THE FINIAL COMPANYTM

Custom for Every Style

MODERN • TRANSITIONAL • TRADITIONAL

Drapery Hardware Catalog

◀ our standard finishes

The Finial Company offers a comprehensive range of sophisticated hand painted and plated finishes. Our 10 new artisan crafted finishes include a trend right mix of elegant rustic-inspired finishes, mid-tone neutrals and modern metallics that complement today's textiles, furnishings and home décor accessories. Our sample chip design shows both smooth and detailed surfaces, indicating how the finish will look on your selected product.

For your convenience, you can unfold this cover to view all of our standard finishes as you browse our product catalog.

◀ our process

We specialize in combining quality craftsmanship with elegant hand painted finish details that deliver a custom quality product every time. Products are hand painted after we receive your order. The entire order is painted together to ensure a consistent finish. The nature of hand finishing causes some acceptable variation in finish, as each order is truly one-of-a-kind.

For more details on Custom Finish Options, please refer to the Retail Price List. Our talented artisans enjoy the challenge of creating any finish that you can envision.

custom designs inspired by you

For any design you envision, The Finial Company can make it a reality. From one-of-a-kind creations to our broad mix of hand crafted drapery hardware collections, you will never be limited by design styles, finish selections, window shapes or unusual floor plans. We've updated our expansive window hardware assortment with new finish options, customized details and modern finial designs; including the new Modern Metal Collection that offers over 400 innovative design combinations. Whether tailoring an existing style to fit your client's specific needs or bringing a new design to life inspired by your unique vision, our talented artisans are ready to help create any window design you can imagine.

custom solutions: did you know?

Our custom solutions shop can add a rosette to the front of any bracket. For more ideas on how to customize your steel brackets, turn to page 57 in Custom Solutions.

Did you know we can add a bent return to your 3/4" solid 75RD and 75HSRB poles? To find out more about bends and miters for all poles, turn to page 50 in Custom Solutions.

Do you wish your 3/4" finial could fit a larger pole diameter? It can with the addition of a finial adaptor. See page 58 for more options.

custom solutions: bypass brackets

CAUTION: Bypass Brackets do not have full cradles. Standard brackets must be installed at each end to secure ¾" pole.

A

D

A. SCB35
steel custom bypass bracket, single
3½" return, ¾"W backplate x 2½"
or 3"L

B. SCB6
steel custom bypass bracket, single
6" return, ¾"W backplate x 2½"
or 3"L

C. SCBC
steel custom bypass bracket, single
custom return, ¾"W backplate
x 2½" or 3"L

D. SCBCDBL
steel custom bypass bracket, double
custom return, ¾"W backplate
x 5¼"L

Use with 75RD pole and CR-SR75 c-ring. For more bypass bracket information, see page 56.

custom solutions: brackets

The Finial Company is known for quality craftsmanship and can create custom brackets to match your job specifications. We can customize bracket dimensions, returns and finish on any pole for a custom fit on every job. For more custom solutions products see our custom brackets section on page 56.

TBKT
custom steel t-bracket, single
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 3½"H backplate comes standard, unless otherwise specified

DBL1
custom steel bracket, double
please specify:
A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns (distance from wall to center of cradle)
note: returns are contingent upon which poles and rings are chosen
3½"H backplate comes standard, unless otherwise specified

BL4
custom steel ceiling mount bracket
please specify:
A. drop (distance from ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent upon which finial and ring are chosen
2½"W backplate comes standard, unless otherwise specified

FBKT
custom steel bracket, single
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 4¾"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished, but will be hand painted in your selected Standard Finish (see back cover) or for a custom finish you can send us a finish sample and we'll prepare a strike-off sample for approval (see Retail Price List for custom finish charges).

outdoor hardware

With the growing popularity of indoor and outdoor spaces blending together, our outdoor hardware collection was designed to make sure those spaces are covered with style and functionality. We've curated an assortment of finials and accessories from our popular steel collection and created five weather resistant finishes that have been certified for outdoor use. Our 5 year warranty guarantees against rust and fading due to conditions such as UV exposure, humidity and sea spray.

outdoor living made easy

5 custom finishes

available on all Outdoor Hardware products with protective high gloss, weather-resistant topcoat

5 year warranty

against rust and fading when properly maintained. Tested for outdoor use and guaranteed against:

- UV Exposure
- Humidity
- Sea Spray

Each order will include 2 oz. of finish and protective topcoat for periodic maintenance.

450-OH
Aluminum Gloss

440-OH
Soft Gold Gloss

103-OH
Satin Black Gloss

105-OH
Bronze Gloss

270-OH
Mahogany Rust Gloss

Outdoor Hardware Limited Warranty

All Outdoor Hardware is guaranteed to be free of manufacturing defects and is covered under our Manufacturers Limited Warranty. The product is guaranteed not to rust and the finish not to fade for 5 years if the product is maintained according to the "Product Care" information. In the event of rusting or fading, photography may be requested for finalization of claims on a case-by-case basis.

Outdoor Hardware Product Care

Unlike indoor drapery hardware, outdoor hardware requires periodic maintenance. It is important that any damages or finish abrasion be repaired immediately. Any scratches incurred during installation must be repaired at that time. Stainless steel mounting hardware is recommended, but not included. Each order will include 2 oz. of finish and protective topcoat for periodic maintenance.

In addition, twice a year, it is important to clean and inspect the outdoor hardware for scratches or wear patterns that could expose the metal and result in rusting. This is very important for treatments with rings. If such areas are discovered, apply the paint finish sent with the order. When dry, apply the clear protective topcoat also provided.

please note: allow 10-15 business days for production of **Outdoor Hardware Collection**. Professional installation recommended due to weight of steel products. Brackets recommended every 3 feet. Splicing not recommended for steel rods.

1", 1¼" use with RR125 pole and TFCS114GRSBK or TFCS114BGRDBK bypass brackets

Brackets and rings shown coordinate with custom bent and mitered steel poles. Additional brackets and rings are available. Rings and brackets shown in 680 Aged Gold.

Steel Pole 90° Mitered Returns

Round Backplates: 1 3/8" Dia (for 1/2" pole), 2" Dia (for 3/4", 1" and 1 1/4" poles) and 3" Dia (for 1 3/4" pole).
 Rectangular Backplates: 3"L x 1 1/2"W (for 1/2" 50SRB, 3/4" 75HSRB and 75RD, 1" 1SQ, RR100, ST2, ST3, SRT1, SHT1, 1 1/4" RR125, RD125, SRT2, and RR125) and 3 1/2"L x 2"W (for RR175 and TRT). Round backplates upon request.
 Sold in one foot increments, 2 foot minimum charge. Ring inner diameter must clear the mitered pole corner, if used.
 Pictured: 1" RR100 with 90° Mitered Returns with SR3 steel rings, finish 250 Platinum.

poles

50SRB
 1/2" Dia steel, round solid pole
 maximum length is 240". Not available for use with
 bypass brackets and c-rings.

75RD
 3/4" Dia solid steel pole, round
 maximum length is 220"

SRH75
 3/4" Dia hammered solid steel pole, square
 maximum length is 228". Not available for use with
 bypass brackets and c-rings.

75HSRB
 3/4" Dia hammered solid steel pole, round
 maximum length is 115". Not available for use with
 bypass brackets and c-rings.

ST2
 1" Dia single twist solid steel pole
 maximum length is 228"; use ring with minimum 1 1/2" ID.
 Not available for use with bypass brackets and c-rings.

ST3
 1" Dia double twist solid pole
 maximum length is 228"; use ring with minimum 1 1/2" ID.
 Not available for use with bypass brackets and c-rings.

SRT1
 1" Dia solid rope twist pole
 maximum length is 228"; use ring with minimum 1 1/2" ID.
 Not available for use with bypass brackets and c-rings.

RR100
 1" Dia round tube
 maximum length is 192"

1SQ
1" Dia smooth square tube
maximum length is 288"; use with L125-SQ, L135-SQ brackets, SQRG1 ring. Not available for use with bypass brackets and c-rings.

SHT1
1" Dia square hammered tube
maximum length is 228"; use with L125-SQ, L135-SQ brackets, SQRG1 ring. Not available for use with bypass brackets and c-rings.

RD125
1 1/8" Dia round tube, heavy walled
maximum length is 252"

SRT2
1 1/4" Dia solid rope
maximum length is 228"; use ring with minimum 1 3/4" ID. Not available for use with bypass brackets and c-rings.

RR125
1 1/4" Dia round tube
maximum length is 192"

TRT
1 1/2" Dia twisted tube
maximum length is 216"; use ring with minimum 2" ID. Not available for use with bypass brackets and c-rings.

RD175
1 3/8" Dia round tube, heavy walled
maximum length is 288"

RR175
1 3/4" Dia round tube
maximum length is 192"

NOTE:

- Double pole treatments are also available with mitered returns on the front pole.
- Available in all 50 hand-painted finishes and any custom finish.
- Pole length and return must be specified; please refer to the Retail Price List for required measurements.
- Twisted poles can appear uneven.

custom solutions: bypass brackets and c-rings

CAUTION: Bypass Brackets do not have full cradles. Standard brackets must be installed at each end to secure pole.

A. SCB35

steel custom bypass bracket, single 3 1/2" return, 3/4"W backplate x 2 1/2" or 3"H

B. SCB6

steel custom bypass bracket, single 6" return, 3/4"W backplate x 2 1/2" or 3"H

C. SCBC

steel custom bypass bracket, single custom return, 3/4"W backplate x 2 1/2" or 3"H

D. SCBCDBL

steel custom bypass bracket, double custom return, 3/4"W backplate x 5 1/4"H

Use all bypass brackets with 75RD, RR100, RR125, RD125, RR175 and RD175 poles.

A. CR-SR75

smooth steel c-ring
1 1/4" ID, 1 3/4" OD
3/4" use with 75RD

B. CR-SR3

smooth steel c-ring
1 1/2" ID, 2" OD
1", 1 1/4" use with RR100 or RD125 pole

C. CR-SR7

smooth steel c-ring
2 1/4" ID, 2 3/4" OD
1 1/4" use with RR125

D. CR-SR12

smooth steel c-ring
2 5/8" ID, 3" OD
1 3/4" use with RR175 or RD175 pole

wood pole mitered returns

- We can custom miter wood poles and traverse fascia to cover any corner or bay window.
- Mitered returns create a finished look on wood fascia and allow you to seamlessly cover a specialty window with angles.
- Single and double pole treatments are available with mitered returns.
- Mitered return fees are charged per corner. Please reference the Retail Price List for a list of required measurements and surcharges.

Wood poles sold in 2 foot increments, 2 foot minimum charge.

Ring inner diameter must clear the mitered pole corner, if used. See reference chart in Retail Price List.

miters for wood poles and wood fascias are great for situations like these...

- We can miter our wood poles at any angle for you.

Shown: 90° inside corner miter for 225WG wood pole, WL1 steel brackets, finish 710 Tarnished Silver

90° inside corner

Shown: 90° outside corner miter for 225WS wood pole, WL1 steel brackets, finish 710 Tarnished Silver

90° outside corner

- We cannot miter traverse system tracks, but the traverse wood fascia can connect and miter at the corner.

Shown: 120° mitered bay corner for light duty corded traverse system, 225FL wood fascia, finish 740 Smoky Mocha; bronze track, bracket, and components

mitered bay corner
(angle varies)

custom brackets

The Finial Company is known for quality craftsmanship and can create custom brackets to match your job specifications. We can customize bracket dimensions, returns and finish on any pole for a custom fit on every job.

TBKT
 custom steel t-bracket, single
 please specify:
 A. return (distance from wall to center of cradle)
 B. pole size and profile
 note: 3½"H backplate comes standard, unless otherwise specified

DBL1
 custom steel bracket, double
 please specify:
 A. front pole size and profile
 B. back pole size and profile
 C. rings to be used, if any
 D. front and back returns (distance from wall to center of cradle)
 note: returns are contingent upon which poles and rings are chosen
 3½"H backplate comes standard, unless otherwise specified

BL4
 custom steel ceiling mount bracket
 please specify:
 A. drop (distance from ceiling to top of pole)
 B. pole size and profile
 C. rings to be used, if any
 note: minimum drop is contingent upon which finial and ring are chosen
 2½"W ceiling plate comes standard, unless otherwise specified

FBKT
 custom steel bracket, single
 please specify:
 A. return (distance from wall to center of cradle)
 B. pole size and profile
 note: 4¾"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished, but will be hand painted in your selected Standard Finish (see back cover) or for a custom finish you can send us a finish sample and we'll prepare a strike-off sample for approval (see Retail Price List for custom finish charges).

custom bypass brackets

Our bypass brackets and c-rings allow continuous ring movement along the length of your pole. These work particularly well for long one-way draw treatments, unusually wide windows, and walls featuring multiple windows.

CAUTION: Bypass Brackets do not have full cradles. Standard brackets must be installed at each end to secure pole.

SCB35
 steel bypass bracket, single
 standard 3½" return, ¾"W backplate x 2½" or 3"L

SCB35

SCB6
 steel bypass bracket, single
 6" return, ¾"W backplate x 2½" or 3"L

SCBC
 steel custom bypass bracket, single
 custom return, ¾"W backplate x 2½" or 3"L

please specify:
 A. 75RD (¾") RR100 (1"), RR125 (1¼"), RD125 (1¼"), RR175 (1¾") pole, or RD175 (1¾") pole
 B. return (distance from wall to center of cradle)

SCBCDBL
 steel custom bypass bracket, double
 custom front and back return, ¾"W backplate x 5¼"L

please specify:
 A. 75RD (¾") RR100 (1"), RR125 (1¼"), RD125 (1¼"), RR175 (1¾") pole, or RD175 (1¾") pole

B. front and back returns (distance from wall to center of cradle)

note: return may be restricted by the size of poles and rings specified

SCBCDBL

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm.

custom accessories

custom accessories

Want to further customize your steel products? We can add a variety of decorative items to our steel products for you. *Additional charges apply.*

SL
short leaf
6"L x 1¾"W

This leaf can be welded to the front of any steel bracket with a maximum return of 3½".

When ordering your bracket, please specify addition of SL.

LL
long leaf
11½"L x 1¾"W

This leaf can be welded to the front of any steel bracket with a maximum return of 8".

When ordering your bracket, please specify addition of LL.

SL3
steel leaf
2¼"L x 1¾"W

SL3 welded to SR3 ring

This leaf can be welded to any steel ring or steel bracket.

When ordering your ring or bracket, please specify addition of SL3, and in what position it should be attached.

SL3 welded to SR3 ring

Add any rosette medallion or end cap to the front of any standard or custom steel bracket.

When ordering your bracket, please specify addition of rosette medallion and the following:

1. which rosette medallion or end cap to be added
2. attachment method:
 - a. machine screw (medallion may easily be changed later)
 - b. weld (permanent attachment; only available for steel rosettes or steel end caps)

please note: rosette medallions and brackets sold separately additional charges apply

For additional information on how to order custom brackets, please refer to the Retail Price List.

EC3 welded to front of bracket L135, RR100 pole, SR3 rings, finish 620 Weathered Iron. See pages 89-91 for Rosette options.

swing arms

Swing Arms can be a nice solution for window treatments in front of doors, shutters, and other unique areas where the drapery panel needs to conveniently swing out of the way.

L9328 finial, 350G Statuary Bronze with Gold Shown with scroll.

large swing arm with scroll
maximum length 36"
1"Dia pole RD125
8½"H x 1¼"W backplate
L9328 finial included: 1¼"Dia
350G Statuary Bronze with Gold

please note: Other finials may be substituted. Replacement finial sold separately.

K659 finial, 350G Statuary Bronze with Gold Shown without scroll.

large swing arm without scroll
maximum length 36"
1"Dia pole RD125
8½"H x 1¼"W backplate
L9328 finial included: 1¼"Dia
350G Statuary Bronze with Gold

please note: Other finials may be substituted. Replacement finial sold separately.

EC4 finial, 350G Statuary Bronze with Gold

small swing arm
maximum length 20"
½"Dia pole 50SRB
4"H x ¾"W backplate
EC4 finial included: ¾"L x 1½"W
350G Statuary Bronze with Gold

please note: Other finials may be substituted. Replacement finial sold separately.

For additional information on how to order, please refer to the Retail Price List.

finial adaptors

If the finial you want isn't shown in the diameter you need, order a finial adaptor for a nominal fee. The finial adaptor acts as the new finial base.

Finials are located in certain diameter categories based on the following criteria:

- the finial base fits the pole without additional modification
- finial shape and size is in proportion to the pole diameter

Finial Adaptor Tips:

- It is typically easier and more visually pleasing to adapt a finial to a larger diameter pole, rather than a smaller diameter pole.
- Many finials are located in multiple size categories because they look appropriate for several pole sizes; you may not need an adaptor.

base adaptor size	use for pole diameters
 FA-S: 1 3/8" Dia	1/2", 3/4", 1", 1 1/4"
 FA-M: 2" Dia	1 1/2" - 1 3/4"
 FA-L: 3" Dia	2" - 2 1/4"
 FC1: 2 3/8" Dia	1 1/2" - 1 3/4", 2" - 2 1/4"

arched window solutions

custom
arches

- Available for 1/2" 50SRB, 3/4" 75RD and 75HSRB, 1" SRT1, 1 1/4" RD125, and SRT2 poles only.
- Some poles will need to be cut at apex (center) for shipping; some arches cannot be achieved.
- Arched poles with splices are subject to additional bending fees.

IMPORTANT: A template is required to ensure accuracy of production. For information on how to create your template, please refer to the Retail Price List.

standard arch

arch height is equal or greater than half the arch width

eyebrow arch

arch height is less than half the arch width

shown: SR3 rings welded onto 1 1/4" RR125 pole
ARBE and L135 brackets
finish 810 Bronzed Ore

ARBC arched rod center bracket

Please specify return (distance from wall to center of cradle)

note: cannot be used for installations with rings (brackets without eyelet cradles may be substituted)

ARBE arched rod end brackets

Sold in pairs only
Please specify return (distance from wall to center of cradle) and pole being used.
Cups are custom made to style of pole.

note: outer ring can only reach 1 1/2" from end of pole due to the bracket cup

do you need a vertical or horizontal arch?

Vertical Arch Installation
great for arched windows

Horizontal Arch Installation
great for curved bay windows

please note: If using rings for vertical arch installation, rings must be welded into place. Ring position must be noted on your template. Outermost rings must be a minimum of 1 1/2" from end of pole due to ARBE bracket cup. Rings sold separately.

Any steel bracket or finial may be used for this type of arch.

For additional information on how to order, please refer to the Retail Price List.

www.thefinialcompany.com

custom finishes

Beyond our standard finishes, our artisans can match any finish, fabric swatch, wood trim or paint color specified from your favorite paint supplier allowing you to create complementary custom finishes in subtle or bold and vivid color palettes. The Finial Company can provide a strike-off sample on any wood or steel pole profile, upon request. Please reference the Retail Price List for required specifications and surcharges.

polished steel finish

Many, but not all, of our raw steel products can be polished and given a clear topcoat to achieve a finished look. Steel is not uniform in color tone and will vary in shades of gray and silver. Polishing raw steel parts requires considerably more preparation work than our other finishes and therefore incurs additional charges. Steel items that cannot be polished are listed in The Finial Company Retail Price List.

adding clear topcoat

For an additional charge, we can add a clear topcoat to any finish to achieve your preferred sheen level.

matte

satin

high gloss

painting fees

We will repaint hardware from The Finial Company or another manufacturer at the customer's request. We will also paint unfinished hardware from any manufacturer.

touch-up paint

Touch-up paint can be sent to the customer on request, for an additional charge.

Please refer to the Retail Price List for more details and a list of applicable charges.

A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns (distance from wall to center of cradle)
note: returns are contingent upon which poles and rings are chosen
3 1/2"H backplate comes standard, unless otherwise specified

BL4
custom steel ceiling mount bracket
please specify:
A. drop (distance from ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent upon which finial and ring are chosen.
2 1/2"W backplate comes standard, unless otherwise specified

FBKT
custom steel bracket, single
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 4 3/4"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished, but will be hand painted in your selected Standard Finish (see back cover) or for a custom finish you can send us a finish sample and we'll prepare a strike-off sample for approval (see Retail Price List for custom finish charges).

custom solutions: brackets

The Finial Company is known for quality craftsmanship and can create custom brackets to match your job specifications. We can customize bracket dimensions, returns and finish on any pole for a custom fit on every job. For more custom solutions products see our custom brackets section on page 56.

TBKT
custom steel t-bracket, single
please specify:
A. return (distance from wall
to center of cradle)
B. pole size and profile
note: 3 1/2"H backplate comes
standard, unless otherwise
specified

DBL1
custom steel bracket, double
please specify:
A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns
(distance from wall to
center of cradle)
note: returns are contingent upon
which poles and rings are chosen
3 1/2"H backplate comes
standard, unless otherwise
specified

BL4
custom steel ceiling mount
bracket
please specify:
A. drop (distance from
ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent
upon which finial and ring are
chosen.
2 1/2"W backplate comes
standard, unless otherwise
specified

FBKT
custom steel bracket, single
please specify:
A. return (distance from wall
to center of cradle)
B. pole size and profile
note: 4 3/4"H backplate may not
be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished, but will be hand painted in your selected Standard Finish (see back cover) or for a custom finish you can send us a finish sample and we'll prepare a strike-off sample for approval (see Retail Price List for custom finish charges).

custom solutions: brackets

The Finial Company is known for quality craftsmanship and can create custom brackets to match your job specifications. We can customize bracket dimensions, returns and finish on any pole for a custom fit on every job. For more custom solutions products see our custom brackets section on page 56.

TBKT
custom steel t-bracket, single
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 3½"H backplate comes standard, unless otherwise specified

DBL1
custom steel bracket, double
please specify:
A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns (distance from wall to center of cradle)
note: returns are contingent upon which poles and rings are chosen
3½"H backplate comes standard, unless otherwise specified

BL4
custom steel ceiling mount bracket
please specify:
A. drop (distance from ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent upon which finial and ring are chosen.
2½"W backplate comes standard, unless otherwise specified

FBKT
custom steel bracket, single
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 4¾"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished, but will be hand painted in your selected Standard Finish (back cover) or for a custom finish you can send us a finish sample and we'll prepare a strike-off sample for approval (see Retail Price List for custom finish charges).

rosettes

Design is in the details, and The Finial Company offers a wide range of rosettes that can be used to customize the design and functionality of your window treatment. Rosettes can be used as a decorative detail to hold back draperies, added to the front of any standard or custom steel bracket to accentuate the design of your pole or added to a custom tieback arm as the perfect complement to your window design.

pinch pleat master carriers

- stainless steel overlap arms
- multi-wheel design for smooth movement
- corded or baton draw
- left and right
- available in white

Ripplefold overlap master carriers

- stainless steel overlap arms with snaps to accept Ripplefold tape
- multi-wheel design for smooth movement
- overlap master carriers come standard unless otherwise specified
- corded or baton draw
- left and right
- available in white

Ripplefold butt master carriers

- snaps to accept Ripplefold tape
- multi-wheel design for smooth movement
- butt master carriers do not overlap, allowing some light to filter between draperies on center draw treatments
- butt master carriers must be specified for substitution
- corded or baton draw
- left and right
- available in white

heavy duty ball bearing pinch pleat glide

- ball bearing wheel for smooth movement
- available in white

Ripplefold glide

- Ripplefold glides with detachable pendants
- 60%, 80%, 100% and 120% fullness available *please specify fullness on order*
- available in white

motorized traverse systems

- Recommended for windows where optimal function and light control are desired
- Available in all profiles for 1 $\frac{7}{8}$ ", 2", 2 $\frac{1}{4}$ " and 3" diameters or without a wood fascia
- Available with BTX and Somfy motors
- Finials or mitered returns purchased separately
- Pinch Pleat or Ripplefold roller carriers in 80%, 100% and 120% fullness
- Center or one-way draw
- Track, brackets and glides in white, bronze or antique gold
- Curved track options available on tracks without fascia
- Continuous track available up to 20' with spliced lengths up to 40'
- Continuous fascia available up to 16'; blended fascia can be used to achieve longer lengths

Somfy® motorized traverse

RIPPLEFOLD OR PINCH PLEAT.

INCLUDED IN SYSTEM: SOMFY® MOTORIZED TRAVERSE TRACK WITH MOTOR AND REMOTE

Somfy motorized track

- track sold in 1 foot increments, 6' minimum
- maximum continuous length is 20'; spliced lengths up to 36'
- includes one motor, standard remote control 5-channel transmitter per track, and fascia with fascia clips when applicable
- available in antique gold, bronze or white; track finish will complement fascia finish
- end drive gears in white only
- may be ordered with or without fascia
- curved tracks available with minimum 11.8" radius; curving fees apply

Somfy Glydea® standard remote control transmitter

(multi-channel hand held remote)

- 5¼"H x 1⅝"W
- 1 remote control per track
- 5 channels
- programmable My Position to set your favorite drapery position
- white

Somfy Glydea® 35e motor

- light duty motor; 1 per track
- maximum drapery weight for light duty motor: 77 lbs
- maximum length for light duty motor: 32'
- 110V Power Supply cord with plug: 120" cord length
- motor can be mounted on left or right for center draw, or top mounted
- return hooks/snaps included; white
- brushed aluminum finish
- 5 year warranty on motor

Somfy Glydea® 60e motor

- heavy duty motor, 1 per track
- maximum drapery weight for heavy duty motor: 132 lbs
- maximum length for heavy duty motor: 36'
- 110V Power Supply cord with plug: 120" cord length
- motor can be mounted on left or right for center draw, or top mounted
- return hooks/snaps included; white
- brushed aluminum finish
- 5 year warranty on motor

HDTB35-S

steel traverse bracket, single adjustable 3½" - 4½" return 2¾"H x 1½"W backplate

HDTB10-S NEW

steel custom bracket, single or double 4½"H x 1½"W backplate *specify return up to 10"*.

HDTB-S

steel traverse bracket, double, can be used for single 6" return adjustable 5½"-6¼" front return adjustable 2½"-3½" back return 3⅝"H x 1½"W backplate

CMBC-S

Somfy single ceiling mount bracket

- ½"H x 2"Deep x 1"W
- available in white
- may only be used in systems without fascia
- single bracket; may be substituted in single or double systems

Somfy fascia clip

• use to attach fascia to traverse systems; included

CMTB-S

steel custom ceiling bracket, single 2¾"H x 1½"W backplate

specify drop: contingent upon which fascia or finials are chosen

for double ceiling mount installation, install two individual brackets into ceiling

TBKT214-S

• 3½"H x ¾"W backplate, 7⅞" front return and 3" back track return*

- use to combine 2" or 2¼" full wood pole with single traverse systems
- includes traverse ceiling mount bracket attached onto the bottom of the over-bracket

poles sold separately

TBKT300-S

• 3½"H x ¾"W backplate, 8¾" front return and 3" back track return*

- use to combine 3" full wood pole with single traverse systems
- includes traverse ceiling mount bracket attached onto the bottom of the over-bracket

poles sold separately

*for custom returns, see page 56

for double ceiling mount installation, install two individual brackets into ceiling

Somfy pinch pleat or Ripplefold master carrier for center or one-way draw

- for use with one-way or center draw
- pinch pleat or Ripplefold
- stainless steel

Somfy Ripplefold butt master carrier for one-way draw

- for use with one-way opening draperies
- Ripplefold only
- stainless steel

Somfy Ripplefold butt master carrier for center draw

- stainless steel arms with snaps to accept Ripplefold tape
- for use with center opening draperies
- butt master carriers do not overlap, allowing some light to filter between draperies on center draw treatments

Somfy standard pinch pleat glide

- ball bearing wheel for smooth movement
- included in system; additional glides may be ordered separately
- available in white

Somfy Ripplefold glide

- snap accepts Ripplefold tape and swivels to create fold
- 80%, 100% and 120% fullness available *specify fullness on order*
- available in white

 right

Direction:

center draw one-way left one-way right

Based on your specified finish we supply track and brackets that best match the finish on your fascia. Please refer to the Finish Reference Guide to the right. If you order a custom match finish, please specify your track color.

Components are included in the per foot track price, as listed in the Retail Price List. Components will match the track color when applicable.

Standard carriers are 4 per foot. Standard brackets are 2 end brackets with 1 support bracket for every 3-4 feet of track.

Wood pole profiles available in 1 7/8", 2", 2 1/4" and 3" diameters can be used as fascia.

Spliced fascia will be cut at a 45° angle for an obscure splice upon request.

Spliced fascia can be blended for an additional fee (see Retail Price List). Blended fascia will be properly connected and shipped in one continuous length.

how to measure

1. Measure the window width from outside the casing edges. We recommend at least 2" to 4" per side for bracket placement, or finding wall studs on each side of the window in which to drill. Installing the brackets into wall studs is the safest and most secure installation method. Refer to window illustration below.
2. If a window is in the corner, make sure there is enough room to accommodate the finial.
3. The height of the bracket position is determined by the finished drapery length and style. If the treatment is designed to be used with rings, be sure there is proper allowance for the drop of the ring. Refer to the ring illustration below.

Before you can choose which bracket, ring, and pole diameter to order, you must determine how much room you will have above and to the sides of your window. Some brackets have tall backplates that may either look too large or may not fit into tight spaces.

Things to consider:

1. Does the bracket backplate fit between the top of your window and the ceiling?
2. At what height do you need the pole to be positioned? Will this bracket accommodate your window installation design?
3. If you plan to use rings, what height does the top of your drapery panel need to reach? Will your choice of bracket, ring, and pole diameter accommodate your window treatment design?

The ring drop determines the height at which the top of the drapery panel will be installed, if using rings. If not using rings, the pole should be installed at a height suitable for a drapery rod pocket or other type of drapery treatment.

We recommend using a professional installer to measure and install your drapery hardware treatments whenever possible.

How to measure:

terms & conditions

PRICING AND TERMS

Prices found in The Finial Company Retail Price List are our suggested retail prices. Prices are subject to change without notice. Prices are quoted exclusive of freight and packaging. The buyer should always inspect the product upon receipt.

IMPORTANT: Please note that your order will be placed with an authorized Finial Company Distributor. While most of the following will generally apply, your distributor may have terms and conditions of sales that will vary from what is stated here.

Estimated Lead Times: Purchase orders are processed once they are received by The Finial Company. Incomplete information will delay processing and shipping. The Modern Metal and Metal Collection will ship within 48 hours of the order confirmation. Painted product (including painted products from the Metal Collection), custom products and traverse systems will ship within 10-15 business days of the order confirmation.

Rush Orders: Rush orders are available. An additional 30% charge applies to product and all fees excluding freight and packaging. Rush orders will ship within 5 business days. The 30% rush charge is available for all product except arch rods, bay windows, custom brackets, and mitered returns. If an order is received after 12:00 C.S.T., the next business day will count as the first day of production.

IMPORTANT: Please note that rush orders are not always available due to the nature of scheduling in a strictly custom manufacturing environment. Processing time for a rush order is in business days, (excluding holidays) not calendar days.

Shipping (NET Fees): Poles or tracks over 96" must be shipped by common carrier. For current common carrier freight rates go to www.thefinialcompany.com/freightrate. Expedited shipments are not available in all areas. Any additional charges for expedited shipments will be in addition to the published net fees.

The following orders will be subject to actual freight costs:

- shipments going to Alaska, Hawaii, Idaho, Montana, Puerto Rico or any international destination.
- orders with poles or tracks exceeding 96" in length
- orders that exceed a \$2,500 SRP

Packaging Fees (NET Fees): A net packaging fee of \$10.00 per order will apply to any order that has a pole. A net packaging fee of \$10.00 will apply to any order with a traverse rod less than 16 feet. The net packaging fee increases to \$25.00 for all orders with arched rods; bay windows; rods with returns; motorized traverse track; or poles, rods and corded traversing track 16 feet or longer.

RETURNS, CHANGES & CANCELLATIONS

All orders are considered "custom". No changes or cancellations will be accepted later than 24 hours after order is confirmed. All returns must be authorized by The Finial Company customer service department, and are authorized at our discretion, given the circumstances and nature of each custom order.

DAMAGED GOODS

Immediately upon receipt, your order should be inspected to ensure that there is no concealed damage from shipping. Claims on damaged merchandise must be made within 15 days of receipt. No claims after 15 days will be accepted. If your order is damaged in shipping, carriers require that all packing materials be kept in order for a representative to inspect the goods. Our policy is that we replace damaged product per the original order.

Please note on the bill of lading if there is any possibility of concealed damaged. If shipping through a 3rd party, distributor is responsible for claiming damages and the remakes will be at charge.

PRODUCT INFORMATION

Wood Poles: Wood poles are sold in 2 foot increments, 2 foot minimum. We will cut your pole to specification, but we do not save or ship the fall off.

Steel Poles: All steel poles are sold in 1 foot increments, 2 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Metal & Acrylic Poles: All metal and acrylic poles are sold in 2 foot increments, 2 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Corded or Baton Draw Traverse Tracks: Corded or baton draw traverse tracks are sold in 2 foot increments with a 4 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Motorized Traverse Tracks: Motorized traverse tracks are sold in 1 foot increments with a 6 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

Support Brackets: We recommend support brackets every 3-4 feet.

Installation: Mollie bolts and nail anchors are recommended for all installations, but are not included. We strongly recommend using a professional installer for our hardware.

Force Majeure: The Finial Company is not liable for any performance failure that arises from any cause not within its control.
