lock Shade includes a skew adjustment leveling tool hidden in the bottom rail of each shade.

To level the bottom rail, remove the bottom rail end cap to access the tool which allows you to adjust the placement of the bottom rail. Adjustment instructions are supplied with each shade.

Ordering Information for Cordless Lift & Lock Shades

Standard Rectangular

- Specify IB or OB mount and rail color.

Cordless Lift & Lock Shade Operation

Cordless Lift & Lock Shades are operated using the push button handle located in the center of the bottom rail.

To raise or lower the shade; press the button on the shade handle, and guide the rail to desired position. Release the button to lock the shade into place.

The shade will in hold any position when the button is released. Raise the shade slowly and steadily to allow the shade to stack evenly.

Recommended Mounting Method for Side Mounting Shades

See Page 20.

Highlights Cornice Valance

Add a designer finishing touch to a cellular shade with a Highlights Cornice Valance. See page 53 for details.

Finished Slider Length	Ordered length - No reductions will be made
Valance	Ordered width plus 1 1/4"
Valance Returns	Will measure 3 1/8" (standard)

Color Lux® Cellular Shades OVATION CELLULAR SLIDER

Applications

- Standard Rectangular
- Opens and closes from side to side
- Four stacking options - see below.
- Dual Panel option with a center opening design with two fabrics, one on each side, each spanning the width of the window.

Ovation Stacking Options

Specify stacking configuration when ordering.

Left: Fabric stacks to the left side of the slider.

Right: Fabric stacks to the right side of the slider.

Center Stack: Center Stack Sliders fabric panels can move fully to the left or the right.

Split Stack: Fabric is split in the center of the slider forming two equal panels which open to opposite ends of the slider. Both panels will be of equal width unless otherwise specified. Split stack is not available with Gradient shades.

* Split stack sliders are available in maximum widths from 240" to 336" (maximum width depends on the fabric selected). If the width exceeds the maximum width of the fabric, it will be fabricated as two separate sliders. The supplied valance will create the appearance of a single slider.

Dual Panel: A Dual Panel Stack Slider has a center opening design with a different fabric on each side, each of which can span the full width of the window. Both panels will be of equal width unless otherwise specified. Specify which fabric stacks to left and which fabric stacks to the right.

Ordering Information for Ovation Cellular Sliders

- Specify IB or OB mount.
- Specify stacking configuration.
On Dual Panel Shades, specify which fabric stacks to the left and right.
On Split Stack Shades, both panels will be of equal width unless specified.
- Specify valance width and return length.

Ovation Valance Specifications

- Every Ovation Slider is supplied with a painted aluminum valance to match your hardware color choice.
- The valance attaches to the head rail using a durable plastic clip system.

Ovation Valance Dimensions

All valance dimensions are measured on the flat, back side.

- Valance Height: 2¾"
- Standard Return Length (OB only): 3⅛"
- For each spacer block, ½" will be added to the length of the valance returns. For extension brackets, 2" will be added unless otherwise instructed.
- If the slider requires a non-flush inside mount, you must order a custom valance. Exact valance width and exact valance return length (minimum 1½") must be specified in the Special Instructions section of the order form.
- Custom returns are available for IB non-flush and OB Cellular Sliders. Please specify return length upon ordering.

Things to Consider

- Since most Ovations are sold in large sizes, the shade will have a large fabric stack. On an outside mount, you may want to order the shade a few inches wider so that the fabric stack can be clear of the window.
- **Minimum Ovation Stack:** Ovation's minimum fabric stack measures 6½" regardless of the ordered width. Minimum fabric stacking dimensions are determined by the slider's hardware, not ordered width.

Color Lux® Cellular Shade Hardware Options
SIMPLICITY MOTORIZED CELLULAR SHADES

Simplicity Motorized Rail Dimensions

- Depth of rail: 2"
- Depth of rail and bracket: 2 1/4"

Color Lux® Cellular Shades SIMPLICITY MOTORIZED CELLULAR SHADES

Simplicity Motors

The Simplicity Motor program features a battery powered motor utilizing a single battery wand or plug-in DC transformer. Simplicity motors are compact and use a radio frequency remote to raise or lower the shades.

Motorized Lift Systems are not offered on sizes within the shaded area on the Standard Rectangular price grids.

- Length measurements may vary +/- 1/8".

Applications

- Standard Rectangular

EZ Level

Learn about the EZ Level feature on page 53.

Simplicity Motorization Surcharges

The standard Simplicity Motorized Lift System surcharge includes a 12 volt battery wand with eight AA batteries. Remotes are needed to operate the shades. See pricing pages.

Important Simplicity Motorized Shade Operating and Installation Information

- Simplicity Motorized Shades installed into windows with metal casings may have a reduced radio frequency range, or may not operate at all, depending on the application.
- Do not let the antenna on the motor touch any metal objects. This may interfere with signals from the remote control.

SIMPLICITY MOTORIZATION PRICING EXAMPLE:

Color Lux	
Light Filtering 42" x 60" Shade:	\$361.00
Simplicity Motor Surcharge:	\$334.00
Simplicity Remote Control:	\$40.00
Total List Price:	\$735.00

Simplicity Battery Wand

Batteries are needed to operate Simplicity motors. The battery wand can be clipped to the head rail or wall or ceiling mounted utilizing white battery wand clips. The 12 volt battery wand measures 17 1/4", and comes with eight AA alkaline batteries, and is white in color.

The battery wire is 10" long. A 48" extension wire is available.

Simplicity Motor Battery Life and Replacement

Eight alkaline batteries are included with the wand.

The battery life will vary based on the type of window covering selected, the size and weight of the window covering and the number of times you operate the shade on a daily basis. For example, a 36" x 60" single honeycomb shade operated twice daily will commonly have a battery life which lasts up to 18 months.

Comfortex will warranty batteries for up to 3 months from date of purchase.

Simplicity Hand Held Remotes

The 5 Channel remote can operate up to five shades simultaneously, individually or 5 groups.

WHEN ORDERING PLEASE SPECIFY WHICH CHANNELS ARE ASSIGNED TO EACH SHADE OR GROUP OF SHADES.

For example; program line 1 to channel 1, line 2 and 3 to channel 2, etc. If no channels are assigned at time of order, all shades will be programmed to Channel 1. **To reprogram channel assignments, please refer to the installation instructions and/or view the video at comfortexdealers.com/products/motortechsupport.html.**

Simplicity remotes and holders are black or white in color. The remote comes with a holder which can be mounted to a wall for easy storage. The range of the remote is approximately 80 feet.

The Simplicity remote utilizes one 3V battery (CR2032). Batteries are included. Comfortex will warranty batteries for up to 3 months from date of purchase.

A **6 Channel (6C) timer remote** is also available. See page 31 for more information.

DC Power Supply/Transformer

12 Volt DC power supply/transformer is available and requires a standard power outlet to power the motor. The transformer is an alternative to a battery wand. Each transformer can power a single shading. The power supply must plug in to the motor. The DC power supply is white and comes with a 80" wire. The dimensions are 1 7/8" wide x 3 1/4" long x 1 1/4" deep

Color Lux® Cellular Shade Hardware Options

SIMPLICITY RECHARGEABLE MOTORIZED CELLULAR SHADES

- Simplicity Rechargeable Rail Dimensions**

Color Lux® Cellular Shades

SIMPLICITY RECHARGEABLE MOTORIZED CELLULAR SHADES

Rechargeable Simplicity Motors

The Simplicity Motor program features a battery powered motor utilizing a rechargeable battery hidden inside the shade head rail. Simplicity motors are compact and use a radio frequency remote to raise or lower the shades.

Rechargeable Motorized Lift Systems are not offered on sizes within the shaded area on the Standard Rectangular price grids.

Applications

- Standard Rectangular

EZ Level

Learn about the EZ Level feature on page 53.

Rechargeable Simplicity Motorization Surcharges

The Rechargeable Simplicity Motorized Lift System surcharge includes a rechargeable battery. Remotes are needed to operate the shades. Refer to pricing pages.

Important Simplicity Motorized Shade Operating and Installation Information

- Simplicity Motorized Shades installed into windows with metal casings may have a reduced radio frequency range, or may not operate at all, depending on the application.
- Do not let the antenna on the motor touch any metal objects. This may interfere with signals from the remote control.

SIMPLICITY RECHARGEABLE BATTERY WAND PRICING EXAMPLE:

Linen Weave	
Light Filtering 42" x 60" Shade:	\$350.00
Simplicity Rechargeable Surcharge:	\$334.00
Charger for Rechargeable :	\$27.00
Simplicity Remote Control:	\$40.00
Total List Price:	\$751.00

Simplicity Rechargeable Battery

The rechargeable battery is concealed in the head rail of the shade. A charger is required for the rechargeable battery. The rechargeable battery comes fully charged from the factory.

Charging Port on Back of Head rail.

Retrofit Existing Standard Simplicity Motorized Shades with Rechargeable Batteries

Cellular shades made with Standard Simplicity Motorization can be retrofitted with the Rechargeable Simplicity Motorization Battery Wand. The Rechargeable battery wand is 22" long, comes with 10 NiMH batteries, and is white in color. Battery wands are charged at the factory.

To retrofit the rechargeable battery wand to an existing shade with a cassette head rail, you must have at least 24" between bracket centerlines to fit the battery wand. Otherwise, the wand must be placed elsewhere along the window. Wall mounting clips are provided with the wand.

Retrofit Ordering Requirements:

- Rechargeable battery wand with clips (one per shade)
- Rechargeable battery charger (one or more per order, or as needed)
- Charge port mounting base (optional)

Please contact customer service for more information.

Battery Wand for Rechargeable Simplicity Retrofit

Rechargeable Battery Wand Concealed in Head rail. (Minimum width of 30" required) otherwise battery wand must be mounted externally.

Color Lux® Cellular Shades

SIMPLICITY RECHARGEABLE MOTORIZED CELLULAR SHADES

Simplicity Rechargeable Battery Life

Rechargeable batteries are included with the motor.

The average battery charge will last 6-12 months based on an average sized shade raised and lowered once per day. The life of the battery charge will vary based on the type of window covering selected, the size and weight of the window covering and the number of times the shade is operated on a daily basis.

The battery can be recharged up to 500 times. It takes approximately 5 hours to recharge the motor when fully depleted.

Ordering Information for Rechargeable Motorized Cellular Shades

Simplicity Motor Option

- Specify IB or OB mount and rail color.
- Specify remote and other accessories if needed.
- Specify one or more battery chargers.

Please Note:

- Not all motors run at the same rate of speed.
- Simplicity motors have a "Favorites" or "MY" position setting. If the homeowner wants to set several shades at the same intermediate position, follow instructions provided with installation manual.
- Simplicity Rechargeable Motorized Cellular Shades are programmed at the factory with the "up and down" limits. The shades are **UNLINKED** from the remote so they are not able to operate during shipping. Each shade should be installed **before** linking it to the remote.
- **REMEMBER: Order at least one charger if ordering rechargeable motors.**

Simplicity Motorized Shade Warranty

Please see pages 108-110 for complete Comfortex warranty information.

Battery Charger

8.4 Volt charger requires a standard power outlet to recharge the battery wand. Must specify charger when ordering a Simplicity Rechargeable Wand Shade. The charger plugs into the charger port. The charger is black and comes with a 156" wire. The dimensions are 1 7/8" wide x 3 1/4" length x 1 3/4" deep.

Simplicity Motor Hand Held Remotes 5 Channel Remote

The **5 Channel (5C) remote** can operate up to five shades simultaneously, individually or 5 groups. Simplicity Rechargeable Motorized Cellular Shades are programmed at the factory with the "up and down" limits. The shades are **UNLINKED** from the remote so they are not able to operate during shipping. Each shade should be installed **before** linking it to the remote.

Simplicity 5C remotes and holders are white or black in color. The remote comes with a holder which can be mounted to a wall for easy storage. The range of the remote is approximately 80 feet.

6 Channel Timer Remote

The **6 Channel (6C) timer remote** combines the functionality of a six channel hand-held control with the convenience of a programmable timer.

- The 6C timer remote allows for 18 different scheduled actions.
- Manual function disables the timer and the remote then operates as a held remote.

Simplicity 6C remotes and holders are white in color. The remote comes with a holder which can be mounted to a wall for easy storage. The range of the remote is approximately 80 feet.

Simplicity Rechargeable Motorized Cellular Shades are programmed at the factory with the "up and down" limits. The shades are **UNLINKED** from the remote so they are not able to operate during shipping. Each shade should be installed **before** linking it to the remote.

Simplicity Motor Hand Held Remotes Operation

Press the up or down button on the remote to raise or lower the shade to your desired position.

To reprogram channel assignments, please refer to the installation instructions and/or view the video at: comfortexdealers.com/products/motortechsupport.html.

The Simplicity remotes utilize one 3V battery. Batteries are included. Comfortex will warranty batteries for up to 3 months from date of purchase. Batteries are not covered by the warranty.

Color Lux® Cellular Shade Hardware Options SIMPLICITY SMART CONTROLLER

Simplicity Smart Controller Dimensions

- Width of controller: 2³/₈"
- Length of controller: 2¹⁵/₁₆"
- Height of controller: 1¹/₈"

Simplicity Smart Controller

- Works with Apple and Android devices
- FREE Downloadable Application
- Compatible with previously installed Simplicity Remote Control Shades
- Powered by NEO Smart Blinds App

Simplicity Smart Controller

The Simplicity Smart Controller is a small device that you install in your home that allows you to set automatic opening and closing times for all Simplicity motorized shades as well as the ability to control your motorized shades from a phone, tablet or PC from anywhere in world.

The Simplicity Smart Controller will work with any Comfortex remote motorized shade with Simplicity remote control motors purchased after 2012.

The Simplicity Smart Controller plugs into a standard electrical outlet and connects to WiFi and sends signals to your shades using the same radio frequencies as a normal remote control.

How Does The NEO Smart Blinds App Work?

The app uses WiFi or cellular data to send commands over the internet to the Simplicity Smart Controller.

Do I Need Any Other Equipment?

Yes, The location where your shades are installed must have WiFi in order for the Simplicity Smart Controller to work. Additionally, you must have a smartphone or tablet running Android or iOS (eg. iPhone, iPad, Samsung Galaxy S7) and have the NEO Smart Blinds app. installed.

Why Would I Want A Simplicity Smart Controller?

There are two main ways the Simplicity Smart Controller adds additional value to your motorized shades. First, once all of your shades have been added, you can use your smartphone as a single remote for all of your shades that will work anywhere you are regardless of distance from the shade. Secondly, the device allows you to set schedules so your motorized shades automatically open and close without needing to do anything on a day to day basis.

Do I Need To Buy More Than 1 Controller?

The normal use for the Simplicity Smart Controller is to plug it in out of the way and forget it. Since it has roughly the same range as a remote you will want enough devices to allow all shades to be operated without moving the controller. So depending on the layout of the home and location of the shade, you might want multiple devices to have convenient full home coverage.

How Far Is The Range Of A Controller?

You should see a range of approximately 150 ft. However this number might be less depending on the layout of your home. In general we recommend one per a floor of a normal sized home.

Can I Control My Shades From Multiple Devices?

Yes! You can download the NEO Smart Blinds App onto multiple devices, After installing the App. on a new device simply log in with the same email/password on each device and you will have access to control your shades.

Can It Be Used With Already Installed Shades?

Yes! Simply follow the directions in the NEO Smart Blinds app. to add a shade. At the pairing step you can put the shade in pairing mode using the primary remote control for it (or by accessing the button on the shades motor). Adding the shade to the NEO Smart Blinds App. will not affect the normal remote operation.

How Much Does The NEO Smart Blinds App Cost?

The app is a free download, However you must have at least one Simplicity Smart Controller (\$330) to serve as a bridge between the app and your shades.

Color Lux® Cellular Shades

POWERTOUCH RECHARGEABLE MOTORIZED SHADES

PowerTouch™ Rechargeable Shades

Cellular Shades can be fabricated with the PowerTouch Rechargeable Push Button Control option. The PowerTouch Rechargeable option is an easy, cord free motorized operation for the budget savvy homeowner. PowerTouch Rechargeable uses Simplicity motors and components.

PowerTouch Rechargeable Shades Operation

Press the up or down button on the pendant to raise or lower the shading to your desired position. When the shading is fully lowered to the factory programmed lower limit.

No programming is required with PowerTouch™, all programming is set at the factory. Upper and lower limits easily can be adjusted in the field if desired. Please refer to the installation instructions at comfortexdealers.com. A "favorites" or intermediate stop position can be set once installed.

PowerTouch Rechargeable Surcharges

See page 3.

PowerTouch Appearance

- The PowerTouch wand and pendant is attached to the head rail when installed.
- The wand and pendant hangs down the front of the shades from the head rail. The wand does not touch the fabric.
- Pendant is 2½" long.
- The pendant does not need to be mounted to the wall to operate the shade.

PowerTouch Rechargeable Color Options

- Shades with Black or Oil Rubbed Bronze hardware will be built with black wand and pendants standard. All other colors will use white wand and pendants.

White

Black Shown with Plug-In Charger

PowerTouch Wand and Pendant Location

The standard location for the wand and pendant is on the right. Please specify location when ordering.

PowerTouch Rechargeable Wand Length

- The standard length of the wand will measure the indicated below unless otherwise specified.

Shading Length	Standard Wand Length
Up to 30"	1' (12")
>30" to 52"	2' (24")
>52" to 78"	3' (36")
>78" to 100"	4' (48")
>100" to 120"	5' (60")

Mounting Requirements for PowerTouch Rechargeable Shades

- No special installation hardware or wiring requirements are needed.

Battery Charger

8.4 Volt charger requires a standard power outlet to recharge the battery wand. Must specify charger when ordering a Simplicity Rechargeable Wand Shade. The charger plugs into the charger port. The charger is black and comes with a 156" wire. The dimensions are 1⅞" wide x 3¼" length x 1¾" deep.

PowerTouch Rechargeable Shades Warranty

Please see page 106 for complete warranty information.

Color Lux® Cellular Shades SIMPLICITY WAVE MOTORIZED CELLULAR SHADES

Wave Rechargeable Simplicity Motor

The Simplicity Wave Motor features a battery powered motor utilizing a rechargeable battery hidden inside the shade head rail. Simplicity wave motors are compact and use a telescoping wand to raise or lower the shades.

Wave Rechargeable Motorized Lift Systems are not offered on sizes within the shaded area on the Standard Rectangular price grids.

Applications

- Standard Rectangular

EZ Level

Learn about the EZ Level feature on page 53.

Simplicity Wave Rechargeable Motorization Surcharges

The Simplicity Wave Rechargeable Motorized Lift System surcharge includes a rechargeable battery. A Wand is needed to operate the shades and a charger to charge the battery. Refer to pricing pages.

Ordering Information for Rechargeable Motorized Cellular Shades

Simplicity Motor Option

- Specify IB or OB mount and rail color.
- Specify wand and other accessories if needed.
- Specify one or more battery chargers.

Please Note:

- Not all motors run at the same rate of speed.
- Simplicity Wave Rechargeable Motorized Cellular Shades are programmed at the factory with the "up and down" limits.
- **REMEMBER: Order at least one charger if ordering rechargeable motors.**

SIMPLICITY RECHARGEABLE BATTERY WAND PRICING EXAMPLE:

Linen Weave	
Light Filtering 42" x 60" Shade:	\$350.00
Simplicity Wave Surcharge:	\$110.00
Charger for Wave Rechargeable:	\$27.00
Simplicity Wave Wand:	\$29.00
Total List Price:	\$751.00

Simplicity Wave Rechargeable Battery

The rechargeable battery is concealed in the head rail of the shade. A charger is required for the rechargeable battery. The rechargeable battery comes fully charged from the factory.

Charging Port on Back of Head rail.

Simplicity Rechargeable Battery Life

Rechargeable batteries are included with the motor.

The average battery charge will last 6-12 months based on an average sized shade raised and lowered once per day. The life of the battery charge will vary based on the type of window covering selected, the size and weight of the window covering and the number of times the shade is operated on a daily basis.

The battery can be recharged up to 500 times. It takes approximately 5 hours to recharge the motor when fully depleted.

Battery Charger

8.4 Volt charger requires a standard power outlet to recharge the battery wand. Must specify charger when ordering a Simplicity Rechargeable Wand Shade. The charger plugs into the charger port. The charger is black and comes with a 156" wire. The dimensions are 1 7/8" wide x 3 1/4" length x 1 3/4" deep.

Telescoping Wand

- Extends to 33" to reach shades mounted high.
- Wand retracts to 9" for easy storage.
- The wand is silver with white handle and white magic tip.
- Wall mount plate included for convenience.
- Wand is universal and will operate all Simplicity Wave shades

Simplicity Motorized Shade Warranty

Please see pages 108-110 for complete Comfortex warranty information.

The Ultimate Blackout Cellular Shade Head Rail Options

INSULATING SLUMBERSHADES

Standard Head Rail

Deluxe Head Rail

Cord Loop & Cordless Ultra Head Rail (Standard & Top Down-Bottom Up)

Standard Cord Lock Rail

- Depth of rail: 1 7/16"
- Depth of rail and bracket: 1 7/8"
- Height of rail: 1/2"
- Height of bracket: 5/8"

Deluxe Cord Lock Rail

- Depth of rail: 1 7/8"
- Depth of rail and bracket: 2 3/8"
- Height: 1/2"
- Height of bracket: 5/8"

Cord Loop & Cordless Ultra Rail

- Depth of rail: 2"
- Depth of rail and bracket: 2 1/4"
- Height of rail: 1 1/2"
- Height of bracket: 1 13/16"

Hardware Features		
Hardware colors for all Cellular fabrics	Fabric wrapped head, middle, bottom rails and end caps is standard. Back of rail is white to outside.	
Blackout Sidetrack Colors Available	White, Tan and Bronze	
Upgrades		
Designer Metallic Upgrade	• Oil Rubbed Bronze and Brushed Nickel head, middle, bottom rails and end caps.	
Mounting Dimensions (inside mount only)	Standard Head Rail	Deluxe Head Rail
Standard Cord Lock (Standard Retangular and Top Down-Bottom Up)		
Minimum Inside Mount	1 1/2"	1 1/2"
Minimum Flush Inside Mount	2"	2 3/8"
Cord Loop & Cordless Ultra (Standard Retangular and Top Down-Bottom Up)		
Minimum Inside Mount	1 5/8"	NA
Minimum Flush Inside Mount	2 1/4"	NA
Outside, shallow and side mounts are not available. The shade's light blocking ability is compromised by using any other mount than a fully flush mount application.		
Finished Dimensions		
Inside Mount		
	<ul style="list-style-type: none"> • Fabric will measure ordered width less: 7/8" • Head rail and bottom rail will measure ordered width less: 1 1/16" • Sidetrack length will measure ordered length less: 1/8" 	

The widest width of the window cannot exceed the narrowest width of the window by more than 1/4".

Precise width measurements are critical to proper performance of SlumberShade products. Make sure to measure to the nearest 1/16" and provide the NARROWEST width measurement along the length of the window. Be sure to measure the top, middle and bottom of the opening. It is very common for the width of a window to vary from top to bottom.

The Ultimate Blackout Cellular Shade Head Rail Options

INSULATING SLUMBERSHADE SHADES

Insulating SlumberShades Small Track Dimensions

Used with all fabrics standard size head rail.

Small Track

- Width of track: 1"
- Height of track: 7/8"

Applications

- Standard Rectangular
- Top Down - Bottom Up
- Cordless and Cordless Top Down - Bottom Up
- Cord Loop and Top Down - Bottom Up

SlumberShades are for inside mount applications only.

Insulating SlumberShade Fabric

Light Filtering fabrics are available as SlumberShades, however the best light control is achieved by using a blackout cellular fabric.

Ordering Information for Insulating SlumberShades

SlumberShades are for inside mount applications only.

Precise width measurements are critical to proper performance of SlumberShade products. Make sure to measure to the nearest 1/16" and provide the **NARROWEST** width measurement along the length of the window. Be sure to measure the top, middle and bottom of the opening. It is very common for the width of a window to vary from top to bottom. The widest width of the window cannot exceed the narrowest width of the window by more than 1/4".

If you have questions about ordering SlumberShades, contact Comfortex Technical Services at 800-843-4151.

Accessories

- 6' Expandable Pole: \$37.00
- 12' Expandable Pole: \$46.00

Specially designed pole end fits into the handle on the Cordless Ultra bottom rail and allows for easy operation.

Insulating SlumberShades Features

Use SlumberShades to provide the darkest sleeping environment by sealing out the highest percentage of light.

Energy Saving Blackout Sidetracks

Energy saving blackout sidetracks are made from a durable window grade PVC. The blackout sidetracks seal off the light gap between the blackout cellular shade and the window. The blackout sidetracks feature a black interior lining to absorb light and prevent it from entering the room.

Insulating SlumberShades Large Track Dimensions

Used with all fabrics that utilize the deluxe sized head rail.

Large Track

- Width of track: 1 1/8"
- Height of track: 7/8"

SlumberShades are easy to install, and feature removable sidetracks that are attached to the window frame with magnets. The sidetracks can be removed for window cleaning. The UV stable, window grade PVC sidetracks are available in white, tan and bronze to match your existing trim.

Please Note: When properly installed, SlumberShades block 99% of all visible light. In certain installations with intense sunlight, a very small amount of light may reflect around the edges of the honeycomb fabric along each side of the shade. This is a normal attribute of the SlumberShade system.

Insulating SlumberShade End Caps

The specially designed notched bottom rail end caps fit over the blackout sidetracks and allow for smooth movement when raising and lowering the shade.

Head and Bottom Rail Seals

To ensure a perfectly dark sleeping environment, additional fuzzy seals are supplied to be placed along the shade's bottom rail and between the head rail and the window frame if needed. These barriers provide a complete light stop all the way around the window to keep all exterior light out. Also, these additional seals provide a very effective barrier against heat loss along your windows.

Magnets and fuzzy bar are standard on Cordless and Cordless Top Down-Bottom Up Shades to ensure closure between the bottom rail and window sill.

Energy Efficiency

Independent testing has shown SlumberShades provide an R-value greater than 7.0* when installed over a double paned vinyl window. The testing also indicates that the R-value of a SlumberShade is 2.5 to 3 times higher than that of the same shade without sidetracks. The insulating cellular fabric, sidetracks, and fuzzy seal all ensure that the SlumberShades provides superior energy efficiency.

* Independent testing provided by Consortium for Advanced Residential Buildings (CARB), a U.S. Department of Energy Building America research team. Learn more at comfortexdealers.com.

EZ Level

Color Lux® Cellular Specialty Shades STARBURST ARCHES

Stationary Starburst

Figure A

Movable Starburst

Figure B

Figure C

Hardware Features See Page 17 for Rail Dimensions	
Standard Hardware	Fabric wrapped rail is standard. The fabric will be spliced in the center of the rail. A decorative rosette is supplied to conceal the splice.
Designer Metallic	<ul style="list-style-type: none"> • Oil Rubbed Bronze rails with bronze colored end caps. • Brushed Nickel rails and end caps.
Mounting Dimensions	
Minimum Shallow Mount	3/4"
Minimum Flush Inside Mount	2 3/8"
Recommended Side Mounting Method	
	<ul style="list-style-type: none"> • See figure B, pg 20 for recommended mounting method for side mount shades • Width limit for side mount brackets is 48"
Finished Dimensions	
Inside and Side Mount	
<ul style="list-style-type: none"> • Fabric will measure ordered width less: 3/8" • Head rail* will measure ordered width less: 3/16" 	<ul style="list-style-type: none"> * Head rail measurements include endcaps. Width and length measurements may vary +/- 1/8"

Applications

- Stationary Fan Style Arch
 - Movable Fan Style Arch
- Movable Starburst Arch shades are for inside and shallow mount applications only.

Stationary Starburst Features (Figure A)

- **All non-perfect Stationary Starburst arches require a template made from brown craft paper.** Comfortex offers template kits. Please contact Customer Service to order. Stock number: 751000, See page 107
- A perfect arch is twice as wide as it is high.
- Stationary Starburst shades which are not perfect half circles must have a height that equals half the width +/- 5".
- Price according to the largest radius measurement. If the height is greater than the width, take height X 2 and use that number to determine pricing.
- When ordering arches as perfect half-circles make sure the radius of the arch remains constant to ensure a proper fit. (See Figure C)

Movable Starburst Features (Figure B)

- Starburst Movable archtop shades are cut to perfect half circles only and do not require a template. The height must be exactly 1/2 the diameter.
- A perfect arch is twice as wide as it is high.
- When ordering arches as perfect half circles make sure the radius of the arch remains constant to ensure a proper fit. (See Figure C)
- The hinge gap (gap between the two rails) is not centered in the window. The moving rail is always smaller than the stationary rail to provide proper movement within the window.

Accessories

- 6' Expandable Pole: \$37.00
- 12' Expandable Pole: \$46.00

Specially designed pole end fits into the handle on movable Starburst Shades for easy operation.

- 6' Expandable Pole: \$37.00
- 12' Expandable Pole: \$46.00

Specially designed pole end fits into the ball on Sunset Shades for easy operation.

Color Lux® Cellular Specialty Shades SUNSET ARCHES

Sunset Features and Ordering Notes (Figure A)

- Sunset shades have horizontal pleats that stack at the bottom, on a stationary sill rail. Sunset shades are operated by a continuous cord that runs through a top mount guide block and back down through the stationary rail. A moving metal ball attached to the cord is used to raise and lower the shade. (See Figure E).
- **All Sunset arches which are not perfect half circles require a template.** A perfect arch is twice as wide as it is high. See page 107 for template instructions.
- **All templates should be made from brown craft paper.** Comfortex offers template kits. Please contact Customer Service to order. Stock number: 751000
- Sunset shades which are not perfect half circles must have a height which is equal to or greater than 25% of the width.
- When ordering Sunset shades that are perfect half circles, make sure the radius of the arch remains constant to ensure a proper fit. (See Figure B).
- **Stringing Method:** Depending on the curvature of a particular arch, it may be necessary to use the two string method (See Figure C) to ensure proper fit and operation of your Sunset shade. Comfortex will determine the best stringing method after examination of the template.
- **Arch Styles:** Sunset arches are available in a variety of styles including: palladium, eyebrow and bullet shaped arches. (See Figure D).

Applications

- Movable Trapezoids
- Movable Octagons

Ordering Information for Trapezoid Shades

- Specify IB or OB mount and rail color.
- **Trapezoid orders must be faxed or emailed in with a diagram. Please provide measurements for all four sides when ordering. No template is required.**

Ordering Information for Octagon Shades

- Specify IB or OB mount and rail color.
- **The width, length and one side are required measurements when ordering.**

Color Lux® Cellular Specialty Shades TRAPEZOIDS AND OCTAGONS

Trapezoids (Figure A)

- Trapezoid orders must be faxed in with a diagram. Please provide measurements for all four sides when ordering. No template is required.
- The maximum slope of the top rail is 30 degrees from horizontal. Slope is the angle between slope and a horizontal line. The slope angle must be measured with a protractor.
- Sides of trapezoid must be parallel.
- Sill must be level for proper installation and operation of a trapezoid shade.
- Operating cord must be placed on the short side.
- See Figures B and C for trapezoid shade operation.

Octagons

- The width, length and one side are required measurements when ordering.
- Octagon shades raise only to the point where the top angle begins. (See Figure D)
- See Figure F on page 43 for recommend mounting method for side mount shades.
- Width limit for side mount brackets is 48".

Applications

- Horizontal, Angled and Vertical motorized skylight shades.
- Mezzo Motorized Skylight Shades are for inside mount applications only.

Ordering Information for Mezzo Motorized Skylight Shades

- Specify inside mount dimensions.
- Specify fabric color and style.
- Specify remote and other accessories if needed.

Color Lux® Cellular Specialty Shades MEZZO MOTORIZED SKYLIGHT SHADES

Solar Panel Recharge Option

Instead of disposable alkaline or lithium batteries, use a battery wand with rechargeable batteries to harness the power of the sun.

A Simplicity solar panel converts the sun's light into electrical energy providing a constant trickle charge for the rechargeable batteries.

The solar panel measures 21" x 2¾" x ½".

The rechargeable battery wand measures 22" long.

Dimensions of panel
21" x 2¾" x ½"

Side View of Panel

Solar Recharge Optimum Application

- Full direct sunlight (minimum 4-6 hours per day) to maintain full charge. Based on one operation cycle per day (one open, one close).
- Solar panel will charge batteries even without direct sunlight. Ambient light will charge the batteries but at a slower rate.
- Excessive duration of cloudy weather will impact the rate of charge.
- 12 Volt DC power supply is available if you find that your application does not provide sufficient solar energy to maintain a full charge.
- 12 Volt DC power supply requires a standard power outlet to power the motor. The transformer is an alternative to a battery wand. Each transformer can power a single shade with a Simplicity motor. The DC power supply is white and comes with a 80" wire. The dimensions are 1⅞" wide x 3¼" long x 1¼" deep.

Solar Panel Mounting

The solar panel can be mounted to the window casing with supplied brackets or can be mounted directly to the glass using supplied special double stick tape (Figures A-B).

- **Inside Mount - Solar Panel Mounted to Glass:** Minimum depth for flush inside mount when mounting the solar panel directly to glass: 3"
- **Inside Mount - Solar Panel Mounted to Glass with battery wand:** 4"
- **Inside Mount - Solar Panel Mounted with Brackets:** Minimum depth for flush inside mount when mounting the solar panel with the supplied swivel brackets: 4¼"
- **Inside Mount - Solar Panel Mounted with Brackets with battery wand:** 5¼"
- **The shade must be mounted with the fabric stack at the bottom or the lowest point in the window.**

Solar Panel Location Requirements

For Locations North of Washington, DC (39° Latitude)

For Locations South of Washington, DC (39° Latitude)

- Assumptions:** 1) Window area free from shadows 9 AM to 3 PM.
2) Glazing is double pane, clear.

Excessive shading or tinted glass will impact the solar charging capability of the system.

- Indicates orientations which may require periodic manual recharge with Plug In Charger.
- Indicates orientations which are optimum for solar recharge (wireless systems).

Color Lux® Cellular Specialty Shades MEZZO MOTORIZED SKYLIGHT SHADES

COLOR LUX® CELLULAR SHADES

Simplicity Hand Held Remotes

The 5 Channel remote can operate up to five shades simultaneously, individually or in groups. **WHEN ORDERING PLEASE SPECIFY WHICH CHANNELS ARE ASSIGNED TO EACH SHADE OR GROUP OF SHADES.**

For example; program line 1 to channel 1, line 2 and 3 to channel 2, etc. If no channels are assigned at time of order, all shades will be programmed to Channel 1. **To reprogram channel assignments, please refer to the installation instructions and/or view the video at comfortexdealers.com/products/motortechsupport.html.**

A **6 Channel (6C) timer remote** is also available. See page 31 for more information

Simplicity remotes and holders are black in color. The remote comes with a holder which can be mounted to a wall for easy storage. The range of the remote is approximately 80 feet.

The Simplicity remote utilizes one 3V battery (CR2032). Batteries are included. Comfortex will warranty batteries for up to 3 months from date of purchase. Batteries are not covered by the warranty.

Simplicity Battery Wand

Batteries or a DC plug-in transformer are needed to operate Simplicity motors. The battery wand is wall or ceiling mounted utilizing white battery wand clips. The 12 volt battery wand measures 17¼", and comes with eight alkaline batteries, and is white in color. The rechargeable battery wand as part of the Solar Recharge kit measures 22" long.

Important Simplicity Motorized Shades Operating and Installation Information

- Simplicity Motorized Shades installed into windows with metal casings may have a reduced radio frequency range, or may not operate at all, depending on the application.
- Do not let the antenna on the motor touch any metal objects. This may interfere with signals from the remote control.
- Make sure to leave the top of the shade head rail open (motor exposed), do not cover; especially with metal materials. This could result in a reduced radio frequency range for the remote control or the shade may not operate at all, depending on the application.

Color Lux® Cellular Specialty Shades DOOR DECOR

Applications

- Stationary Door Décor
- Movable Door Décor
- Top Down - Bottom Up Door Décor
- Cover French doors, transoms, and side lights.

French Door Décor Hardware Features

- Features two non-moving rails which are mounted in the window or door. A tension control system enables the movable rail to be easily moved with the touch of a finger. The only visible cords are the ones that hold the movable middle rail in place.
- The widest width of the window cannot exceed the narrowest width of the window by more than $\frac{3}{8}$ ".

Stationary Non-Movable French Door Décor Shades

- Top and bottom rails are mounted to the window and are stationary.

Movable French Door Décor Shades

- Top and bottom rails are mounted to the window, one middle movable rail raises from the bottom.

Top Down - Bottom Up Option

- Top and bottom rails are mounted to the window, two movable rails allow the shade to lower from the top and raise from the bottom.
- The non-movable top and bottom rails are attached to the window or door.
- Ideal for entry ways with narrow windows next to doors and other narrow windows that are easily accessible.

Ordering Information for French Door Décor

- Specify IB or OB mount and rail color.
 - Specify stationary, movable or Top Down - Bottom Up.
- You may want to specify hold down brackets if mounting on a door.

Accessories

- 6' Expandable Pole: \$37.00
- 12' Expandable Pole: \$46.00

Specially designed pole end allows for easy operation of French Door Décor Shades.

Color Lux® Cellular Shades HIGHLIGHTS CORNICE VALANCE

Highlights Cornice Valances

Highlight any element of your home décor with the Highlights Cornice Valance upgrade.

This tailored, fabric wrapped 6-inch valance, available with seven returns sized from 1 ½" to 6", mounts over any product, either inside or outside the frame. The NEW KEYSTONE option now allows for all Color Lux Roller fabrics to cover widths up to 216".

Highlights Valance without a keystone can be added to your cellular shade order or as a stand alone product. Highlights Valance orders with a keystone are a stand alone product only.

See 7 for more information and pricing.

EZ Level on Comfortex Cellular Shades

EZ Level makes quick work of leveling without cords to cut or tuck into a rail. No special tools needed – just use a nickel, quarter or penny to adjust plug on the bottom rail.

EZ Level is standard on all Cellular and Pleated Shades with the following hardware systems:

- Standard and Deluxe Cord Lock
- Cordless Ultra
- Cord Loop
- SlumberShades
- Simplicity Motorized Systems

EZ Level is not available with Lift & Lock Cordless.

How does EZ Level work?

- Slightly raise the bottom rail you want to level.
- Insert a coin or flat head screwdriver into the adjustment screw and turn it.
- Turn the adjustment screw clockwise or counter clockwise to make slight adjustments up or down.

- One quarter turn of the adjustment screw will move the bottom rail up or down ¼".
- Lower the rail to check the level and make further adjustments if necessary.

COLOR LUX® ROLLER SHADES

Color Lux® Roller Shade Fabric Information

Choosing the Right Color Lux Roller Fabric

What are the fabric contents of each fabric?

- Classic Duck Light Filtering is 100% Polyester
- Classic Duck Blackout is 100% Polyester
- NEW Linen Light Filtering is 100% Polyester
- NEW Linen Blackout is 100% Polyester with a foam coated backing
- NEW Solar Screen 5 is 36% Polyester, 51% FR Polyester and 13% Cationic Polyester

Classic Duck Light Filtering and Blackout Fabrics

Classic Duck provides the perfect canvas for all 800 Color Lux colors. A simple weave works well with any complementary fabric textures. Available in Light Filtering and Blackout.

NEW Linen Light Filtering and Blackout Fabrics

NEW Linen provides the natural timeless look of linen fabric into Color Lux Roller Shades. Light Filtering allows in just the right amount of opacity to maintain privacy but allow light into the home. Linen Blackout is perfect for bedroom and media room applications.

NEW Solar Screen 5 Fabric

NEW Solar Screen 5 is the perfect balance of function and design. With a 5% openness factor, Solar Screen 5 provides light and privacy. Color Lux Color 100 Ultra White has passed the NFPA and California Title 19 Fire Rating Standards. Solar Screen 5 also offers a subtle linen texture that enhances every decor style.

What are the fabric properties of Solar Screen 5?

The below ratings apply to **Color Lux Color 100 Ultra White Only**

	TS	RS	AS	TV	OF	SHGC/G Value		Fire Rating
						Commercial SHGC % Improvement	Residential SHGC	
Solar Screen 5								
100 Ultra White*	39	56	5	38	5.00	39%	0.42	NFPA 701-10 TM#1, California U.S. Title 19
ISO 14001:2004 OEKO-TEX® Standard 100 OEKO-TEX® Standard 1000 Zero Landfill Water Conservation and Usage Use of Recycled Materials								

* Fire Rating and other properties apply to Ultra White (Color Lux Color 100) only

To be certified with OEKO-TEX® Standard 100, companies have to meet defined criteria regarding their environmentally friendly and socially acceptable production process at all production stages (International Association for Research and Testing in the Field of Textile Ecology)

- TS = Solar Transmittance
- RS = Solar Reflectance
- AS = Solar Absorptance
- TV = Visual Transmittance
- OF = Openness Factor
- 1/4 CL = 1/4" Clear Glass
- 1/4 HA = 1/4" Heat Absorbing Glass

COLOR LUX® ROLLER SHADES

Color Lux® Roller Shade Head Rail Options

Cordless Roller with Deco-Bar Mounting Rail

Shades Measuring 19½" to 72":

- A = 1½"
- B = 1⅝"
- C = 2¼"
- D = 1¼" Roller

Shades Measuring 72" to Maximum Width:

- A = 1¾"
- B = 1¾"
- C = 2¾"
- D = 1½" Roller

Head Rail Consistency

Cordless Roller with Deco-Bar Shades under 72" wide utilize a 1¼" roller and shades over 72" wide utilize a 1½" roller. If an order has multiple shades with varying widths, be aware of potential tube size inconsistencies. Fabric will add an average of ⅛" to the diameter of the tube for every 10" of fabric rolled onto the tube. Contact Technical Services if additional services is needed.

NEW Color Lux® Highlights Cornice Valance with Keystone

Highlight any element of your home décor with the Highlights Cornice Valance upgrade. This tailored, fabric wrapped 6-inch valance, available with seven returns sized from 1½" to 6", mounts over any product, either inside or outside the frame. The NEW KEYSTONE option now allows for all fabrics to cover widths up to 216". It's the perfect solution for our Panel Track system. Highlights Valance without a keystone can be added to your roller shade order or as a stand alone product. Highlights Valance orders with a keystone are a stand alone product only.

Highlights Valance Specifications

Valance Width with NEW Keystone: Maximum valance width is 216" for all Color Lux Roller Fabrics.

- Fabric cannot be railroaded
- Seaming is not available.
- Multiple Keystones may be required for larger widths. (ex. 216" Highlights Valance will require TWO Keystones, each 72" wide).

Valance Height: 6"

Standard Return Sizes:

- Inside Mount: None
- Outside Mount ordered with shade: 4"
- Custom Stand Alone Valance: Seven sizes are available, see chart below.

Highlights Cornice Valance Upgrade can be ordered in three ways:

- Inside Mount WITH your shade
- Outside Mount WITH your shade
- Custom Stand Alone Valance with seven return sizes

Highlights Ordering and Measuring Instructions Inside Mount Valance WITH Your Shade

- Inside mount valances are made without returns.
- An inside mount Highlights Valance will come with its own set of mounting brackets. In most scenarios, the valance brackets must be installed separately from the shade.
- Measure the inside width at the top of the window where the valance is to be installed. Measure in multiple spots to ensure accuracy. If there are variances, supply the smallest measurement.
- Please Note: The finished dimension of your inside mount bracket will be 3/16" less than your ordered width (see Figure A). Example: An inside mount valance ordered at 36" wide will be made 35 13/16".
- Please Note: You will need up to 3 1/2" of mounting depth to ensure your valance is fully recessed and flush with your window opening.

Figure A

Mounting Information with Stand Alone Highlight Valances with Returns Size Options

Style	Return Size	Mounting Depth Required	Inside Valance Depth Clearance Provided	Comments
Inside Mount	None	3" for flush	N/A	Mounted inside window opening

Outside Mount	6"	½" surface height	5 3/8"	Valance will be mounted outside window opening

Color Lux® Highlights Cornice Valance with Keystone

Highlights Ordering and Measuring Instructions

Outside Mount Valance WITH Your Shade

- Outside mount valance will have 4" returns.
- An outside mount Highlights Valance will come with its own set of mounting brackets. In most scenarios, the valance brackets must be installed separately from the shade.
- Measure the width of the area you wish to cover. Be sure to add extra space if you have window trim or extra wall space you'd like to cover.
- **Please Note:** When ordering outside mount valances, the finished overall width of your valance will be your ordered width plus 1 1/4" (see Figures B and C).
- **Example:** An outside mount valance ordered at 36" wide will be made 37 1/4".
- **Please Note:** You will need 1/2" of surface area to mount your valance (see Figure B).

Figure B

Outside Mount

Figure C

Custom Stand Alone Valance with Return Size Options

- Measure the width of the area you wish to cover. Be sure to add extra space if you have window trim or extra wall space you'd like to cover. See Figures D-F for measuring information.
- Next, determine the length of your desired returns. Use the chart on page 77 for the mounting depth required and inside valance depth clearance provided for each return size.

Outside Mount

Figure D

Custom Stand Alone Valance with Return Size Options

(Cont.)

Inside Mount

Figure E

Shallow Mount

Figure F

Valance Returns

- Seven return size options are available when ordering a Highlights Valance as a stand alone product.
- **Return Sizes:** To determine a return length, add the component dimensions (mounting brackets, etc.) up to the wall. Subtract the measurements from any protrusions (molding, etc.), then choose from one of the pre-determined return applications (from the chart on page 77 that best fits your application).
- **Return Coverage**
Ordered return size refers to the distance from the face of the valance to the back of return. See Figure G.

Return dimensions are measured from the face of the valance to the wall.

Figure G

Clearances

Shallow Mount Bracket

- 1 1/2" Return provides an inside valance clearance of 1 7/8".
- 2" Return provides an inside valance clearance of 1 3/8".
- 2 1/2" Return provides an inside valance clearance of 1 7/8".

Outside Mount Bracket

- 3" Return provides an inside valance clearance of 2 3/8".
- 4" Return provides an inside valance clearance of 3 3/8".
- 5" Return provides an inside valance clearance of 4 3/8".
- 6" Return provides an inside valance clearance of 5 3/8".

COLOR LUX® ROLLER SHADES

Color Lux® Highlights Cornice Valance with Keystone

Keystone Specification

- All keystones will automatically be wrapped with matching Color Lux Roller Fabric.
- Available in Classic Duck, Linen and Solar Screen 5.
- Keystones will be provided separately and installed on site.
- Ordering two optional keystones is currently not available. Two keystones may be required for some wider width valances.
- Valance panels are divided in half when the Keystone option is ordered. Custom locations for keystone placement is not available.

Keystones for Panel Tracks

- Keystones ordered for Panel Tracks should use the return sizes list below to ensure clearance of the Panel Track Rail.
- **2 Panels Side or 4 Panel Split = minimum 3" returns**
- **3 Panels Side = minimum 3" returns**
- **4 Panels Side or 6 Panel Split = minimum 4" returns**
- **5 Panels Side or 8 Panel Split = minimum 4" returns**

Rear view of the Highlights Valance Keystone. Not visible to room side.

Front view of the Highlights Valance Keystone.

Color Lux Custom Graphics for Highlights Cornice Valance.

Custom Graphics is available for Highlights Cornice Valance without a Keystone only.

- Available in Classic Duck Light Filtering, Classic Duck Blackout, and E - Screen 5%. (E Screen 5% is only available on Custom Graphics).
- Add 25% to Standard Rectangular Price on page 77.

A Keystone option is available for all shade widths so every Highlights Valance in a room will be uniform

Color Lux® Roller Shade Head Rail Options

NEW Dual Roller Shades

Dual Roller Shades are available with Skyline Cord Loop and Simplicity Rechargeable Motorization. They are the perfect way to combine both light filtering and blackout fabrics into a single shade for the ultimate light control. Any fabric or screen in the Envision Fabric collection can be mixed and matched to create a versatile window for any time of day.

The front roll of fabric is always a reverse roll. The back roll of fabric is always a standard roll. Clutches are always on opposite sides of the shade to ensure a location for tensioner mounting.

Dual Roller Shades are not available with cordless operation or PowerTouch Rechargeable motorization. Bracket covers are not available. Brackets are available in black and white.

Candeling will occur between the upper and lower fabric rolls if a Blackout fabric is selected as the back roll. This allows that light to come through. Blackout fabric can be selected for the front roll to prevent this.

Simplicity Rechargeable Motorization is available with Dual Roller Shades to ensure easy installation without the need to mount two battery wands.

See price grids for Dual Roller Shade Specifications. Shade minimums and maximums are identical to single shade systems. Not available with 2" tube.

Candeling when Blackout Fabric is selected as the back roll.

Tensioners are mounted on opposite side of a Dual Roller Shade

Distance between rollers when front shade is raised all the way

DUAL ROLLER SHADE PRICING EXAMPLE:

For Satin Nickel Dual Roller Shades:	
Front Shade 36 x 60 Linen Light Filtering:	\$284
Back Shade 36 x 60 Linen Blackout:	\$315
Satin Nickel Skyline Clutch Surcharge: $\$27 \times 2 =$	\$54
Add Dual Roller Shade Surcharge:	\$27
TOTAL LIST PRICE BEFORE DEALER DISCOUNT =	\$680

COLOR LUX® ROLLER SHADES

Two-on-One Head Rail for Color Lux™ Roller Shades

Two on One Head Rail roller shades are two roller shades sharing the same head rail; each roller operates independently.

Operating Options

- Two on One Head Rail can be combined with cord loop, PowerTouch Motorization, Simplicity Motorization and Simplicity Rechargeable Motorization hardware options.
- Controls will always be placed to the far left and far right. (Controls are NOT available between two shades)

Fabric Options

- Two on One Head Rail roller shades are in both Classic Duck Light Filtering and Classic Duck Blackout for Color Lux Roller Shades
- See price grids for standard size limitations.

Head Rail Options

- Designer Cassette is REQUIRED for two on one roller shades.
- Two on One roller shades are ONLY available on 1½" tube.
- Available with Designer Cassette with Insert Strip and Smooth Face options.
- Fabric wrapping is NOT available on two on one Designer Cassette.
- Minimum single section is 12".
- Maximum single section is 106" for Classic Duck Light Filtering and Classic Duck Blackout fabrics
- Total maximum width in Designer Cassette head rail is 140". Maximum shade sizes will vary by fabric
- Center gap between roller shades is ¾".

TWO ON ONE CASSETTE PRICING EXAMPLE:

36" x 60" Classic Duck	
Blackout Fabric	\$284 x 2 = \$568.00
Designer Cassette Insert Strip	\$86 x 2 = \$172.00
PowerTouch Motorization:	\$99 x 2 = \$198.00

Total List Price Before Dealer Discount: \$938.00

- Specify shade total width and the two individual section widths. **Please Note:** The two individual sections must add up to the total width.

NEW Two-on-One No Head Rail Shades with Skyline Hardware

A NEW Two-on-One No Head Rail mounting option is available for shades using the Skyline system. An intermediate bracket is available that reduces the light gap when two shades are placed side-by-side.

Cord Loop shades will always have the clutch on the outside of both shades to ensure proper tensioner mounting.

Standard Brackets are available in White, Black, Ivory and Bronze. Intermediate Brackets are available in White, Black and Ivory.

Bracket covers for the two outer shades are the same colors available for a Skyline Standard Roller Shade: White, Black, Ivory, Bronze and Satin Nickel.

Two-on-One No Head Rail Shades are available with Cord Loop, Simplicity Motorization, Simplicity Rechargeable Motorization and PowerTouch Rechargeable shades.

PowerTouch Rechargeable wands will always hang to the outside of each Two-on-One No Head Rail shade.

TWO ON ONE NO CASSETTE PRICING EXAMPLE:

For Satin Nickel Two-on-One No Head Rail Shades with PowerTouch Rechargeable:

36 x 60 Linen Light Filtering Fabric:	\$284 x 2 = \$568
Add Satin Nickel Skyline:	\$27 x 2 = \$54
Add PowerTouch Rechargeable:	\$99 x 2 = \$198

Total List Price Before Dealer Discount = \$820

Cordless Operation for Color Lux™ Roller Shades

Cordless Roller Shades with Designer Cassette

Bracket cover provides a clean finished appearance

COLOR LUX® ROLLER SHADES

Cordless Operation for Color Lux™ Roller Shades

Cordless Tassels and Pulls

Add a decorative tassel or pull to help facilitate easy operation and keep the fabric on the bottom rail clean on all Cordless Shades. Tassels and pulls are placed in the middle of the bottom rail. They feature an approximately 3-inch long cord which coordinates with the tassel color.

Tassels and pulls are attached to the back of the bottom rail with a clear clip. This allows for in the field modifications if needed.

ALL Color Lux Roller Shade hardware is available with any Tassel or Pull.

Wood Ball Pulls

Add a decorative Wood Ball Pull to help facilitate easy operation and keep the fabric on the bottom rail clean on all Color Lux Roller Shades. Select from 4 colors: Waxed, Natural, Whitewash and Cocoa.

Add: \$17 Per Shade

Cocoa

Whitewash

Waxed

Natural

Beehive Pulls

Add a durable and fashionable Beehive Pull to your shades for easy lifting and lowering. These are a great combination with solar shades and are available in White and Onyx.

The Beehive pull is 2 5/8" long.

Add: \$40 Per Shade

Onyx

White

Wood Tassels

Select from 5 colors: Milky White, Ebony, Walnut, Light Pine or Mahogany.

A wood tassel is 1 5/16" long.

Add \$17 Per Shade

Clear Grip for Cordless Roller Shades

A clear grip comes included with all cordless roller shade orders with an option to attach the grip during installation. This easy to attach and easy to remove clear grip is a great way to keep the rail or the fabric (for fabric wrapped option) clean and new after regular shade use.

The width of the grip is 2 7/8".

Optional clear handle

114" - above	³ / ₄ of shade height

- Bead chain can be ordered in custom lengths in 1 foot increments only. Maximum bead chain length is 15 feet.

Tensioners for Skyline Hardware Cord Loop Shades

Skyline Cord Loop Roller Shades feature a new tensioner design for easy mounting and smooth operation. Available in five finishes that matches the clutch control on Skyline Cord Loop roller shades, now every part of a Skyline Roller shade will coordinate from top to bottom.

White Tensioner

Black Tensioner

Satin Nickel Tensioner

Ivory Tensioner

Bronze Tensioner

COLOR LUX® ROLLER SHADES

Color Lux® Roller Shade General Information

Reverse Roll on Color Lux Roller Shades

A reverse roll option is available at no extra charge with all Color Lux Roller Shade fabrics only on the Standard Roller Hardware and Cordless Roller with Deco-Bar Hardware. The reverse roll allows the fabric to roll off the front of the roller instead of the back (the traditional style). The reverse roll conceals the roller for a contemporary, tailored appearance.

Standard Roller in Reverse Roll

Bottom Rail Options

Color Lux Roller Shades can be built with your choice of 2 bottom rail options:

- Fabric Wrapped Bottom Rail (standard)
- Exposed Bottom Rail

Choose your bottom rail color when ordering.

Fabric Wrapped Bottom Rail

The shade fabric is wrapped around an elliptical grooved rail. Two clear plastic end caps secure the fabric in place. Select from bronze, white, vanilla, black or brushed aluminum.

Choose your bottom rail color when ordering.

Fabric Wrapped Bottom Rail

Exposed Bottom Rail

Select from bronze, white, vanilla, black or brushed aluminum bottom rail to add a decorative accent to the bottom of your shade. Two clear plastic end caps secure the fabric in place.

Choose your bottom rail color when ordering.

Bronze Exposed Bottom Rail

NEW Color Lux™ PowerTouch™ Rechargeable for No Head Rail and Designer Cassette

Color Lux Roller Shades can be fabricated with the NEW PowerTouch™ Rechargeable option.

The PowerTouch™ Rechargeable provides an easy, cord free motorized operation for the budget savvy homeowner. PowerTouch™ Rechargeable uses Simplicity motors and components.

- PowerTouch™ Rechargeable is available for No Head Rail and Designer Cassette
- The No Head Rail option can use Skyline Hardware brackets and bracket covers available in White, Ivory, Black, Satin Nickel and Bronze. Wand and Pendant are always White or Black.

Color Lux Roller Shade PowerTouch™ Rechargeable Upgrade Surcharges

All standard discounts apply to PowerTouch™ Shades.

- PowerTouch™ Rechargeable Pendant and Wand: \$99.00
- Charger for PowerTouch™ Rechargeable (required): \$26.00

PowerTouch™ Rechargeable Roller Shade Specifications

See specific fabric price grids for minimum and maximum shade widths and lengths. Shade sizes in grey shaded sections are NOT available with the PowerTouch™ Rechargeable option.

PowerTouch™ Rechargeable Shades Operation

Press the up or down button on the pendant to raise or lower the shading to your desired position.

Programming the upper and lower limits is completed at the factory. These can be easily adjusted in the field if desired.

Programming the favorites position is completed after shade installation.

Please refer to the installation instructions at comfortexdealers.com.

PowerTouch™ Rechargeable Appearance

- The PowerTouch™ Rechargeable wand and pendant is attached to the head rail and requires no additional mounting.
- The No Head Rail PowerTouch™ Rechargeable wand must be attached to the motor before mounting.
- The wand and pendant hangs down the front of the shades
- The top and bottom buttons lift and lower the shade to the upper and lower limits. The center button is the favorites and stop button.
- The wand does not touch the fabric.
- Pendant is 2½" long.

PowerTouch™ Rechargeable Color Options with Designer Cassette and No Head Rail Roller

White

Black

- Shades with Black or Oil Rubbed Bronze head rail will be built with black wand and pendants standard.
- Shades with White hardware will be built with white wand and pendants standard.
- Shades with Fabric Wrapped Head Rail will be built according to the head rail color selected.
- Shades booked as a no head rail roller will have a prompt to select wand color.

Wand and Pendant Location with Designer Cassette and No Head Rail Roller

The standard location for the wand and pendant is on the right. Please specify when ordering.

COLOR LUX® ROLLER SHADES

NEW Color Lux PowerTouch™ Rechargeable for No Head Rail and Designer Cassette

PowerTouch™ Rechargeable Wand Length with Designer Cassette and No Head Rail Roller

Shade Length	Standard Wand Length
Shades up to 30"	1' (12")
30" to 52"	2' (24")
52" to 78"	3' (36")
78" to 100"	4' (48")
100" to 120"	5' (60")

- Custom length wands are not available with PowerTouch™ Rechargeable. Standard wand lengths can be changed at no cost.

Mounting Requirements for PowerTouch™ Rechargeable Shades with Designer Cassette

- No special installation hardware or wiring requirements are needed to install PowerTouch™ Rechargeable Roller Shades with Designer Cassette Head Rail.
- A battery wand is not required with PowerTouch™ Rechargeable shades.

Mounting Requirements for PowerTouch™ Rechargeable Shades with No Head Rail Roller

- On No Head Rail roller shades, the wand must be attached to the motor with two screws (included) before mounting the shade.
- A battery wand is not required with PowerTouch™ Rechargeable shades.

PowerTouch™ Rechargeable Shades Do Not Have a Separate Battery Wand

There is no battery wand with the PowerTouch™ Rechargeable shades. The battery pack is integrated inside the roller tube to make mounting easier and more convenient.

The battery is recharged via the recharging port on the PowerTouch Rechargeable™ Wand.

Recharging Port

Battery Charger

8.4 Volt charger requires a standard power outlet to recharge the battery integrated within the motor. Must specify charger when ordering a PowerTouch Rechargeable shade. The charger plugs into the charger port. The charger is black and comes with a 156" wire.

PowerTouch™ Rechargeable Roller Shades Warranty

Please see page 103 for complete Comfortex warranty information.

Color Lux® Roller Shades with Simplicity Motorization

Color Lux Roller Shades can be motorized with Standard Simplicity Motorization. The Simplicity Motor program features an option for a battery wand or a DC plug in power supply. Simplicity motors are compact and use a radio controlled remote to raise or lower the shades.

Feature	
Remote Radio Frequency Operation	X
Upper and Lower Limit Stops Pre-Programmed	X
Battery Wand Standard (uses eight AA batteries)	X
Plug-in Transformer (DC Power Supply) Available	X
Intermediate ("Favorite") Position Programming	X

Head rail styles available with Standard Simplicity Motors:

Standard Roller, Designer Cassette and Fascia Specifications

See the price grids for motorized shades specifications on pages 61 - 65.

Mounting Requirements For Standard Simplicity Motorized Color Lux Roller Shades

Standard Roller Hardware

Battery Wand Mounting is Required. See page 67 for mounting information.

Standard Skyline Roller Hardware

Battery Wand Mounting is Required. See page 68 for mounting information.

Designer Cassette Hardware

Battery Wand Mounting is Required. See pages 70 - 72 for mounting information.

3" Fascia Hardware

Battery Wand Mounting is Required. See page 73 for mounting information.

4" Skyline Fascia Hardware

Battery Wand Mounting is Required. See page 75 for mounting information.

DC Power Supply

12 Volt DC power supply is available and requires a standard power outlet to power the motor. The transformer is an alternative to a battery wand. Each transformer can power a single shade with a Simplicity motor. The power supply must plug in to the motor. The DC power supply is white and comes with a 80" wire. The dimensions are 1 7/8" wide x 3 1/4" length x 1 1/4" deep.

Simplicity Motor Battery Wand Mounting

The battery wand is wall or ceiling mounted utilizing white battery wand clips. It also can be clipped to the Designer Cassette head rail.

Batteries are needed to operate Simplicity motors. The battery wand measures 17 1/4" and comes with eight alkaline batteries and is white in color.

Battery Wand

Simplicity Motor Battery Life and Replacement

Eight alkaline batteries are included with the wand.

The battery life will vary based on the type of window covering selected, the size and weight of the window covering and the number of times you operate the shade on a daily basis.

Comfortex will warranty batteries for up to 3 months from date of purchase. Batteries are not covered by the limited lifetime warranty.

Simplicity Motor Hand Held Remotes

The Simplicity Remote features 5 individual frequency channels and an All channel which will to operate all the shades at once. **WHEN ORDERING PLEASE SPECIFY WHICH CHANNELS ARE ASSIGNED TO EACH SHADE OR GROUP OF SHADES.** For example; program line 1 to channel 1, line 2 and 3 to channel 2, etc. If no channels are assigned at time of order, all shades will be programmed to Channel 1. To reprogram channel assignments, please refer to the installation instructions and/or view the video at comfortexdealers.com/products/motortechsupport.html.

The Simplicity remote is available in white or black. All remotes come with a holder which can be mounted to a wall for easy storage.

The remote controls utilizes one 3V battery (CR2430). Batteries are included. Comfortex will warranty batteries for up to 3 months from date of purchase. Batteries are not covered by the limited lifetime warranty.

See page 91 for more information about the Simplicity 6 Channel Timer Remote

Simplicity Battery Operated Motorized Shades Warranty

Please see page 103 for complete Comfortex warranty information.

Color Lux® Roller Shades with Simplicity Rechargeable Motorization

The Simplicity Rechargeable Motorization program features an integrated rechargeable lithium ion battery in the motor casing and is fully concealed by the roller tube.

Simplicity Rechargeable Motorization Upgrades and Surcharges

Motor	
• Radio Frequency Motor: Includes integrated rechargeable battery	\$289.00

• Charger for rechargeable motors (required):	\$26.00
NEW Simplicity Smart Controller	
• Smart Controller Unit	\$330.00
All standard discounts apply to motorized shadings.	

Simplicity Rechargeable Motorization

All Roller Shade Fabrics

Minimum Width: 18"
Maximum Width: See roller price grids for motorized shades specifications on pages 61 - 65.

Simplicity Rechargeable Motors Appearance with No Head Rail Roller and Designer Cassette Head Rail

The Simplicity Rechargeable motor and batteries are concealed within the roller tube.

Mounting Requirements

Standard Roller Hardware

No special installation hardware or wiring requirements are needed. See page 67 for mounting information.

Standard Skyline Roller Hardware

No special installation hardware or wiring requirements are needed. See page 68 for mounting information.

Designer Cassette Hardware

No special installation hardware or wiring requirements are needed. See page 70 - 72 for mounting information.

3" Fascia Hardware

Rechargeable Simplicity Motorization is not available for 3" fascia.

4" Skyline Fascia Hardware

No special installation hardware or wiring requirements are needed. See page 75 for mounting information

Simplicity Rechargeable Motor Batteries

The battery for the integrated rechargeable simplicity motor system is integrated within the motor casing and is fully concealed by the roller tube.

Rechargeable battery comes fully charged from the factory.

Battery Wand Mounting is Not Required

No external battery wand is required to operate an Color Lux Roller Shade with Simplicity Rechargeable Motorization.

Simplicity Rechargeable Motor Battery Life

Rechargeable battery is built into the motor.

The average battery charge will last 6-12 months based on an average sized shade raised and lowered once per day. The life of the battery charge will vary based on the type of window covering selected, the size and weight of the window covering and the number of times the shade is operated on a daily basis.

The battery can be recharged up to 500 times. It takes approximately 5 hours to recharge the motor when fully depleted.

Battery Charger for Simplicity Rechargeable Motors

An 8.4 Volt charger requires a standard power outlet to recharge the battery. The charger must be specified when ordering a Rechargeable Simplicity Motorized shade. The charger plugs into the charging port of the motor.

The charger is black and comes with a 156" wire. The dimensions are 1" wide x 2½" length x 1¼" deep.

COLOR LUX® ROLLER SHADES

Color Lux® Roller Shades with Simplicity Rechargeable Motorization

Simplicity 6 Channel Timer Remote

The 6 Channel (6C) timer remote combines the functionality of a six channel hand-held control with the convenience of a programmable timer.

- The 6C timer remote allows for different scheduled actions each day of the week.
- Manual function disables the timer and the remote then operates as a 6-channel hand held remote.

Simplicity 6C remotes and holders are white in color. The remote comes with a holder which can be mounted to a wall for easy storage. The range of the remote is approximately 80 feet.

Important Information about Simplicity Rechargeable Motor Shade Operation and Installation

- Simplicity Motorized Shadings installed into windows with metal casings may have a reduced radio frequency range, or may not operate at all, depending on the application.
- Do not let the antenna on the motor touch any metal objects. This may interfere with signals from the remote control.
- Be mindful of when your shade starts to slow down during operation. It is a good indicator the shade needs to be recharged. The shade will also beep when the remote button is pressed.

THE FACTORY DOES NOT PROGRAM CHANNELS FOR SIMPLICITY RECHARGEABLE MOTORS.

The factory programs the upper and lower limits of every shade. Channel programming is completed after shade installation.

The Standard 5 Channel Simplicity Remote is also available for Simplicity Motorization. See page 89 for more information.

Please Note:

- Not all motors run at the same rate of speed.
- **REMOTES ARE NOT LINKED TO SHADES FROM THE FACTORY. SHADES MUST BE LINKED AFTER SHADE INSTALLATION.**
- Simplicity motors have a "Favorites" position setting. If the homeowner wants to set several shadings at the same intermediate position, follow instructions provided with installation manual.
- **WHEN ORDERING THE NEW SIMPLICITY RECHARGEABLE MOTORIZATION, PLEASE ORDER THE NECESSARY BATTERY CHARGER.**

Color Lux® Panel Track System

COLOR LUX
Designer Cellular & Roller Shades

Color Lux® Panel Track System

The Color Lux Panel Track Shade system offers versatility and a beautiful modern design for effective light control and outstanding performance. Panel track systems are a beautiful option for large windows and room dividers. The new system is available in Classic Duck and Linen Light Filtering and Blackout, and Solar Screen 5.

Stacking Options

Color Lux Panel Track Shades are available with 3 stacking configurations: split, left and right stacks.

- Split stack panels draw open to both sides equally. Controls may be placed on either side and is only available in cord control.
- Side stack is available as left or right stack and is available with a white wand or cord control.

Split Stack

Left or Right Stack

Closed Side Stack

Panel Attachment

A hook and loop strip is sewn onto every panel to provide a secure attachment. The patented panel attach method makes it easy to attach the panels even after installation of the rail.

Head Rail Colors

Select from the white or aluminum system hardware system. (Wand is always white.)

White Head Rail

Aluminum Head Rail

Bottom Rail

The new panel track bottom rails are designed for smooth operation and allows all panels to glide smoothly past each other.

- Bottom rails are designed to match perfectly with the head rail in exposed white or silver.
- Finished bottom rails will be ½" higher than measured drop on inside mount shades.
- Bottom rails are not connected to each other on this panel track system.
- Fabric wrapped bottom rails are not currently available.

White Bottom Rail

Fabric Panels and Custom Overlaps

Classic Duck Light Filtering and Blackout are both available with the new Color Lux Panel Track Shade System.

- Panels will be fabricated with a 2" overlap as standard. Custom overlaps are available at 1½", 2½" and 3". Please specify when ordering.
- Panels are attached with a hook and loop strip to allow for subtle fabric adjustment in the field.
- Each panel traverses the track using ball bearings, creating smooth operation for wand and cord control
- Panels follow a single lead panel in sequence to open and close.
- Panels position exactly behind one another in the open position.
- There is no light gap between the rail and the panels.
- Panels will reach the end of the track.

Please Note: Panels may not hang perfectly flat immediately upon installation. Panels may have a billowing or wavy appearance at the time of installation which may correct itself over time.

Replacement panels are available.

Color Lux® Panel Track System

Control Options

The panel track system uses a cord or wand for traversing the fabric panels. Cord control is standard with every panel track shade. Wand control is available at no additional surcharge. Please specify when ordering.

Cord Control

- The nylon cord is white or grey to coordinate with hardware.
- Standard length of the cord is 10" less the ordered length. Custom cord lengths are available. Please specify when ordering.
- Standard cord placement is right stack with right cord.
- Operating cords are located on the outside edge of the panels.
- Tensioner for cord control is always white.
- Tensioner must always be placed so the cord reaches full extension.

Grey Cord Control

Wand Control

The traversing wand is a convenient alternative to a traditional cord control. This single control system protects children and pets from injuries caused by loop cords.

White Wand Control

- The wand control is always white.
- Only available on side stack systems.
- Standard wand placement is on the outside leading edge of the left or right stack.

Standard Wand Lengths

- Shades up to 72" in Length: 36" wand
- 72" to 96" in Length: 48" wand
- 96" to 120" in Length: 60" wand
- 120" to 144" in Length: 72" wand

Custom lengths are not available but you may select from one of the standard wand lengths above.

Panel Widths

To achieve the best performance on this panel track system, panels are designed within the following parameters:

- The minimum width for a single panel is 6".**
- The maximum width for a single panel is 48".**
- The maximum panel height is 144".**

See price grids for the minimum number of panels that will be available at the desired width.

More panels can be ordered at an additional surcharge and to achieve the desired panel width.

The standard panel overlap is 2". Custom overlaps are available.

Example: The standard split stack on a 96" wide opening would have 4 panels at 26" wide with a 2" overlap. If 6 panels are desired, each panel would be 18" wide.

Track Specifications

- The minimum width of a track is 18".**
- The maximum width of a track is 216".**

The maximum width of a single panel track is 216". When the total width is ordered over 100", tracks will be split in half and a connector bracket will be provided.

Panel Stack Back

The stack back will be equal to a single panel width. It will never be less than 12" and never exceed 48".

To determine an approximate stack back:

Ordered Width ÷ Number of Panels = Stack Back within +/- 2". (with 2" standard overlap)

Color Lux Custom Graphics for Panel Track

Custom Graphics is available on Panel Track Shades in the following fabrics:

- Classic Duck Light Filtering
- Classic Duck Blackout
- E Screen 5% (only available for Custom Graphics)

Add 25% to Standard Rectangular price plus desired upgrades.

Light Gap

Head Rail/Fabric Panels: There is no light gap between the fabric panels and the bottom of the head rail.

Outside Mount Bracket/Head Rail: There is a 1/4" light gap between the top of the track to the top of the outside mount installation bracket.

Inside Mount Bracket/Head Rail: There is a 1/8" gap between the top of the track to the top of the inside mount installation bracket.

Bottom Light Gap: There will be a 1/2" light gap at the bottom of the hanging panels on an inside mount shade.

Side Light Gap: There will be 3/16" side light gap at the sides of the panel track.

To avoid side light gap on outside mount shades, Comfortex recommends increasing the ordered width by 5", or 2 1/2" on both sides.

Outside Mount Installation Bracket Appearance

Fabric Deductions and Specifications

Panels are fabricated with a 2" overlap as standard. Custom overlaps are available in 1 1/2", 2 1/2" or 3".

Inside Mount:

Head rail width = ordered width minus 1/4"

Panel height allowance = ordered length minus 1/2"

Outside Mount:

No additional deductions are taken for fabric width

Panel height allowance = ordered length

NEW Highlights Valance for Panel Track with Keystone

See pages 77 - 79 for more information on the Color Lux Highlights Cornice Valance for your Panel Track system.

- Keystones ordered for Panel Tracks should use return sizes list below to ensure clearance of the Panel Track Rail.
- **2 Panels Side or 4 Panel Split = minimum 3" returns**
- **3 Panels Side = minimum 3" returns**
- **4 Panels Side or 6 Panel Split = minimum 4" returns**
- **5 Panels Side or 8 Panel Split = minimum 4" returns**
- Keystones automatically match the color and fabric of the ordered Color Lux Highlights Valance. Custom color options are not available.
- Valance panels are divided in half when the Keystone option is ordered. Custom locations for keystone placement is not available.
- Ordering two optional keystones is currently not available.
- Multiple Keystones may be required for larger widths. (ex. A Highlights Valance with an ordered width of 216" will require TWO Keystone. All three valances will be 72" wide, excluding returns).

COLOR LUX® PANEL TRACK SHADES

Color Lux® Panel Track System Specifications

Outside Mount Hardware Profiles

Five separate panel track profiles are available depending on the number of panels ordered.

Two Track System

Two channel tracks are used for:
 2 panel side stack
 4 panel split stack

Mounting Dimensions

Minimum height required for outside mounting: 2 1/16"

Extension Bracket projects back of bracket 2 5/8" from wall

Three Track System

Three channel tracks are used for:
 3 panel side stack
 Not Available for split stack

Mounting Dimensions

Minimum height required for outside mounting: 2 1/16"

Extension Bracket projects back of bracket 2 3/16" from wall

Four Track System

Four channel tracks are used for:
 4 panel side stack
 6 panel split stack

Mounting Dimensions

Minimum height required for outside mounting: 2 1/16"

Extension Bracket projects back of bracket 1 1/16" from wall

Five Track System

Five channel tracks are used for:
 5 panel side stack
 8 panel split stack

Mounting Dimensions

Minimum height required for outside mounting: 2 1/16"

Extension Bracket projects back of bracket 1 7/16" from wall

Color Lux® Panel Track System Specifications

Inside Mount Hardware Profiles

Five separate panel track profiles are available depending on the number of panels ordered.

Two Track System

Two channel tracks are used for:
 2 panel side stack
 4 panel split stack

Mounting Dimensions

Minimum depth for flush inside mount: 1 1/16"
Minimum depth required for shallow mounting: 1 1/4"

Three Track System

Three channel tracks are used for:
 3 panel side stack
 Not available for split stack

Mounting Dimensions

Minimum depth for flush inside mount: 2"
Minimum depth required for shallow mounting: 1 7/16"

Four Track System

Four channel tracks are used for:
 4 panel side stack
 6 panel split stack

Mounting Dimensions

Minimum depth for flush inside mount: 2 1/16"
Minimum depth required for shallow mounting: 2 1/16"

Five Track System

Five channel tracks are used for:
 5 panel side stack
 8 panel split stack

Mounting Dimensions

Minimum depth for flush inside mount: 3 3/8"
Minimum depth required for shallow mounting: 2 1/4"

Spacer blocks are available at 1/16" increments, up to two. Add to overall projection.
 Example: For a four panel track, take 2 3/8" plus 1/16"

COLOR LUX® PANEL TRACK SHADES

COLOR LUX®

Custom Graphics

Color Lux® Custom Graphics

Print Photos, Logos, Artwork, Advertisements and More on Color Lux® Roller and Panel Track Shades!

With Color Lux® Custom Graphics you can print literally anything on a Color Lux® Roller or Panel Track Shade. From logos and advertisements for a store front, to personal photos and theme room graphics, virtually anything you imagine can be featured on a Color Lux® Roller or Panel Track Shade.

Color Lux® Custom Graphics are also available on Cellular Shades. See the Cellular and Pleated Price Guide for more information.

Side A

Shows Printed Image

Side B

White Fabric

Single Sided Printing:

- Select a Roller or Panel Track Shade.
- Color Lux® Roller Custom Graphics Shades are available on Classic Duck Light Filtering, Classic Duck Blackout and Mermet E Screen 5% (E Screen 5% is only available with Custom Graphic Shades)
- Use the Color Lux Custom Graphics Grids on pages 102 and 103.
- A Color Lux® solid color may be selected for the background color of your shade.
- You can choose to have Side A face the room side or the street side.
- Use the Color Lux® Custom Graphics Order Form

Please Note: When ordering a Color Lux® Panel Track System Shade with a custom graphic, the custom graphic will not line up. The fabric used on Color Lux® Panel Track Shades will be printed at the total width and length specified for the complete system and then will be cut into the number of panels specified. **The pattern on the adjacent panels will overlap by 1/2”.**

Double Sided Printing -

Roller Shades on Mermet E Screen 5% Only:

- Double sided printing is available only with Roller Shades.
- Double sided printing is only available on Mermet E Screen 5% Fabric.
- Add the 40% Surcharge to the Standard Rectangular price plus desired hardware options.
- Side A can be any custom graphic.
- Side B can only be a Color Lux® solid color (NO GRAPHICS).
- You can choose to have Side A face the room side or the street side.
- A Color Lux® solid color may be selected for the background color of your shade.
- Use the Color Lux® Custom Graphics Roller Shade Order Forms.

Ordering Color Lux® Custom Graphics Shades

How to order Color Lux® Custom Graphic Shades

STEP 1. FAX OR E-MAIL YOUR ORDER

Fax the appropriate Color Lux® Custom Graphics order form (Roller, Panel Track or Cellular) located on comfortexdealers.com to (800) 336-4580. Or e-mail the order form to customercare@comfortex.com. Upon receipt and review of your order, you will receive a work order confirmation number from Comfortex. Please be sure to reference this number when submitting your artwork in Step 2.

STEP 2. SOURCE AND SEND YOUR GRAPHIC

Source your graphic from a stock photo site such as www.istockphoto.com or use your own high resolution photography. Send your files via e-mail to: customgraphics@comfortex.com OR ship a CD/portable media containing your graphics to:

Color Lux® Custom Graphics
 Comfortex Window Fashions
 21 Elm Street
 Maplewood, New York 12189

Using Online Stock Agencies for Graphics for Your Shades

Sometimes, finding the right graphic or photograph to fit your shade size, shape, or content can be challenging. Fortunately, many web sites offer a great solution. Online stock agencies allow you to purchase reasonably priced, royalty-free digital illustrations, graphics, photographs, patterns, and more in thousands of different subject areas. Some of the more popular sites include:

- thinkstock.com
- istockphoto.com
- veer.com
- shutterstock.com
- gettyimages.com
- 123rf.com
- photosearch.com

Using these sites is easy, simply follow these steps:

Step 1. Create an account and search for your image (i.e. apples).

Step 2. Select, purchase, and download the image you like. You may be given a choice of sizes, so take care to select an option large enough for your needs. Be sure to include the Work Order Confirmation Number received from Comfortex Customer Service with your graphic files.

STEP 3. APPROVE YOUR PROOF

The Color Lux® Custom Graphic Team will email a PDF proof of your shade order which must be reviewed and approved for production to begin. Once the artwork is approved, it will take 2 weeks for your order to be printed, assembled, and shipped.

Color Lux® Graphic File Specifications

Preferred Formats

- Vector files/Adobe Illustrator (AI or EPS)
Please convert all typography to paths prior to submitting your vector artwork.
- TIFF, JPG/JPEG, or Adobe Photoshop (PSD) files with a minimum resolution of 100 pixels per inch at 100% size. For example, a shade measuring 30" x 40" should be supported by a graphic measuring at least 3000 x 4000 pixels.
- Adobe Acrobat (PDF) files created in "Press Quality" or "High Quality Print" with a minimum resolution for all raster elements of 100 pixels per inch at 100% size.

Graphics optimized for, or harvested from the internet are, in general, not suitable for reproduction onto shades.

Comfortex will seek to verify ownership and rights to reprint for all images showcasing copyrighted material.

Questions? Please contact Comfortex Customer Care with all questions regarding Color Lux® Custom Graphic Orders.

- **Section 2:** Shades to the right of the dashed line require a 1½" tube/R8 clutch
- **Section 3:** Shades in the blue section require a 2" tube/R16 clutch.
- **Section 4:** Shades in the orange section require a 2½" tube/Galaxy 200 clutch

Color Lux® General Information

COLOR LUX® GENERAL INFORMATION

COLOR LUX®
Designer Cellular & Roller Shades

Cut-Outs, Scotchgard Protection, Certified Fabrics and Highlights Cornice Valances

Cut-Outs

Cut-outs are available with all cellular fabrics. Cut-outs are \$52.00 per side and are subject to approval by the Comfortex Technical Service department.

There are no limits on cut out lengths. There are limits on cut out widths:

Cellular shade widths 18" or less 3" maximum width

Cellular shade widths greater than 18" 5" maximum width

Scotchgard™ Protection

Scotchgard™ Protector is available with Color Lux Cellular, Roller and Panel Track Shades.

Scotchgard™ keeps your shades looking newer, fresher and cleaner longer.

A combination of the latest advances in stain release and repellency provides exceptional stain protection. Spills wipe away easily and most dirt and stains lift out when cleaned.

Certified Fabrics

GREENGUARD Indoor Air Quality Certified® Fabrics
The GREENGUARD Environmental Institute has established performance based standards to define goods with low chemical and particle emissions for use indoors.

Color Lux Linen Weave fabrics have received GREENGUARD Indoor Air Quality Certified® certification for low emitting interior building materials, furnishings, and finish systems.

Highlights Cornice Valances

Elevate your windows to a whole new level of design with the Highlights Cornice Valance. Coordinate with other design elements in your room and add a finishing touch to the top of any window treatment. The Highlights Cornice Valance is versatile and beautiful at a price point that won't leave you wondering how to cover the rest of your windows!

Choose from any color in the Color Lux Roller line and customize the valance with our 7 available return sizes to best fit your application.

Easy assembly and quick installation, with the Highlights Cornice Valance, more beautiful windows are within your reach.

Shade Stack Heights

Measurements are in inches. Shade stacking heights applicable when the shade is in the fully raised position.

Child Safety

Comfortex has a long history of designing new child-safety products is proud to provide a leadership in cooperating with the Consumer Product Safety Commission (CPSC) the development of policies and guidelines for the industry by serving on the WCMA Standards Development Committee.

Cord Cleat

Cord Tensioner

All Comfortex products have been fully tested and proven to comply with the current WCMA Standards for safety of corded window coverings.

Be aware that it is possible for children to become entangled in window covering cords. To reduce the risk of accidents, all cords must be kept out of the reach of children. A cord cleat or cord tensioner is an effective way to implement this essential precaution. Please use them.

To mount the cord cleat at a safe height, take into account furniture or other objects upon which a child may climb. Then, after the use of the blind, simply wrap the excess cord around the cleat.

Cleaning and Care

While beautiful and pleasing to the eye, all Comfortex products are designed to be durable, easily cared for and easily cleaned. Our non-woven fabrics are inherently anti-static and repel dust, but occasional feather dusting or vacuuming may be necessary to keep the fabrics clean and bright. Comfortex Color Lux Cellular fabrics may be ultrasonically cleaned.

Our light filtering and room darkening fabrics are inherently anti-static and repel dust, but occasional cleaning may be necessary to keep the fabrics clean and bright. The fabric can be dusted with a soft, clean cloth, feather duster or lightly vacuumed with a soft brush attachment. Spills and stains can be lightly blotted with a cloth or damp sponge. More difficult stains may require soaking in water with mild soap. For this, remove the shades from the window and soak in warm water. Complete immersion of hardware is not recommended.

DO NOT submerge the Cordless Ultra head rail in water. When damp, lay flat to dry or place back in window and raise tightly to recrisp pleats. Please test any stronger cleaners on an unobtrusive portion of the shade before using.

For additional advice on care or cleaning, please contact our Technical Services Department.

Scotchgard™ Treated Shades

The following are the recommended cleaning and care instructions for window treatments with fabric treated with Scotchgard™ Protector.

- Gently blot liquid stains immediately with a clean, white cloth.
- If stain remains, prepare a solution of ¼ teaspoon of clear, non-bleaching dish detergent mixed with 1 cup of lukewarm water. Dampen a clean white cloth and gently blot the stain.
- Do not over wet the fabric or excessively rub the stained area.
- See the Installation and Care instructions for complete details.

For additional assistance with stain removal, call the Scotchgard™ Protector Service Center at 1-800-433-3296. Customer Care representatives are available Monday through Friday, 8am to 6pm CT.

⚠ WARNING	
	The cords on this product present a potential strangulation hazard.
	For child safety, consider cordless alternatives or products with inaccessible cords.
⚠ ADVERTENCIA	
	Los cordones de este producto representan un peligro potencial de estrangulamiento.
	Para la seguridad de los niños, utilice alternativas sin cordón o productos cuyos cordones sean inaccesibles.
⚠ MISE EN GARDE	
	Les câbles de ce produit représentent un danger potentiel de strangulation.
	Pour la sécurité des enfants, pensez au sans fil, ou procurez-vous des produits dont les câbles ne sont pas accessibles.

Measuring Instructions

Comfortex accepts measurements down to $\frac{1}{16}$ " increments.

Inside Mount

Use a steel tape to measure the opening at three different places, and use the narrowest dimension when ordering. Be exact! The factory will make the shade $\frac{3}{8}$ " narrower so it will not rub against the window casing. Measure the height of the window from the top (soffit) down to the sill.

Outside or Ceiling Mount

Use a steel tape to measure the exact height and width of the area to be covered. It is recommended that the shades overlap the window by at least $1\frac{1}{2}$ " on each side. When installation has no sill, allow the shade to overlap the bottom of the window casing by at least $1\frac{1}{2}$ ". Shade fabric will measure width indicated on the order form.

Measuring for Specialty Shapes

Templates are required with some specialty shade orders. Consult the individual product sections of this guide for specifics regarding accurate measurements and mounting information.

Arches and Quarter Round Circles

- Measure the window height and width appropriately for an inside or outside mount.
- With perfect arches, the height will be one half the width. With perfect quarter rounds, height will equal width. If the arch or quarter round is perfect, **a template is not required.**
- Windows with imperfect arch measurements do not maintain the height/width relationship. Templates **are required** for these windows.

Trapezoids

- Measure the window height and width appropriately for an inside or outside mount. For outside mounts, remember to add the desired amount of overlap.
- Either the top or bottom of the shade is sloped or angled.
- Measure all four sides for accurate fabrication. Provide all measurements. **Templates are not required.**
- The slope angle must be measured with a protractor. Slope is the angle between slope and a horizontal line. The maximum slope is 30 degrees.

Octagons

- **Templates are required** and must be cut out of brown craft paper.
- Measure the window height and width appropriately for an inside or outside mount. Be sure to measure the width at the shade's widest point.
- Provide the width, length and the length of one side when ordering.

Making the Perfect Template

Tape brown craft paper over the window opening. Be sure to allow plenty of overlap and check to see that the paper is smooth and pulled taut. Do not use newspaper as the ink can rub off on fabric. Do not use paper that has been folded. Notice the outline of the framework superimposed on the template as the light filters through the window. You may create the template in one of two ways:

Trace the outline of the window with a pencil and continue along the side of the window frame. Once the window is completely traced, remove the craft paper from the window. Cut out the traced shape with a pair of scissors.

You may choose to skip tracing the window outline with a pencil and cut out the shape immediately with a razor knife.

Once your template is cut, double check its width and height with your initial measurements. Test the template by placing it in the window. Check for light gaps, uneven cutting of curves etc. Trim or remake if necessary.

With arch top shades, fold the template in half. Check the outline of the curve for smoothness, light gaps and curve continuity. Place the template in the window and check it for light gaps or uneven cutting of curve. Trim or remake it if necessary.

On the front of the template, mark the shade measurements along with your company name, account number, sidemark, shade style and color. Be sure to indicate inside or outside mount, the room side and which ends of the template are top and bottom. Do not take any deductions on inside mount shades. The factory will make all necessary allowances for inside mounts.

Remember: The quality of the finished shades depends heavily on the quality of the template supplied. Do not hesitate to remake a template if you feel uncomfortable of the quality of your first attempt.

Template Kits: Comfortex offers template kits which includes brown craft paper, razor knife, instructions and order form. Please contact Customer Service or visit www.comfortexdealers.com to order. Stock number: 751000

Conditions of Sale

All Comfortex products are custom fabricated to your exact specifications. We cannot accept responsibility for errors in ordering or cancellations and charges after the order is in production.

Policies

Our policies are designed to provide a guide for doing business with Comfortex. Our first priority and number one policy is to provide the highest level of service and total satisfaction.

Freight

Comfortex will ship all orders for fabricated shades freight free via UPS, FedEx Ground or other similar method within the continental United States*.

A \$3.75 per unit transportation surcharge will be added to all fabricated product orders, within the continental United States, including shades/blinds, vane packs, individual vanes, tracks, valance and cut yardage orders.

In addition, a \$70.00 Common Carrier surcharge** will be added for all orders shipped within the continental United States*, that include shades or blinds with widths of 98" or more and are required to ship by motor freight.

***Hawaii:** Shipments to the Hawaiian island of Oahu will incur a freight charge of \$80.00 per order, plus \$3.75 per unit. All other Hawaiian islands will incur an \$100.00 per order freight charge, plus \$3.75 per unit.

****Hawaiian Common Carrier Surcharge:** An \$110.00 Common Carrier surcharge for oversized shipments will be added to orders shipping to Hawaii.

***Alaska:** Shipments to Alaska will incur a \$6.00 per unit transportation surcharge.

****Alaska Common Carrier Surcharge:** An \$110.00 Common Carrier surcharge for oversized shipments will be added to orders shipping to Alaska.

Canada: Shipments to Canadian dealers will incur a \$3.75 per unit transportation surcharge. In addition, ground shipping charges will be invoiced on a monthly basis as a percentage of the shade order value, together with a \$110.00 Common Carrier surcharge for oversized shipments. Ground Shipping charges are as follows: (\$1.00 to \$1,000 = 7%, \$1,001 to \$5,000 = 6%, \$5,001 to \$10,000 = 5%, and \$10,001 or more = 4%).

Comfortex Mexico Plant: All shipments from our Mexico plant to Alaska, Hawaii or anywhere outside the Continental US will incur all freight charges (freight forwarder needed if shipping to another country).

All Other Countries: All United States dealers requesting to ship orders outside the United States must provide a freight forwarder for Comfortex to ship to within the continental United States. Comfortex cannot ship directly to your customers located outside the United States.

Please Note: Comfortex reserves the right to select another carrier, modify shipping terms or change freight policies without notice.

Service and Repair

Service may be obtained by contacting our Customer Service Department. No products, parts, components or other materials will be authorized for return or repair without prior approval from Comfortex. A Return Authorization (RA) may be obtained by contacting our Technical Service Department. In order to provide the quickest service possible, please have your Comfortex Work Order number and original order information available when you call.

Specifications

All Comfortex products are designed and tested to perform as intended within established, published parameters. Requests for "custom fabrication" of products outside of our published specifications may be considered, but are at the discretion of the Comfortex Technical Services department. Restrictions and additional charges apply.

Download installation instructions, order forms or additional price list copies on the Comfortex OnDemand Library or www.comfortexdealers.com in the Dealers Resource Center.

Motorized Color Lux Cellular Shades Warranty

Standard Simplicity and Simplicity Rechargeable Motors

We offer a 5 year warranty on all motors and controls. Specifically, we warrant the Simplicity motors and controls to be free from defects in material and workmanship under normal and proper use for a period of 5 years commencing with the date stamped on each product. If the Simplicity product fails within this 5 year period, we will repair or replace it free of charge through end user product supplier. Comfortex will warranty non-rechargeable alkaline batteries for up to 3 months from date of purchase. Simplicity Rechargeable (NiMH and Li-Ion batteries) are covered by a 5 year warranty.

Color Lux Color Warranty

Comfortex utilizes state of the art technology to provide you Color Lux Shades within 2 Delta-E (DE) of the sample fabrics found in the Color Lux Sample Book. When viewed under different lighting sources such as fluorescent, incandescent, halogen, ultraviolet and others, fabrics may appear different to the eye. Comfortex utilizes the worldwide lighting standards of Daylight 65 (D65) as our official standard for measuring and qualifying color accuracy, because D65 daylight bulbs best represent actual "daylight" illumination. Slight color variations (under 2 DE) are within established industry standard and should be expected. This warranty is in addition to Comfortex limited lifetime warranty.

Scotchgard™ Warranty

Comfortex Window Fashions provides a limited warranty for fabrics treated with Scotchgard™ Protector against permanent stains for a period of 1 year from the date of original purchase.

This warranty excludes conditions or damages resulting from accidents, alterations, exposure to the elements, and exposure to any and all natural and manufactured excessive heat sources, or failure to follow the Installation and Care instructions. This warranty also excludes fabric submerged in water or cleaning solutions, or treated with household products that may alter or deplete the effectiveness of the treated fabric. In addition, the following types of stains are excluded from this limited warranty: pet stains, bodily fluids, stains caused by wine, bleach, plant fertilizers, acne medication, misuse or abuse. This warranty is not a cleaning contract and does not cover the cleaning of fabrics that are soiled or discolored through daily use. This warranty coverage is limited to residential use and is not transferable.

The following are the recommended cleaning and care instructions for window treatments with fabric treated with Scotchgard™ Protector.

- Gently blot liquid stains immediately with a clean, white cloth.
- If stain remains, prepare a solution of ¼ teaspoon of clear, non-bleaching dish detergent mixed with 1 cup of lukewarm water. Dampen a clean white cloth and gently blot the stain.
- Do not over wet the fabric or excessively rub the stained area.
- See the Installation and Care instructions for complete details.

For additional assistance with stain removal, call the Scotchgard™ Protector Service Center at 1-800-433-3296. Customer Care representatives are available Monday through Friday, 8am to 6pm CT.

Should the results of the cleaning and care instructions not result in the removal of permanent stains covered by this limited warranty, Comfortex will retreat or replace the fabric, at its discretion, for a period of 1 year from the date of original purchase. Customer must provide proof of purchase and provide proof the stain occurred during the warranty period. Shipping and handling costs to send the window treatment back to Comfortex are the responsibility of the customer.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Color Lux Cellular, Roller and Panel Track Shades Warranty Information

Comfortex Window Fashions warrants that its window treatments will be free from defects in materials and workmanship for as long as the original residential purchaser owns the product, provided that the product was installed properly and in accordance with the installation instructions. The limited lifetime warranty is extended to the original residential purchaser only, in the original window for which it was installed.

The warranty does not include any conditions or damages resulting from accidents, alterations, misuse, abuse, misapplication, improper handling, installation, repairs, operation, cleaning, exposure to any and all natural and manufactured excessive heat sources. (Excessive heat sources include, but not limited to; magnification of sun light through cubes of glass, heaters of any kind, ovens, candles, lighting fixtures, etc.) This warranty does not cover variation in fabric color, grain, or texture. Loss of pleating is not covered if the product is not being cycled (held in the raised position a portion of the time). Normal wear and tear is not covered.

All moving parts, such as cords, will eventually wear out and fabric may fray. Comfortex considers these things as normal wear and tear which will carry a three year limited warranty. All fabric, including fabric vanes, panels, inserts, and shades carry a five year warranty.

This limited warranty does not cover transportation costs to and from the retailer, costs of removal, re-measure, re-installation of product, or any incidental or consequential damages.

If a Comfortex product is found to be defective in materials or workmanship, we will, at our discretion, repair, replace or refund the cost of a product which fails to conform to this limited warranty. Colors vary from lot to lot and may not exactly match sample swatch, sample book, or previous purchases. Discontinued components or color selections will be replaced with the closest equivalent current product. This shall be your sole remedy under this limited warranty.

To obtain service, the end user should contact the dealer from whom they purchased the product.

This warranty is exclusive and in lieu of all other obligations, liabilities or warranties. In no event shall Comfortex or its licensed fabricators or distributors be liable for incidental or consequential damages, or for any other damage, loss or expense, cost or fee associated with such damage. In some states, exclusions for incidental or consequential damages are not allowable.

This warranty gives specific legal rights, and customers may also have other rights, which vary from state to state. Policy is subject to change without notice.

This limited warranty is exclusive of commercial use. Contact Comfortex Technical Service for more information. No agent, representative, dealer or unauthorized employee has the authority to increase or alter the obligation of this warranty.

This limited warranty supersedes any previous versions.
