High quality, hand finished finials and every one is custom.

In this catalog, we've focused on you, our customer. We've made it easy for you to find exactly what you're looking for. The Finial Company has always aimed to provide you with a myriad of choices, and now our extensive line of drapery hardware has been categorized by diameter.

As we set about reorganizing this catalog, we added new items in nearly every diameter. We honed our finial choices to include only the finest selections while broadening the mix with exciting new traditional and transitional designs in several categories.

Beyond our vast selection of standard drapery hardware, we offer our Special Collections. Here, you'll find solutions for niche markets. The Outdoor Hardware Collection is guaranteed to withstand nature's elements; The Modern Collection lends itself to sleek contemporary settings; and our newest offering, Essential Sets, is an exclusive selection of complete drapery hardware sets, created with your convenience and cost savings in mind.

Yes, we are known for our broad range of products, but did you also know we offer state-of-the-art technology? Our 2", 2¼" and 3" Wood and Resin Collections can be outfitted with motorized traverse systems, controlled by a hand-held remote, wireless wall switch or central home automation system.

Other drapery hardware companies can make similar claims. What makes us different? Flexibility. Don't see what you need in our catalog? Call us.

You will never be limited by our finish selections – we will custom match any color, any tone, any highlight.

You will never be held back by our design offering – we strive to provide you with the widest range of finial styles, including traditional, transitional and modern designs.

You will never be hindered by an unusual window shape, difficult floor plan, or constricted space – we will customize our products to fit your every need.

We offer you this multitude of choices so that we can make your design visions a reality. All with the outstanding quality and exceptional service you've come to expect from The Finial Company.

Customization has always been our custom. Let us prove it to you.

THE FINIAL COMPANY

...our name says it all

how to measure

1. Measure the window width from outside the casing edges. We recommend at least 2" to 4" per side for bracket placement, or finding wall studs on each side of the window in which to drill. Installing the brackets into wall studs is the safest and most secure installation method. Refer to window illustration below.
2. If a window is in the corner, make sure there is enough room to accommodate the finial.
3. The height of the bracket position is determined by the finished drapery length and style. If the treatment is designed to be used with rings, be sure there is proper allowance for the drop of the ring. Refer to the ring illustration below.

Before you can choose which bracket, ring, and pole diameter to order, you must determine how much room you will have above and to the sides of your window. Some brackets have tall backplates that may either look too large or may not fit into tight spaces.

Things to consider:

1. Does the bracket backplate fit between the top of your window and the ceiling?
2. At what height do you need the pole to be positioned? Will this bracket accommodate your window installation design?
3. If you plan to use rings, what height does the top of your drapery panel need to reach? Will your choice of bracket, ring, and pole diameter accommodate your window treatment design?

The ring drop determines the height at which the top of the drapery panel will be installed, if using rings. If not using rings, the pole should be installed at a height suitable for a drapery rod pocket or other type of drapery treatment.

We recommend using a professional installer to measure and install your drapery hardware treatments whenever possible.

custom solutions

The Finial Company is known for flexibility. Custom Solutions are our specialty. Whether you need a custom bracket, special miter, or custom match finish, let us create one-of-a-kind drapery hardware to fit your special window.

custom steel brackets

If you have a special need, we can create the following brackets to your specifications.

TBKT
custom steel t-bracket
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 3½"H backplate comes standard, unless otherwise specified

DBL1
custom steel double bracket
please specify:
A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns (distance from wall to center of cradle)
note: returns are contingent upon which poles and rings are chosen
3½"H backplate comes standard, unless otherwise specified

BL4
custom steel ceiling mount bracket
please specify:
A. drop (distance from ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent upon which finial and ring are chosen.
2½"W ceiling plate comes standard, unless otherwise specified

FBKT
custom steel single bracket
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 4¾"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished.

Want to further customize your steel products? We can add a variety of decorative items to our steel products for you. *Additional charges apply.*

SL
short leaf
6"L x 1¾"W
This leaf can be welded to the front of any steel bracket with a maximum return of 3½".
When ordering your bracket, please specify addition of SL.

LL
long leaf
11½"L x 1¾"W
This leaf can be welded to the front of any steel bracket with a maximum return of 8".
When ordering your bracket, please specify addition of LL.

SL3
steel leaf
2¼"L x 1¾"W
SL3 welded to SR3 ring
This leaf can be welded to any steel ring or steel bracket.
When ordering your ring or bracket, please specify addition of SL3, and in what position it should be attached.

SL3 welded to SR3 ring

Add any rosette medallion or end cap to the front of any standard or custom steel bracket.

When ordering your bracket, please specify addition of rosette medallion and the following:

1. which rosette medallion or end cap to be added
2. attachment method:
 - a. machine screw (medallion may easily be changed later)
 - b. weld (permanent attachment; only available for steel rosettes or steel end caps)

please note: rosette medallions and brackets sold separately
additional charges apply

EC1 welded to front of bracket L135, RR100 pole, SR3 rings, finish 620 Weathered Iron

For additional information on how to order custom brackets, please refer to the Retail Price List.

bypass brackets

Our bypass brackets and C-rings allow continuous ring movement along the length of your pole. These work particularly well for long one-way draw treatments, unusually wide windows, and walls featuring multiple windows.

Please note: to be used in conjunction with cradle brackets; not for use with curved poles.

SCB35
single bypass bracket
standard 3½" return

SCB6
single bypass bracket—
standard 6" return

SCBC **NEW**
single bypass bracket—
custom return

please specify:
A. RR100 (1"),
RR125 (1¼"), or
RR175 (1¾") pole

B. return (distance from wall
to center of cradle)

note: return may be
restricted by the size of
poles and rings specified

SCB35

SCBCDBL **NEW**
double bypass bracket
custom front and back
return

please specify:
A. RR100 (1"),
RR125 (1¼"), or
RR175 (1¾") pole

B. front and back returns
(distance from wall
to center of cradle)

note: return may be
restricted by the size of
poles and rings specified

SCBCDBL

CRSR3
C-ring
1½"ID x 2"OD
use with RR100 pole

CRSR7
C-ring
2¼"ID x 2¾"OD
use with RR125 pole

CRSR12
C-ring
2½"ID x 3"OD
use with RR175 pole

Return in excess of 8" on any custom bypass bracket will incur additional fees and requires addition of support arm.
Custom bypass brackets are shown 680 Aged Gold. For additional information on how to order, please refer to the Retail Price List.

swing arms

Swing Arms can be a nice solution for window treatments in front of doors, shutters, and other unique areas where the drapery panel needs to conveniently swing out of the way.

large swing arm
maximum length 36"
1" Dia pole RD125
8½"H x 1¼"W backplate
L9328 finial: 1¾" Dia, included
350G Statuary Bronze with Gold

please note: Available with scroll
(as shown) or without; must specify.
Other finials may be substituted.
Replacement finial sold separately.

small swing arm
maximum length 20"
½" Dia pole 50SRB
4"H x ⅝"W backplate
EC4 finial: ¾"L x 1½"W, included
350G Statuary Bronze with Gold

please note: Other finials may be
substituted. Replacement finial sold
separately.

For additional information on how to order, please refer to the Retail Price List.

finial adaptors

If the finial you want isn't shown in the diameter you need, ask us to add a finial adaptor, for a nominal fee. The finial adaptor acts as the new finial base.

Finials are located in certain diameter categories based on the following criteria:

- the finial base fits the pole without additional modification
- finial shape and size is in proportion to the pole diameter

Finial Adaptor Tips:

- It is typically easier and more visually pleasing to adapt a finial to a larger diameter pole, rather than a smaller diameter pole.
- Many finials are located in multiple size categories because they look appropriate for several pole sizes; you may not need an adaptor.

	base adaptor size	use for pole diameters
	small: 1 3/8" Dia	1/2", 3/4", 1", 1 1/4"
	medium: 2" Dia	1 1/2" - 1 3/4"
	large: 3" Dia	2" - 2 1/4"
	FC1: 2 1/2" Dia	1 1/2" - 1 3/4", 2" - 2 1/4"

custom tiebacks

TBA
6" L x 4 1/2" projection
100 Polished Steel*
attach finial or rosette of choice to face or tip of TBA.
pictured with L651 finial
finial sold separately

STBA1
8" L x 6 1/2" projection
610 Cobalt Bronze
attach finial or rosette of choice
pictured with R73 rosette
rosette sold separately

**please note: there is an upcharge for this custom finish; please refer to price list for details.*

custom pole returns

- Bent and mitered return fees are charged per corner; returns over 6" incur additional charges.
- Double pole treatments are also available with bent or mitered returns on the front pole. Please call us for more details.

steel pole bent returns

3/4" 75HSRB with 90° Bent Returns, finish 107 Bronze with Gold and Gray

Available for 1/2" 5OSRB, 3/4" 75RD and 75HSRB poles only.
 Backplate: 1 3/8" Dia (for 5OSRB) or 2" Dia (for 75RD and 75HSRB)
*Pole length and return must be specified; please refer to Retail Price List for list of required measurements.
 Sold in one foot increments, 2 foot minimum charge.*

steel pole mitered returns

1 1/4" SRT2 with Mitered Returns, finish 250 Platinum

Available for any steel pole, except 1 1/4" TWCH125 and 1 3/4" TWCH
 Backplate: 3"H x 1 1/2"W or 3 1/2"H x 2"W, depending on pole diameter
*Pole length and return must be specified; please refer to Retail Price List for list of required measurements.
 Sold in one foot increments, 2 foot minimum charge.
 Ring inner diameter must clear the mitered pole corner, if used. See chart in Retail Price List.*

wood pole mitered returns

2 1/4" 225FL with Mitered Returns, finish 650 Hickory

Available for any wood pole, except 1 3/8" 138TW, 2" 2TR, 2 1/4" 225TR, and 3" 3TR.
*Pole length and return must be specified; please refer to Retail Price List for list of required measurements.
 Sold in 2 foot increments, 2 foot minimum charge.
 Ring inner diameter must clear the mitered pole corner, if used. See chart in Retail Price List.*

please note: Your choice of bracket supports the main length of pole, while the mitered return is joined to the pole via wood glue and nails. Rings and/or draperies should not be installed on the mitered return. Return butts against the wall, and is not attached to the wall. Weight should not be placed on the wood mitered return.

bay window and corner window solutions

We can miter
wood poles,
steel poles,
and traverse
fascia to fit
any corner...

miters for wood poles

- We can miter our wood poles at any angle for you.

Shown: 90° inside corner miter for 225WG wood pole, WL1 steel brackets, finish 710 Tarnished Silver

Shown: 90° outside corner miter for 225WS wood pole, WL1 steel brackets, finish 710 Tarnished Silver

miters and soft bends are great for situations like these....

miters for traverse wood fascia

- We cannot miter traverse system tracks, but the traverse wood fascia can connect and miter at the corner.

Shown: 120° mitered bay corner for standard corded traverse system, 225FL wood fascia, finish 740 Smoky Mocha; bronze track, bracket, and components

miters and soft bends for steel poles

- Miters are available for all steel poles, except for 1¼" TWCH125 and 1¾" TWCH.
- Soft bends at a 90° angle or larger are only available for ½" 50SRB, ¾" 75RD and 75HSRB poles.

Shown: 120° soft bend bay corner for 75HSRB steel pole, L135 steel brackets, finish 730 Rose Gold

arched window solutions

- Available for 1/2" 50SRB, 3/4" 75RD and 75HSRB, 1" SRT1, 1 1/4" RD125, SRT2, TWCH125, and 1 1/2" TRT steel poles only.
- Some poles will need to be cut at apex (center) for shipping; some arches cannot be achieved.
- Arched poles with splices are subject to additional bending fees.

IMPORTANT: A template is required to ensure accuracy of production. For information on how to create your template, please refer to the Retail Price List.

standard arch

arch height is equal or greater than half the arch width

eyebrow arch

arch height is less than half the arch width

shown: SR3 rings welded onto 1 1/4" TWCH125 pole
ARBE and L135 brackets
finish 350G Statuary Bronze with Gold

ARBC

arched rod center bracket

Please specify return (distance from wall to center of cradle)

note: cannot be used for installations with rings (brackets without eyelet cradles may be substituted)

ARBE

arched rod end brackets

Sold in pairs only

Please specify return (distance from wall to center of cradle) and pole being used. Cups are custom made to style of pole.

note: outer ring can only reach 1 1/2" from end of pole due to the bracket cup

do you need a vertical or horizontal arch?

Vertical Arch Installation
great for arched windows

Horizontal Arch Installation
great for curved bay windows

please note: If using rings for vertical arch installation, rings must be welded into place. Ring position must be noted on your template. Outermost rings must be 1 1/2" minimum from end of pole due to ARBE bracket cup. Rings sold separately.

Any steel bracket or finial may be used for this type of arch.

For additional information on how to order, please refer to the Retail Price List.

custom solutions

Do you need a custom return on your steel bracket? Or perhaps you'd like to add a rosette to the front of your bracket... we can do that for you!

For more ideas on how to customize your steel brackets, turn to page 6 in Custom Solutions.

Did you know we can add a soft bend to your 3/4" solid 75RD and 75HSRB poles? This is a great solution for bay windows.

To find out more about bends and miters for all poles, turn to page 10 in Custom Solutions.

Do you wish your 3/4" finial could fit a larger pole diameter? It can with the addition of a finial adaptor.

See page 8 for more details.

2½"W x 1 ½"H backplate, 2 ⅝" return

CSL135
steel bracket, single
2½"W x 1 ½"H backplate, 3 ⅝" return

CSL16
steel bracket, single
2½"W x 1 ½"H backplate, 6" return

Return distance is from wall to center of cradle. All standard brackets are shown in 680 Aged Gold.

custom

The Finial Company is known for flexibility, especially in custom metal work. For more custom product options, see our **Custom Solutions** section beginning on page 5.

TBKT
custom steel t-bracket
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 3½"H backplate comes standard, unless otherwise specified

DBL1
custom steel double bracket
please specify:
A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns (distance from wall to center of cradle)
note: returns are contingent upon which poles and rings are chosen
3½"H backplate comes standard, unless otherwise specified

BL4
custom steel ceiling mount bracket
please specify:
A. drop (distance from ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent upon which finial and ring are chosen.
2½"W backplate comes standard, unless otherwise specified

FBKT
custom steel single bracket
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 4¾"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished.

3 1/2" backplate, 3 7/8"-5 1/8" return

A17535
steel bracket, single
2 1/2" backplate, 3 1/2" return

B17535
steel bracket, single
3 5/8" backplate, 3 1/2" return

EB5
steel eyelet bracket, single
3 1/2" backplate, 3 1/2" return,
eyelet 1 7/8" ID

CS17535
steel bracket, single
2 1/2"W x 1 1/2"H backplate, 3 1/2" return

IM175
inside mount steel bracket
for poles 1 3/8" to 1 3/4" Dia
1 1/2"H x 3/4" Deep, 2 1/4"W

EB6
steel eyelet bracket, single
3 1/2" backplate, 6" return,
eyelet 1 7/8" ID

CS1756
steel bracket, single
2 1/2"W x 1 1/2"H backplate, 6" return

Return distance is from wall to center of cradle. All standard brackets are shown in 680 Aged Gold.

custom

The Finial Company is known for flexibility, especially in custom metal work. For more custom product options, see our **Custom Solutions** section beginning on page 5.

TBKT
custom steel t-bracket
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 3 1/2"H backplate comes standard, unless otherwise specified

DBL1
custom steel double bracket
please specify:
A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns (distance from wall to center of cradle)
note: returns are contingent upon which poles and rings are chosen
3 1/2"H backplate comes standard, unless otherwise specified

BL4
custom steel ceiling mount bracket
please specify:
A. drop (distance from ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent upon which finial and ring are chosen.
2 1/2"W backplate comes standard, unless otherwise specified

SCB35
single steel bypass bracket
3 1/2" return

SCBCDBL
double steel bypass bracket
6" front return, 3" back return

FBKT
custom steel single bracket
please specify:
1. return (distance from wall to center of cradle)
2. pole size and profile
note: 4 3/4"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished.

use with:
CRSR12
steel C-ring
2 1/2" ID x 3" OD
use with pole RR175

for more bypass bracket information, see page 7

custom finishing

Dreaming of drapery hardware in the exact shade of lavender in your wallpaper? Let us help you.

Customization has been our custom since we began...

Beyond our standard finishes, we can match any finish on request. Just provide us with a finish sample or a paint color, manufacturer, and sheen level.

We will then provide you with a strike-off sample on your choice of any wood or steel pole profile. Your approval of the strike-off sample is required before production will begin.

6" return

Return distance is from wall to center of cradle. All standard steel brackets are shown in 680 Aged Gold.

custom

The Finial Company is known for flexibility, especially in custom metal work. For more custom product options, see our **Custom Solutions** section beginning on page 5.

TBKT
custom steel t-bracket
please specify:
A. return (distance from
wall to center of cradle)
B. pole size and profile
note: 3¹/₂" H backplate
comes standard, unless
otherwise specified

DBL1
custom steel double bracket
please specify:
A. front pole size and profile
B. back pole size and profile
C. rings to be used, if any
D. front and back returns
(distance from wall to
center of cradle)
note: returns are contingent
upon which poles and rings
are chosen
3¹/₂" H backplate comes
standard, unless otherwise
specified

BL4
custom steel ceiling mount
bracket
please specify:
A. drop (distance from
ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is
contingent upon which finial
and ring are chosen.
2¹/₂" W backplate comes
standard, unless otherwise
specified

FBKT
custom steel single bracket
please specify:
A. return (distance from wall
to center of cradle)
B. pole size and profile
note: 4³/₄" H backplate may
not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished.

LFB3
resin bracket, single
4⁵/₁₆" backplate, 3¹/₂" return

DB76
resin bracket, single
8⁵/₁₆" backplate, 3³/₄" return

DB78

LFB4
resin bracket, single
4⁵/₁₆" backplate, 6" return

DB92
resin bracket, single
8⁵/₁₆" backplate, 6" return

Return distance is from wall to center of cradle. All standard resin brackets are shown in 107 Bronze with Gold and Gray

Looking for a wood or resin rosette to complete your look?
Turn to page 64 to see all rosette and tieback choices.

wood pole connections and splices

Here are three ways we connect wood poles and fascia.
Which way works for you?

pole connector screw
(for poles)

Join two poles with a connector screw. Ask for one with your order.

Positioning a support bracket at this connection is important. It helps conceal the splice while offering additional support to this fragile area.

standard 45° splice
(for poles and fascia)

We cut every fascia splice with a 45° angle. This breaks up the visual line of the connection, obscuring the splice better than a straight cut.

Pole or fascia will be spliced at center of total length.

Wood glue is not included and must be supplied by the installer.

blended splice
(for poles and fascia)

For an additional fee per splice we can properly connect your splice(s) and ship your wood pole or fascia in one continuous length.

We call it "blended" because we also fill in and paint the connection for a seamless look.

rings

custom wood stains

Wishing your drapery hardware could have the same wood tone as the dining room table? Let us help you.

A wood stain may be specified for any of our wood products. Just provide us with a finish sample or a stain color, manufacturer, and sheen level.

We will then provide you with a strike-off sample on your choice of any wood pole profile. Your approval of the strike-off sample is required before production will begin.

Because our wood products are made from a variety of wood species, staining evenly from piece to piece can sometimes be tricky. Our expert finishing team can also replicate wood tones with paint. No matter how it's achieved, we can create your ultimate wood tone.

D. front and back returns (distance from wall to center of cradle)
note: returns are contingent upon which poles and rings are chosen
3½"H backplate comes standard, unless otherwise specified

BL4
custom steel ceiling mount bracket
please specify:
A. drop (distance from ceiling to top of pole)
B. pole size and profile
C. rings to be used, if any
note: minimum drop is contingent upon which finial and ring are chosen.
2½"W backplate comes standard, unless otherwise specified

FBKT
custom steel single bracket
please specify:
A. return (distance from wall to center of cradle)
B. pole size and profile
note: 4¾"H backplate may not be modified

Return or drop distance in excess of 8" on any custom bracket will incur additional fees and requires addition of support arm. Custom brackets are shown unfinished.

3LFB1
resin bracket, single
4 $\frac{7}{8}$ " backplate, 4 $\frac{1}{2}$ " return

3LFB2
resin bracket, single
5 $\frac{1}{4}$ " backplate, 5 $\frac{3}{4}$ " return

DB77
resin bracket, single
9 $\frac{3}{8}$ " backplate, 3 $\frac{3}{4}$ " return

DB79
resin bracket, single
3 $\frac{3}{4}$ " backplate, 4 $\frac{1}{4}$ " return

3FRB
resin bracket, single
12 $\frac{7}{8}$ " backplate, 4 $\frac{1}{2}$ " return

DB93
resin bracket, single
8 $\frac{3}{8}$ " backplate, 4 $\frac{1}{2}$ " return

DB94
resin bracket, single
8 $\frac{3}{8}$ " backplate, 6" return

Return distance is from wall to center of cradle. All standard resin brackets are shown in 107 Bronze with Gold and Gray

wood pole connections and splices

Here are three ways we connect wood poles and fascia.

Which way works for you?

pole connector screw (for poles)

Join two poles with a connector screw. Ask for one with your order.

Positioning a support bracket at this connection is important. It helps conceal the splice while offering additional support to this fragile area.

standard 45° splice (for poles and fascia)

We cut every fascia splice with a 45° angle. This breaks up the visual line of the connection, obscuring the splice better than a straight cut.

Pole or fascia will be spliced at center of total length.

Wood glue is not included and must be supplied by the installer.

blended splice (for poles and fascia)

For an additional fee per splice we can properly connect your splice(s) and ship your wood pole or fascia in one continuous length.

We call it "blended" because we also fill in and paint the connection for a seamless look.

metal bands

attach any rosette to the front of a pole

Metal band slides onto pole and is locked in place with set screw. Set screw should be positioned in the front center of pole because it receives the rosette.

MB100
1" Dia metal band attaches any rosette to front of a 1" Dia pole
rosettes sold separately
shown: EC3 rosette on RR100 pole, finish 620 Weathered Iron

MB138
1 3/8" Dia metal band attaches any rosette to front of a 1 3/8" Dia pole
rosettes sold separately
shown: R24 rosette on WS38 pole, finish 200 Walnut Gold with Gray Accents

MB214
2 1/4" Dia metal band attaches any rosette to front of a 2 1/4" Dia pole
rosettes sold separately
shown: R2 rosette on 225WG pole, finish 710 Tarnished Silver

common uses for metal bands

1. repeated decorative embellishment along the length of a pole

2. hold gathered rod pocket fabric panel in place

3. ring stop

outdoor hardware collection

essential sets

We've done the work for you. We've selected 10 of our most popular, most essential finial designs and combined them with everything you need to complete your window treatment. Our easy-to-order Essential Sets come in 2 diameters – available in 5 hand painted finishes in 3 standard lengths – all at a 20% cost savings to you.

the modern collection

Comprised of sleek, smart designs in our 4 most contemporary finishes, The Modern Collection is our most unique product offering. Understated details and clean lines give this metal drapery hardware collection a fresh and sophisticated vibe.

outdoor hardware collection

Outdoor spaces need hardware, too. We've created 5 weather-resistant finishes and tested them for outdoor use on select products from our Steel Collection. Our 5 Year Warranty guarantees against rust and fading due to conditions such as UV exposure, humidity and sea spray. Let us help you design your outdoor spaces with confidence and style.

outdoor hardware

the outdoor hardware collection includes...

steel finials, poles, brackets, and rings

all products tested...

for outdoor use and guaranteed against:

- UV Exposure
- Humidity
- Sea Spray

5 year warranty

against rust and fading when
properly maintained

5 custom finishes

available on all Outdoor Hardware products
with protective high gloss, weather-resistant
topcoat

*Each order will include 2 oz. of finish and
protective topcoat for periodic maintenance.*

Outdoor Hardware Limited Warranty

All Outdoor Hardware is guaranteed to be free of manufacturing defects and is covered under our Manufacturers Limited Warranty. The product is guaranteed not to rust and the finish not to fade for 5 years if the product is maintained according to the "Product Care" information. In the event of rusting or fading, photography may be requested for finalization of claims on a case-by-case basis.

Outdoor Hardware Product Care

Unlike indoor drapery hardware, outdoor hardware requires periodic maintenance. It is important that any damages or finish abrasion be repaired immediately. Any scratches incurred during installation must be repaired at that time. Stainless steel mounting hardware is recommended, but not included. Each order will include 2 oz. of finish and protective topcoat for periodic maintenance.

In addition, twice a year, it is important to clean and inspect the outdoor hardware for scratches or wear patterns that could expose the metal and result in rusting. This is very important for treatments with rings. If such areas are discovered, apply the paint finish sent with the order. When dry, apply the clear protective topcoat also provided.

please note: allow 10-15 business days for production of Outdoor Hardware Collection. Professional installation recommended due to weight of steel products. Brackets recommended every 3 feet. Splicing not recommended for steel rods.

traverse systems

All the beautiful finials and poles in our 2", 2¼", and 3" Wood and Resin Collections can be paired with any of our Corded and Motorized Traverse Systems. Standard, heavy-duty and Ripplefold®-style options are available for every window treatment, from the light-weight sheers in the guest bedroom to the heavy black-out draperies in the media room.

corded traverse systems

STANDARD TRAVERSE SYSTEMS

- Recommended for lightweight fabrics & sheers
- Single & Double Track Systems available
- Center or One-Way Draw available
- Available with or without wood fascia
- All profiles for 2", 2¼" or 3" wood poles available
- Available with or without decorative wood C-rings
- Pinch pleat carriers available
- Track and brackets available in Bronze, Gold or White; glides available in Bronze or White
- Continuous track available up to 20', fascia available up to 16'; splices and blended splices can be used to achieve longer lengths

HEAVY DUTY BALL BEARING SYSTEMS

- Recommended for heavier treatments with lining or treatments mounted over 10' from floor
- Single & Double Track Systems available
- Center or One-Way Draw available
- Available with or without wood fascia
- All profiles for 2", 2¼" or 3" wood poles available
- Not available with C-rings
- Pinch pleat or Ripplefold®-style carriers available; 80%, 100% or 120% fullness
- Track and brackets available in Bronze, Gold or White; glides and end pulleys available in White only
- Continuous track available up to 20', fascia available up to 16'; splices and blended splices can be used to achieve longer lengths

SINGLE CORDED TRAVERSE SYSTEM WITH WOOD FASCIA

- standard single systems brackets are adjustable: 3½"-4½" projection
- 6" projection brackets may be substituted at no charge
- custom ceiling mount brackets may be substituted for an additional charge
- available with finials or 3½" and 6" mitered returns, sold separately
- C-rings available for traverse systems without mitered returns

DOUBLE CORDED TRAVERSE SYSTEM WITH WOOD FASCIA

- standard double system brackets are adjustable: 2½"-3½" back rod and 5½"-6¼" front rod projection
- custom ceiling mount brackets may be substituted for an additional charge
- available with finials or 6" mitered returns only, sold separately
- C-rings available on front track only for Standard Traverse Systems without mitered returns

DOUBLE CORDED SYSTEM WITH STATIONARY POLE ON FRONT AND TRAVERSE SYSTEM ON BACK

- to order: select Single Traverse System with or without Wood Fascia
- Single Traverse System must be ordered as back rod
- stationary pole and TBKT custom bracket must be ordered separately
- available with finials, sold separately
- rings available on front pole only

Wood fascia and finials available in any standard or custom finish
 Fascia over 16' will be spliced; blended fascia for a seamless look may be requested for an additional fee
 All traverse systems include 4 glides per foot
 All traverse systems include 2 end brackets & additional support brackets every 3-4 feet
 Single traverse systems include adjustable brackets: 3½"-4½" projection
 Double traverse systems include adjustable brackets: 2½"-3½" back and 5½"-6¼" front projection
 Custom ceiling mount brackets and larger projection traverse brackets available; sold separately
 Standard cord drop for all corded traverse systems is 120"
 All corded traverse systems may be requested as hand-drawn (uncorded)

motorized traverse systems

- Standard and Heavy Duty Systems available with plug-and-play power supply for standard wall outlets
- Single and Double Track Systems available in continuous lengths up to 20', spliced lengths up to 40'
- Center or One-Way Draw available; motors may be installed on either side of track
- Wall mount and ceiling mount options available
- Wood fascia available in all 2", 2¼" and 3" profiles and in all standard or custom finishes; continuous lengths up to 16'; splices and blended splices available
- Pinch pleat or Ripplefold®-style available: 80%, 100% and 120% fullness
- Curved track options available; curved fascia not available
- Motorized systems ship with fascia and brackets installed for easy installation

SINGLE MOTORIZED TRAVERSE SYSTEM WITH WOOD FASCIA

- standard single system brackets have a 3½" return
- 6" return brackets may be substituted at no charge
- custom ceiling mount brackets may be substituted for an additional charge
- available with finials or 3½" and 6" mitered returns, sold separately

DOUBLE MOTORIZED TRAVERSE SYSTEM WITH WOOD FASCIA

- standard double system brackets have a 6" return
- custom ceiling mount brackets may be substituted for an additional charge
- available with finials or 6" mitered returns only, sold separately

DOUBLE MOTORIZED SYSTEM WITH STATIONARY POLE ON FRONT AND TRAVERSE SYSTEM ON BACK

- to order: select Single Motorized Traverse System with or without Wood Fascia
- Single Traverse System must be ordered as back rod
- stationary pole and TBKT custom bracket must be ordered separately
- available with finials, sold separately
- rings available on front pole only

BTX DC MOTORIZED SYSTEM

- maximum drapery weight for standard motor: 60lbs
- maximum drapery weight for heavy duty motor: 120lbs
- tandem motors available for increased weight capacity
- solar motor available
- 6 channel white transmitter included
- 10' cord standard, longer lengths may be requested for an additional fee
- track, brackets, and glides available in Bronze, Gold or White
- Ripplefold®-style master carriers allow continuous rippling effect
- touch motion available on all motors
- wall switches available
- spliced lengths up to 40' standard & heavy duty

SOMFY GLYDEA™ MOTORIZED SYSTEM

- maximum drapery weight for standard motor: 77lbs
- maximum drapery weight for heavy duty motor: 132lbs
- Indoor Sun Control Accessory available
- spliced lengths up to 32' standard, 36' heavy duty
- 5 channel white transmitter included
- 10' cord standard
- track and brackets available in Bronze, Gold or white; glides available in White only
- silver motor with internal transformer
- flat overlap Ripplefold®-style master carriers
- touch motion available of heavy duty motors
- wall switches, timers, and other accessories available
- programmable "MY" position, speed control and soft start/stop features available

Wood fascia & finials available in any standard or custom finish
Fascia over 16' will be spliced; blended fascia for a seamless look may be requested for an additional fee
Custom ceiling mount brackets & larger projection traverse brackets available; sold separately
Finials sold separately

Based on your specified finish we supply track and brackets that best match the finish on your fascia. Please refer to the Finish Reference Guide to the left. If you order a custom match finish, please specify your track color.

Components are included in the per foot track price, as listed in the Retail Price List. Components will match the track color when applicable (see chart at bottom of page).

Standard carriers are 4 per foot. Standard brackets are 2 end brackets with 1 support bracket for every 3-4 feet of track.

Wood pole profiles available in 2", 2 1/4" and 3" diameters can be used as fascia.

Spliced fascia will be cut at a 45° angle for an obscure splice.

Spliced fascia can be blended for an additional fee (see Retail Price List). Blended fascia will be properly connected and shipped in one continuous length.

PRICING AND TERMS

Prices found in The Finial Company Price List are our Suggested Retail Prices. Prices are subject to change without notice. Prices are quoted exclusive of Freight and Packaging. The Buyer should always inspect the product upon receipt.

IMPORTANT: Please note that your order will be placed with an authorized Finial Company Distributor. While most of the following will generally apply, your distributor may have terms and conditions of the sale that will vary from what is stated here.

RUSH ORDERS: Rush orders are available. An additional 30% charge applies to product and all fees excluding Freight and Packaging. Rush orders will ship within 5 business days. The 30% rush charge is available for all product except arch rods, bay windows, custom brackets, and mitered returns. If an order is received after 12:00 C.S.T., the next business day will count as the first day of production.

IMPORTANT: Please note that rush orders are not always available due to the nature of scheduling in a strictly custom manufacturing environment. Processing time for a rush order is in Business Days, (excluding holidays) not calendar days.

SHIPPING: All hardware orders are shipped FOB Dallas, Texas. Poles over 96" MUST be shipped by common carrier. Please see The Finial Company Retail Price List for applicable Freight and Packaging fees.

RETURNS, CHANGES & CANCELLATIONS

All orders are considered "CUSTOM". No changes or cancellations will be accepted on orders that have begun production. All returns must be authorized by The Finial Company customer service department, and are authorized at our discretion, given the circumstances and nature of each custom order.

Restocking fees of 40% apply and the customer prepays freight. A Return Authorization Number (RA#) must be issued by customer service and the RA# must be noted on all return packages. Return Credit is issued on returned goods that are inspected and deemed undamaged. Customers should exercise care to adequately package return goods. Return Credit will not be issued for unauthorized returns or damaged returns.

DAMAGED GOODS

Immediately upon receipt, your order should be inspected to insure that there is no concealed damage from shipping. Claims on damaged merchandise must be made within 15 days of receipt. No claims after 15 days will be accepted. If your order is damaged in shipping, carriers require that ALL packing materials be kept in order for a representative to inspect the goods. Our policy is that we replace damaged product per the original order.

Please note on the Bill of Lading if there is any possibility of concealed damaged.

PRODUCT INFORMATION

WOOD POLES AND TRAVERSING RODS: Wood poles and traversing rods are sold in 2 foot increments, 2 foot minimum. We will cut your pole to specification, but we do not save or ship the fall off.

STEEL POLES: All steel poles are sold in 1 foot increments, 2 foot minimum. We will cut to your specification, but we do not save or ship the fall off.

SUPPORT BRACKETS: We recommend support brackets every 3–4 feet.

INSTALLATION: Mollie bolts and nail anchors are recommended for all installations, but are not included. We strongly recommend using a professional installer for our hardware.

FORCE MAJEURE: The Finial Company is not liable for any performance failure that arises from any cause not within its control.

105-OH Bronze

109-OH Flat Black

440-OH Soft Gold

270-OH Mahogany Rust

450-OH Aluminum

2009 finishes

We will continue to paint all 2009 finishes upon request at no additional charge. The finishes on our sample chips gradually change appearance over time, specifically if they have been frequently handled. To ensure an exact finish match, you may request a strike-off for an additional charge. Customer approval of the strike-off sample is required before production will begin. The strike-off process may be skipped, with the understanding that The Finial Company will not be responsible for an exact match to the 2009 finish sample chip.

2009 finishes no longer included in our standard finishes:

101	Antique Burgundy	300	Tudor Rose
102	Antique Venetian	310	Tudor with Ivy
103	Satin Black	340	White - Flat

116	Weathered Gold	415	Coastal Copper
127	Black with Heavy Gold	420	Copper Verde
128	Oxblood Gold	425	Driftwood
133	Antique Brass	430	Verdigris
220	Golden Pecan	435	Silver Patina
230	Red Oak	440	Soft Gold
270G	Mahogany Rust w/Gold Accents	445	Brushed Silver
290	Black Cherry	450	Aluminum

our standard finishes

We offer a comprehensive range of sophisticated finishes to satisfy your needs and preferences...

We are proud to introduce 20 new finishes, including new bronzes, golds and wood tones. Our sample chip design shows both smooth and detailed surfaces, indicating how the finish will look on your selected product.

- ◀ For your convenience, you can unfold this cover to view all of our standard finishes as you browse our product catalog.

our process

Customization has been our custom since we began...

All products are hand painted after we receive your order. The entire order is painted together to ensure a consistent finish. The nature of hand finishing causes some acceptable variation in finish, as each order is truly one-of-a-kind.

- ◀ For more details on Special Finishes, please see the inside back cover.

special finishes

custom finishes and custom color match

Beyond our standard finishes, we can match any finish, fabric swatch, wood trim or paint color specified from your favorite paint company. A finish sample or paint color, sheen level and manufacturer must be provided by the customer. The Finial Company will then provide a strike-off sample to the customer on any wood or steel pole profile as requested. Customer approval of the strike-off sample is required before production will begin.

polished steel finish

Many, but not all, of our raw steel products can be polished and given a clear topcoat to achieve a finished look. Steel is not uniform in color tone and will vary in shades of gray and silver. Polishing raw steel parts requires considerably more preparation work than our other finishes and therefore incurs additional charges. Steel items that cannot be polished are listed in The Finial Company Retail Price List.

adding clear topcoat

For an additional charge, we can add a clear topcoat to any finish to achieve your preferred sheen level.

touch-up paint

Touch-up paint can be sent to the customer on request, for an additional charge.

stains

A wood stain may be specified for any of our wood products. A finish sample or stain color and manufacturer must be provided by the customer. The Finial Company will then provide a strike-off sample to the customer. Customer approval of the strike-off sample is required before production will begin.

Wood products are noted in our catalog. Wood naturally absorbs stain. The grain of the wood will absorb stain unevenly across the surface of the item. Finials, rings, brackets, and poles each absorb stain differently, resulting in a set of hardware containing color variation driven by the wood grain of each piece. This variation is part of the inherent beauty of stained wood.

painting fees

We will repaint hardware from The Finial Company or another manufacturer at the customer's request. We will also paint unfinished hardware from any manufacturer.

Please refer to The Finial Company Retail Price List for more details and a list of applicable charges.

standard finishes

are available on all The Finial Company products
