# Product Information

## Discoveries® Vertical Blinds - Decomatic® Headrail Systems

### Product Features - Decomatic Headrail

- Fits rectangular window or door openings
- One Way or Split Draw Operation (Right control standard)
- Nickel-plated Steel chain operating system
- Anodized Aluminum Track
- Smooth and quiet traversing
- Replaceable vane carriers for easy onsite repair
- Automatic Clutch protected vane alignment

### Product Features - One-Wand Headrail

- Eliminates risk of strangulation from exposed cords
- Anodized Aluminum Track
- Wand operation for smooth and quiet traversing
- Replaceable vane carriers for easy on site repair
- Automatic Clutch protected vane alignment
- **One-way draw only**
- Wand size will be 2/3 of the blind length standard.

### Size Standards

- Dimensions
  - Maximum width: 191"
  - Minimum width: 10"

### Mounting Requirements

- Inside Mount (IB)
  - Minimum Mounting Depth: 2 3/4"

### Finished Dimensions

- Inside Mount (IB): -1/8"
- Outside Mount (OB): Ordered Width
- Light Gaps
  - Inside Mount (IB)
    - ♦ Control Side: 1/4"

### Important Child Safety Note

The revised American National Standard for Safety of Corded Window Covering products requires that blinds with cord loops must be mounted with functioning cord tensioners that have not been modified from original specifications.

### Standard Cord Drops

Traverse cord loop is 6" above ordered vertical length. Tilt chain is 1/2 the length of the ordered vertical length.

### Hardware Included

- Installation Brackets
- Cord Tensioner Bracket

### Options

- No Charge
  - Chain and Clips on Fabric Louvers
  - Keyhole and Chain PVC Louvers
  - Sewn-In Weights on Fabric Louvers
  - Stack Right / Left / Split
  - Control Side: **Must be requested at time of order**
  - One-Wand System Draw up to 191" wide
  - Optional wand sizes up to 99".
  - Butted Blinds: **Must be requested at time of order**
- Surcharge
  - Cut-Outs
  - Striping
  - Verticlip
  - Majesty Valance
- **Exclusions:** Motorization

### Ordering Notes

- To match dye lots for several verticals in same room, designate a room number.
- Hems are sewn in both top and bottom of fabric vanes. Thus, shortening vanes less than 1" may be impossible. Please measure carefully.
- Product warranty covers louver lengths up to 120". If exceeded, twisting may occur and order will require a signed Warranty Waiver.
- To price, use price chart specific to selected material and use line pricing based on louver option. Add valance and optional surcharges to line price.

### Blind Operation

- Decomatic Headrail System
  - Pull down on front/back of cord loop to traverse vertical blinds side to side.
  - Pull down back chains to rotate louvers and adjust light diffusion.
- One-Wand Headrail System
  - Pull wand right or left to traverse vertical blinds. Rotate wand to rotate louvers and adjust light diffusion.

### Caution

- Dye lot variations are inherent qualities of any textile fabric.
- Colors appear different under varied light conditions.
- Heat registers, electric baseboard heat or other heat sources can emit heat intense enough to scorch fabric or melt PVC vanes.

# Product Information

## Discoveries® Vertical Blinds - Panogram™ Headrail System

### Product Features - Panogram Headrail

- Fits rectangular window or door openings
- One Way or Split Draw Operation (Right control standard)
- Nickel-plated Steel chain operating system
- Anodized Aluminum Track
- Smooth and quiet traversing
- Automatic Clutch protected vane alignment

### Product Features - Wand-Draw Headrail

- Eliminates risk of strangulation from exposed cords
- Anodized Aluminum Track
- Wand operation for smooth and quiet traversing
- Automatic Clutch protected vane alignment
- **One-way draw only**
- 30" wand

### Size Standards

- Dimensions
  - Maximum width: 191"
  - Minimum width: 10"

### Mounting Requirements

- Inside Mount (IB)
  - Minimum Mounting Depth: 2 3/4"

### Finished Dimensions

- Inside Mount (IB): -1/8"
- Outside Mount (OB): Ordered Width
- Light Gaps
  - Inside Mount (IB)
    - ♦ Control Side: 1/4"

### Important Child Safety Note

The revised American National Standard for Safety of Corded Window Covering products requires that blinds with cord loops must be mounted with functioning cord tensioners that have not been modified from original specifications.

### Standard Cord Drops

Traverse cord loop is 6" above ordered vertical length. Tilt chain is half the length of the ordered vertical length.

### Hardware Included

- Installation Brackets
- Cord Tensioner Bracket

### Options

- No Charge
  - Chain and Clips on Fabric Louvers
  - Keyhole and Chain PVC Louvers
  - Sewn-In Weights on Fabric Louvers
  - Stack Right / Left / Center / Split
  - Control Side: **Must be requested at time of order**
  - Wand-Draw System up to 191" wide
  - Butted Blinds: **Must be requested at time of order**
- Surcharge
  - Cut-Outs
  - Striping
  - Verticlips
  - Majesty Valance
- **Exclusions:** Motorization

### Ordering Notes

- To match dye lots for several verticals in same room, designate a room number.
- Hems are sewn in both top and bottom of fabric vanes. Thus, shortening vanes less than 1" may be impossible. Please measure carefully.

- To price, use price chart specific to selected material and use line pricing based on louver option. Add valance and optional surcharges to line price.

### Blind Operation

- Panogram Headrail System
  - Pull down on front/back of cord loop to traverse vertical blinds side to side.
  - Pull down back chains to rotate louvers and adjust light diffusion.
- Wand-Draw Headrail System
  - Pull wand right or left to traverse vertical blinds. Rotate wand to rotate louvers and adjust light diffusion.

### Caution

- Dye lot variations are inherent qualities of any textile fabric.
- Colors appear different under varied light conditions.
- Heat registers, electric baseboard heat or other heat sources can emit heat intense enough to scorch fabric or melt PVC vanes.

# Product Information

## Discoveries® Vertical Blinds - Specialty Applications and Valances

### Product Features - Angle Windows

- Decomatic® Slope
  - Available for sloping, cathedral-type windows
  - Most blinds will be TILT ONLY
  - Available in White, Bronze, and Anodized
  - One-Way (must stack to high side)
  - Chain operating system only

Decomatic Slope

### Size Standards

- Maximum Angle: 55 degrees
- Maximum Width: 240"
- Minimum Width: 10"
- Maximum Blind Weight: 45 lbs.

### Ordering Notes

- Exact dimensions required!
  - Slope Track Width
  - Bottom Width
  - Low-Side Height
  - High-Side Height
- Specify Control Side
- Traversing capability depends on overall specifications.
- If blinds both tilt and traverse, controls must be on same side
- To price: Add vertical blind price (use slope width of track and longest vane length) to Slope/Angle Track Surcharge.
- Exclusion: Wand Draw

### Options

- Control available on either left or right side
- Channel Panel Valance (Only)

Four different size hooks are used (one size per track).  
The length of the hook is determined by the angle of the track.

### Product Features - Dust Cover Valance

- Pricing includes Dust Cover Valance
- Round Wrap
  - Standard for all outside or inside mounts with returns, using fabric louvers. However, Tailored Corners are available.
- Tailored Corner
  - Standard for all outside or inside mounts when using PVC louvers
- Utilizes a non-yellowing clear edge groover insert

Valance Type	OB or IB with returns Fabric	OB or IB with returns PVC/Aluminum	IB with no returns Fabric	IB with no returns PVC/Aluminum
Tailored Corner	Optional	Standard	Not available	Standard
Round Wrap	Standard	Not available	Not available	Not Available

Tailored Corner

Round Wrap

### Wood Valance

- Majesty Valance is available in eight colors: Buckeye, Cottage Pine, Ebony Wash, Gardenia, Java Roast, Mahogany, Natural, Navajo White. Color samples can be found in the Allure, Heartland Woods, Manh Truc and Genesis sample books.
- Standard return is 5 1/2" from back of valance to wall.
- If wood valance width is over 96" the valance will be spliced.
- Wood Valance is stapled to a channel panel piece for attachment to the vertical headrail.

Majesty Valance  
4 1/2" height  
5/8" thick

# Product Information

## Discoveries® Vertical Blinds - Design Features

### Louver Options

- Free Hanging
  - Fabric verticals are available free hanging with enclosed weights standard. Sewn-in weights with open pocket sides are optional at no charge. Bottom weights with chains and clips can be requested for sewn-in only. **Note:** Several fabrics are too delicate for shipping with weights and chains inserted.
- Channel Panel Insert
  - Channel Panel insert in color Ivory or White, with crystal clear edges, is available for most fabrics to provide energy efficiency.
- Channel Panel only
  - Channel Panel may be purchased separately (use FH row in price chart to price). Will be supplied with insert adhesive backing. Testing is recommended on a small area as some fabrics and wallpapers may adhere more strongly than others. **We cannot guarantee the insert backing material will adhere to all fabrics.**
- Vinyl
  - May have a keyhole punched and chains inserted as a no charge option. S-shaped vinyl materials cannot be keyhole punched.
- Louver Orientation and Light Diffusion
  - **S-shaped louvers** have distinct left-facing/right-facing louver orientations that affect light diffusion. **Louver orientation must be specified at time of order and cannot be changed in the field.** S-shaped louver materials are designated on page 3.

### Other Special Installations and Options

- Abutted Blinds
  - Channels may be ordered to butt together when dimensions exceed maximum widths. **Exact measurements required.**
- Cut-Outs
  - Free hanging verticals may be ordered for cut-out installations when objects interfere with louvers, i.e. air conditioner, heat register, etc.
- Striping
  - Using same louver material with a different colorway. Number of louvers in each colorway must be specified. (See page 13 for # of louvers in stacking charts for respective headrail systems)
- Verticlips
  - Verticlips allow a louver to be hung at each end to form a blind length return and help minimize light gap. (One pair of Verticlips and two louvers are shipped with this option)

### Product Features - Palladian Window Shelf

- Double beaded hardwood shelf designed to mount horizontally in arched or angled openings to serve as divider and mounting surface for any window fashions product
- Allows area above shelf to be covered differently or uncovered
- Finishes available from Woodland Harvest and Heartland Woods
- Inside Mount Applications only

### Size Standards

- Dimensions
  - Height: 1 1/2"
  - Depth: 4" (Can be cut down to 2" minimum upon request)
  - Maximum Length: 8'

### Ordering Notes

- Must be installed below the radius of window as routed ends are square
- Specify exact width from jamb to jamb. A 1/16" deduction will be taken by Lafayette.
- Ordered separate from Vertical Blind (Priced by lineal foot - round up from exact width to next highest lineal foot.)

### Online Template Service

- Lafayette produced - Flat fee.
- To order a factory-made template visit the Lafayette web site at [www.lafvb.com](http://www.lafvb.com)
  - Print and complete template order form to be submitted via fax
  - Complete and submit web-based order form online.

# Product Information

## Discoveries® Vertical Blinds - Installation and Measuring Information

### Brackets

- The chart below shows the number of brackets that will be shipped as recommended by the manufacturer of the vertical track.

Width	# of Brackets	Width	# of Brackets
Up to 36"	2	100" to 129"	5
37" to 66"	3	130" to 159"	6
67" to 99"	4	160" to 189"	7

- Inside mount
  - Ceiling mount: Clip style, designed to screw directly to ceiling.
  - Wall mount: L-brackets must be added by installer
- Outside mount
  - Ceiling mount: Rivets must be drilled out by installer
  - Wall mount: Clip style with riveted on L-bracket
- If different bracket is desired other than the standard for type of mount (IB or OB), **must be ordered separately at time of blind order.**

Mounting Clip  
Item# 98286

Panogram Wall Bracket

### Replaceable Carrier Stems - Decomatic

- Stems can be removed with stem removal pliers, without un-mounting the headrail. Hook Replacement Kit and Hook Removal Pliers are available for purchase.
- 5/16" wide
- 185 degree rotation capability
- Maximum vane weight is 1 1/4 lbs.

Item# 90570HOBP

Carrier stem Replacement Kit Item# 95559KIT  
Carrier stem Removal Pliers Item# 95559

### Carrier Stems - Panogram

- These stems are not removable.

### Best Practices for Measuring

- Always use a steel tape or a metal ruler for measuring.
- Always measure every window even though they look the same.
- Check for obstructions that could affect operation of the shade.
- For Inside Mount (jamb to jamb in a window or door, wall to wall in a room), give exact inside to inside width measurements, and top to bottom length measurements of the area to be covered.
- Measure the width in at least three places and specify the narrowest width.
- Measure the length in at least three places and specify the shortest length.
- Take two diagonal measurements. If there is a greater than 3/8" difference in diagonal measurements, outside mount is strongly recommended to avoid irregular light gaps.
- For Outside Mount, measure the exact width and height of the area to be covered.

### Measuring Information

- Inside Mount
  - For verticals installed inside an area (jamb to jamb in a window or door, wall to wall in a room) give EXACT inside to inside width measurements, and top to bottom length measurements of area to be covered. **DO NOT MAKE ALLOWANCES.** Factory will make all adjustments. Louvers will clear bottom between 1/4" and 1/2".
  - See Mounting Requirements - pages 8 -9
- Outside Mount
  - Measure exact width and height of area to be covered. No allowances will be made by factory for width or length. When measuring from top of headrail to floor or ceiling to floor, a deduction of 1/2" to 3/4" is recommended. **You must make this deduction!**
  - To cover a window or door, vertical blind should overlap by minimum 3" - 6" on each side to reduce light gap.
  - When installing above a window frame, vertical track should be installed at least 2" above frame or molding. Adjust length of vertical accordingly.

### General Advisories

Please examine all merchandise and packages for accuracy and make sure all parts, brackets, etc. are included **before** sending them to be installed. While we constantly strive to make sure each order is exact and complete, we do occasionally make mistakes, and **we cannot be responsible for trip charges or reinstallation charges. Repairs or remakes must be requested within 30 days of invoice date.**
